Targeted Inmate/Resident/Detainee Interviews	
45. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	14
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
47. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	5

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

71. Did you have access to all areas of the facility?	(●) Yes ( ) No
Was the site review an active, inquiring process that included the following:	
72. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	(●) Yes ( ) No
73. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	(●) Yes ( ) No
74. Informal conversations with inmates/ residents/detainees during the site review (encouraged, not required)?	(●) Yes ( ) No
75. Informal conversations with staff during the site review (encouraged, not required)?	(●) Yes ( ) No

76. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

77. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	(●) Yes ( ) No
78. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

Reasoning and analysis:

115.42(a)

- Facility response:
  - The agency/facility uses information from the risk screening required by §115.41 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those offenders at high risk of being sexually victimized from those at high risk of being sexually abusive.
- NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy*:
  - Restated the language of the provision.
- NCDAC OPA-S010 *Screening for Risk*:

- NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy*:
  - The facility shall make individualized determination for bed assignments, based on facility housing designs, to ensure the safety of each offender.
  - Facilities will consider such factors as the amount of staff supervision in the area, the presence or absence of surveillance equipment, and whether the job is in an isolated area prior to making assignments for high-risk abusers.
  - Facilities shall take appropriate action to ensure all program assignments are appropriate for high-risk abusers.
- NCDAC OPA-S010 *Screening for Risk*:
  - Displayed HRA and HRV offender lists to facilitate individualized housing, work, programing, and education assignments.
- Documentation review:
  - HRV offenders were assigned to several housing units and various job assignments.
- Interview with staff responsible for risk screening:
  - Indicated risk screening information is used at the diagnostic facility to determine HRA and HRV designations. SCI staff then use these designations to keep HRA and HRV offenders separated in housing, job, and programing assignments.

- Interviews with a random sample of staff

Reasoning and analysis:

115.64(a)

- Facility response:
  - The agency has a first responder policy for allegations of sexual abuse.
  - The policy requires that, upon learning of an allegation that an offender was sexually abused, the first security staff member to respond to the report:
    - Separate the alleged victim and abuser; and
    - Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence.
  - The policy requires that, if the abuse occurred within a time period that still allows for the collection of physical evidence, the first security staff member to respond to the report:
    - Request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and

  - Zero allegations of offender sexual abuse were reported in the past 12 months. (*The auditor confirmed through documentation review there were five investigations after an allegation of sexual abuse during the 12-month review period.*)
  - Zero allegations of offender sexual abuse where the first security staff member to respond to the report separated the alleged victim and abuser.
  - Zero allegations of offender sexual abuse where staff were notified within a time period allowing for physical evidence collection.
  - Zero allegations of offender sexual abuse where the first security staff member to respond to the report preserved and protected any crime scene until appropriate steps could be taken to collect any evidence.
  - Zero allegations of offender sexual abuse where the first security staff member to respond to the report requested that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.
  - Zero allegations of offender sexual abuse where the first security staff member to respond to the report ensured that the alleged abuser not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.
- NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy*:
  - Ensure alleged victim is safe by separation from an alleged abuser.
  - Preserve and protect the crime scene until appropriate steps can be taken to collect any evidence.
  - Request the alleged victim not take any action which may destroy physical evidence.

	◦ Ensure alleged abuser does not take any action which may destroy physical evidence. • Documentation review: ◦ The auditor reviewed five investigations conducted after an allegation of sexual abuse, during the 12-month review period. ■ Victims were separated from other parties involved and medically assessed where appropriate. ■ Physical, video, and testimonial evidence were preserved and collected where applicable. • Interviews with a random sample of staff: ◦ Indicated first responder duties include separation of alleged victim from abuser, notify the OIC or direct supervisor, monitor the alleged victim, secured scene to preserve any evidence, ensure offenders involved do not destroy evidence on their person, have victim assessed by medical, and completed a statement of all actions taken. **115.64(b)** • Facility response: ◦ Agency policy requires that if the first staff responder is not a security staff member, that responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence. ◦ Agency policy requires that if the first staff responder is not a security staff member, that responder shall be required to notify security staff. ◦ Zero allegations of sexual abuse where a non-security staff member was the first responder. • NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy:* ◦ Restated the language of the provision. • Documentation review: ◦ Auditor observed zero investigations during the 12-month review period where a non-security staff member was the first responder to an allegation of sexual abuse. **Determination**: The facility meets the standard.

    - SCI Memorandum Re: PREA Compliance Manages, PREA Investigators and PREA Support Person (PSP*), dated 07.29.2026*
- Documentation review
- Interview with agency head designee
- Interview with warden
- Interview with staff member charged with monitoring

Reasoning and analysis:

115.67(a)

- Facility response:
    - The agency has a policy to protect all offenders and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other offenders or staff.
    - The agency designates staff member(s) or charges department(s) with monitoring for possible retaliation including the program director, program supervisors, and case managers.
- NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy*:
    - The PSP shall monitor retaliation against the victim and the offender

who either report allegations, or cooperate with investigations, of sexual abuse or sexual harassment.
    - The PCM shall monitor for retaliation against staff that either report or cooperate with investigations, of sexual abuse or sexual harassment.
- SCI Memorandum Re: PREA Compliance Manages, PREA Investigators and PREA Support Person (PSP):
    - Designated the program director, two program supervisors, and two case managers as the facility PSP.
    - Designated a unit manager as the primary PREA compliance manager (PCM) and the facility compliance manager as the secondary PCM.

