VI. **GENERAL INFORMATION**

- A. This proclamation is issued under the authority of N.C.G.S. 113-134; 113-170.4; 113-170.5; 113-182; 113-182.1; 113-221.1; 143B-289.52 and N.C. Marine Fisheries Commission Rules 15A NCAC 03H .0103 and 03J .0103.
- B. It is unlawful to violate the provisions of any proclamation issued by the Fisheries Director under their delegated authority pursuant to N.C. Marine Fisheries Commission Rule 15A NCAC 03H.0103.
- C. The restrictions in this proclamation apply to and are in addition to the maximum allowed yardage for Recreational Commercial Gear License holders described in N.C. Marine Fisheries Commission Rule 15A NCAC 03O .0302.
- D. **All other existing gill net rules and proclamations remain in effect.** See <https://deq.nc.gov/about/divisions/marine-fisheries/rules-proclamations-and-size-and-bag-limits/fisheries-management-proclamations#currentprocs> to refer to those M-type proclamations for gill net regulations that may be effective in the areas covered by this proclamation.
- E. Proclamation [M-1-2024](#) dated December 15, 2023 prohibits the use of gill nets during the weekend in the Joint Fishing Waters of the state. The closure is effective from 12:01 A.M. on Saturday to 12:01 A.M. on Monday of each week. Portions of Albemarle and Currituck sounds are exempt from that provision in accordance with the N,C, Spotted Seatrout Fishery Management Plan.
- F. N.C. Marine Fisheries Commission Rule 15A NCAC 03I .0113 specifies that it shall be unlawful for any licensee under Chapter 113, Subchapter IV of the General Statutes to refuse to allow the Fisheries Director or their agents to obtain biological data, harvest information, or other statistical data necessary or useful to the conservation and management of marine and estuarine resources from fish in the licensee's possession.

- The Division of Marine Fisheries has implemented an Estuarine Gill Net Permit and an observer program as an inspection procedure to obtain such data.
- G. The Division of Marine Fisheries has received an Endangered Species Act Incidental Take Permit (ITP) for threatened or endangered sea turtles, and endangered sturgeon. This ITP allows the legal continuation of the inshore gill net fisheries in North Carolina, subject to permit conditions. The ITP conditions are designed to avoid & minimize and mitigate interactions with these species in gill net fisheries permitted by the ITP (i.e., non-exempted gill net fisheries). Permit conditions require the division to provide 7–10 percent observer coverage in the permitted large mesh gill net fishery and 1–2 percent observer coverage in the permitted small mesh gill net fishery in Internal Coastal Waters. **If the required coverage is not maintained, large and small mesh gill nets permitted by the ITP could be prohibited in all Internal Coastal and Joint Fishing Waters.**
- H. The intent of this proclamation is to implement gill net restrictions in accordance with the Division's FMPs for estuarine striped bass, river herring and southern flounder, and the Division's ITP for threatened and/or endangered species. This allows for the blue catfish, white perch, and other small mesh fisheries in specified areas and times with minimal impacts to other species.
- I. **Proclamation FF-26-2024 dated June 20, 2024 states that from January 1 through September 30, it shall be unlawful for a commercial fishing operation to take or land mullet for commercial purposes from 11:59 P.M. Friday to 12:01 A.M. Monday each week, and from October 1 through December 31, it shall be unlawful for a commercial fishing operation to take or land mullet for commercial purposes from 11:59 P.M. Friday to 12:01 A.M. Tuesday each week.**

- K. In accordance with N.C. General Statute 113-221.1(c), all persons who may be affected by proclamations issued by the Fisheries Director are under a duty to keep themselves informed of current proclamations.

- M. **This proclamation supersedes proclamation M-24-2025 dated October 21, 2025. This proclamation removes gill nets configured for harvesting flounder, maintains small mesh gill net attendance requirements and keeps open a portion to the use of ITP exempted gears (i.e., runaround, strike, and drop gill nets) with a stretched mesh length of 5 ½ inches through 6 ½ inches for harvesting blue catfish in Internal Coastal and Joint Fishing Waters in Management Unit A.**
