

Credits for Online Educator Workshops

For each workshop, participants complete **one option** per assignment. With one exception, workshops contain five assignments; each correctly completed assignment counts for 8 contact hours (.8 CEUs). Only the **Women in North Carolina History** workshop contains four assignments and for it, each correctly completed assignment counts for 10 contact hours (1 CEU). Certificates will specify the number of hours earned for three types of credits depending upon the options chosen to complete each assignment. These credits are:

- “General Education/Social Studies,” for any option not otherwise designated;
- “Digital Learning Competency,” for options noted with this designation; and
- “Reading/Literacy” for options noted with this designation.

BUT NOTE: Any reading or digital learning competency option may count for general education/social studies credit; please inform the workshop instructor of this request when submitting the work. The reverse is NOT available. Options not specifically marked for technology or reading may not count for either of those types of credit.