115.67(b)

- Interview with agency head designee:
    - Indicated PSP is tasked with monitoring any offender who alleges to be a victim, who reported, or who participates in the investigation. The PCM is tasked with monitoring retaliation for a staff member who may have reported and or been involved in that investigative process.
- Interview with warden:
    - Indicated the facility protects offenders and staff from retaliation by creating a culture of zero tolerance towards retaliation. A PSP is assigned to the alleged victim and checks in with the offender periodically.
- Interview with staff member charged with monitoring retaliation:
    - Indicated role as a PSP who is responsible for retaliation monitoring against an offender who reports sexual abuse or cooperates with an investigation.
    - Indicated making periodic status checks with the offender by meeting once a week for the first three weeks and then every 30 days, for a total of at least 90 days.

115.67(c)

- Facility response:
    - The agency/facility monitors the conduct or treatment of offenders or staff who reported sexual abuse and of offenders who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by offenders or staff.
    - The agency/facility monitors for a minimum of 90 days.
    - The agency/facility acts promptly to remedy any such retaliation.
    - The agency/facility continues such monitoring beyond 90 days if the initial monitoring indicates a continuing need.
    - Zero incidents of retaliation occurred in the past 12 months.
- NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy*:
    - Continue monitoring for a minimum of 90 days or beyond 90 days if the initial monitoring indicates a continuing need.
- Documentation review:
    - The auditor reviewed three investigations for allegations of sexual abuse with an unsubstantiated outcome.
        - Periodic status checks were documented for each alleged victim.
        - Retaliation monitoring was discontinued for two investigations due to offenders being released or transferred.
- Interview with warden:
    - PSP will monitor job assignments, disciplinaries, and other documentation for any changes. Any evidence of retaliation would lead to a disciplinary action for the offender or staff who retaliated

	against an offender. • Interview with staff member charged with monitoring retaliation: ◦ Indicated monitors offender documentation for write-ups or other issues that may be seen as retaliation. Would also monitor changes to bed, job, and educational assignments. ◦ Indicated monitoring for 90 days or longer if there is an ongoing issue. **115.67(d)** • Form OPA-I24 *Prison Rape Elimination Act (PREA) Retaliation Monitoring – Persons in Confinement*: ◦ Contained section for documenting status checks related to retaliation monitoring by the PSP of alleged victim or offenders who reported or cooperated with the investigation. • Form OPA-I22 *Prison Rape Elimination Act (PREA) Retaliation Monitoring – Staff*: ◦ Contained section for documenting status checks related to retaliation monitoring of staff by the PCM. **115.67(e)** • Interview with warden: ◦ Indicated any offender or staff who expressed a fear of retaliation after being part of an investigation would be monitored. ◦ Indicated PSP would monitor an offender who alleged sexual abuse for 90 days, or longer if necessary. PSP checks in with the offender and reviews documentation for any housing, job, or other issues. **115.67(f)** Auditor is not required to audit this provision. **Determination**: The facility meets the standard.

115.68	**Post-allegation protective custody**
	Auditor Overall Determination: Meets Standard

	Evidence relied upon in making the compliance determinations: • SCI PAQ ◦ Facility response ◦ NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy, dated 06.09.2022* • Supplemental documentation ◦ NCDAC Policy and Procedure O.0300 *Conditions of Confinement, dated 04.30.2025* • Interview with warden • Interview with staff who supervise offenders in segregated housing

Reasoning and analysis:

115.68(a)

- Facility response:
  - The agency has a policy prohibiting the placement of offenders who allege to have suffered sexual abuse in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers.
  - Zero offenders who allege to have suffered sexual abuse who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment.
  - Zero offenders were held in involuntary segregated housing awaiting assessment or alternative placement.
  - If an involuntary segregated housing assignment is made, the facility affords each such inmate a review every 30 days to determine whether there is a continuing need for separation from the general population.
- NCDAC Policy and Procedure F.3400 *Offender Sexual Abuse and Sexual Harassment Policy*:
  - Offenders at high risk for sexual victimization shall not be placed in restrictive housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the offender in restrictive housing for less than 24 hours while completing the assessment.
  - The warden has the discretion regarding how separation occurs, who is moved, and where. Should the alleged victim be placed in restrictive housing, then an analysis of 1) information from the preliminary review to include the type of allegation, 2) prior complaints filed against the alleged abuser, 3) will the movement appear punitive toward an alleged victim shall be considered, and 4) documentation of the decision to move the alleged victim.
- NCDAC Policy and Procedure O.0300 *Conditions of Confinement*:
  - Included classification status for offenders who must be temporarily restricted from the general offender population to provide necessary control while completing an investigation.
  - Status will be reviewed and documented every seven days for the first two months and at least every 30 days thereafter.
- Interview with warden:
  - Indicated the facility does not place offenders who allege sexual abuse in involuntary segregated housing unless there is an imminent threat to the offender’s safety and this is no available alternative placement.
  - Indicated offenders at high risk for sexual victimization are not placed in involuntary segregated housing. HRV offenders are separated from HRA offenders through use of different housing units or different areas of a housing unit.
- Interview with staff who supervise offenders in segregated housing:
  - Indicated offenders who are at risk of sexual victimization or who allege sexual abuse are not placed in involuntary segregated housing. An offender would have to request protective custody or there be a credible threat to their safety.
