RE: Long-term Stewardship Plum Creek
IMS# 92594

Date: March 16, 2014

Dear Ms. Skinner,

The project listed above is scheduled for site visit for regulatory review and approval with our Department during the week of April 2015. Staff from EEP, Jeff Horton and Lindsay Crocker, and TNC staff, Angie Carl and Zachary West, recently discussed a tri-party agreement signed July 29, 2009 between TNC, Plum Creek Timberlands, and the Louis Berger group.

Once this site is approved by regulatory agencies, we understand that The Nature Conservancy will serve as the primary steward of this site as described in the Tri-Party Agreement. Stewardship responsibilities include upholding the Deed Restrictions, held by the NC Department of Administration's State Property Office and recorded at Book 2690 and Page 0486 of the Brunswick County Register of Deeds. This document, along with the plat, and shape files are also available on our portal, at http://portal.ncdenr.org/web/eep/parcel-information.

The Nature Conservancy will be notified of regulatory approval following the April site visits. Any future questions about the conservation easement may be directed to the EEP property section or NC Department of Administration's State Property Office.
