The Albemarle-Pamlico National Estuary Partnership

Sound Stories

February 2018

This February, APNEP had ecological indicators on the brain. Staff have been working with our [Monitoring and Assessment Teams](#) to identify potential ecological indicators - tackling topics such as water quality, wetlands, and land use - that will help us to assess and monitor the status of the Albemarle-Pamlico region. APNEP's compiled list will be discussed at the upcoming [Science & Technical Advisory Committee meeting](#) on March 2nd, and subsequently narrowed down to a list that APNEP and our partners can work to monitor throughout our region. We look forward to sharing updates on the status of these assessment efforts throughout 2018!

SciREN Coast teacher-researcher networking event, as well as helping with APNEP-sponsored initiatives such as a teacher workshop for this year's [Shad in the Classroom](#) program and a [Marine Planning Processes Workshop](#) for coastal management professionals.

Sincerely,

Dr. Bill Crowell
APNEP Director

APNEP News

APNEP Staff Share Lesson Plans & Resources at SciREN Coast

APNEP staff had a great time sharing some of our lesson plans and resources with teachers at last week's Sciren Coast event, held at the NC Aquarium at Pine Knoll Shores. For those who weren't able to attend SciREN this year, APNEP's teacher resources are also available on our website.
