  – Detailed mileage logs must be maintained and provided as requested.
Grant Guidance Updates for the 2020-2021 Fiscal Year

Grant Guidance Updates for the 2020-2021 Fiscal Year

- **ERaCA submissions for non-LEAs**
  - NCDPI is requiring all Non-LEAs to submit for reimbursement in the ERaCA system at least once monthly.

- This action benefits the grantee as it allows for better fiscal oversight of expenditures

- This action further lessens the risk of on-site fiscal monitoring reviews and ultimately an audit.
Grant Guidance Updates for the 2020-2021 Fiscal Year

• BAAS submission for LEAs
  – NCDPI will require in 2020-2021 grantees to submit within the Local Budgeting Systems at least quarterly, after the initial 30 days of programming.

  – This action benefits the grantee in allowing for better fiscal oversight of expenditures.

  – This action further lessens the risk of on-site fiscal monitoring reviews and ultimately an audit.
Grant Guidance Updates for the 2020-2021 Fiscal Year

• Emergency Drills/Policies
  – Policies and procedures related to emergency drills (not related to weather) must be in place for each grantee and be site specific to address the following; lockdowns, lockouts and reuniting students with parents in a designated and safe location
Grant Guidance Updates for the 2020-2021 Fiscal Year

- Fiscal Reviews/Questioned Cost

- Beginning with the 2020-2021 grant year, if questioned cost are identified within the “sample” drawdowns during a fiscal site visit and/or desk review, DPI staff must review all BAAS and/or ERaCA submissions for the grant year in question to determine if there are additional questioned cost to be returned to DPI.
Grant Guidance Updates for the 2020-2021 Fiscal Year

• Subcontractors
  – 21st CCLC programs should exercise caution in selecting subcontractors for their program.
  
  – Subgrantees may not contract with any party that is debarred, suspended and/or ineligible for participation in federal programs.
  
  – All vendors must have professional qualifications and a taxpayer ID for the business providing the professional service.
21DC Overview

Anita Harris, Fiscal Monitor & Data Manager

Federal Program Monitoring & Support
21DC: What is it and How is it Used?

- Stands for 21st CCLC Data Collection
- School Year and Summer data is entered into 21DC, then entered into USED’s 21APR (21st CCLC Annual Performance Report) system after closing 21DC for that term
- Feeder School rosters are used to choose attendees for recording daily attendance – for Summer 2020 attendance, you will still use 2019-20 rosters
21DC: How To Gain Access

• Gaining access to 21DC is a two-step process
  1. Providing a Confidentiality Agreement for the Data Entry Designee, to ensure compliance with FERPA* and Personally Identifiable Information (PII) regulations
  2. Registering on 21DC with a valid NCID

* The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records.

NC 21st CCLC Out-of-School-Time Program Quality Self-Assessment

ASSESSING OUT-OF-SCHOOL-TIME PROGRAM QUALITY

Many highly effective organizations and programs go through a regular process of internal self-assessment, which, in turn, informs annual goal setting and improvement planning. The self-assessment process for out of school time programs can be broad as described below (comparing current functioning to what is considered “best practice” in the field). Or the focus of self-assessment process could be more narrow (focusing on a particular aspect of transforming like the quality of STEM activities provided to after school students). Below we provide a resource for conducting a broad self-assessment process.

The NC 21st CCLC Out-of-School Time Program Quality Self-Assessment format is designed to engage program leaders in thoughtful discussions about strengths and areas needing improvement. Although designed for use by 21st CCLC programs in North Carolina, it can be used by any after school program.

NC 21st CCLC Out-of-School-Time Program Quality Self-Assessment Toolkit

To use the NC 21st CCLC Out-of-School-Time Program Quality Self-Assessment, complete the following steps:

1. For an overview of the Self-Assessment, review the Background and Instructions (pdf).
2. Complete the Self-Assessment Tool (Editable pdf form) by responding to the questions under each of the eight quality standards.
3. Complete the Self-Assessment Summary to view the results of your responses for the quality standards.
4. Complete the Self-Assessment Planning Worksheet (Editable pdf form) to plan efforts to address the two or three standards that need the most attention in the upcoming months.

Download the full out of school Time Program Quality Self-Assessment Toolkit (Editable pdf form).

There are three ways to access and use the toolkit:

- Open and print for completing as hard copy.
- Open and complete online, and a filled copy for your records.
- Open, download, and save to your computer, to complete and save as a digital record.

Resources for Quality Standards

Based on the knowledge and experience of out of school-time providers, researchers, and other professionals, in North Carolina and across the country, the North Carolina Center for Affordable Programs OC’s goal is to delineate what high quality out of school-time programs have in common. NC GAP has developed and made available a set of quality standards for these programs. In 2015, the SERVE Center at UNCG, in collaboration with the Federal Manufacturing and Industrial Division at NC State, adapted the standards to serve as the framework for the NC 21st Out-of-School Time Program Quality Self-Assessment.

Sipnayan Math Center will utilize 2 sites for the 21st CCLC program. The selection of these vendors followed EDGAR conflict-of-interest, procurement, and reasonable guidelines. Signed and dated contract will be on file at 21st CCLC office.

**Site 1: Program Site Sallie B Howard School** (1004 Herring Avenue East, Wilson, NC 27893)
Sallie B Howard Middle School Building, built in 2012, is the main site of the afterschool program. It is approximately 6,500 square feet with 6 classrooms and 2 4-cubicle bathroom. The afterschool program will also have access to the school gym for extra curricular activities, major parent meetings, assemblies, performances and other culminating activities. The school auditorium will also be utilized for year-end program. The program site will be rented for 11 months from September 1, 2019 to July 31, 2020 for $2,500 per month, which also includes utilities, internet service, the use of smartboard and furniture. The program will have access to the site from Monday to Friday from 3:15pm to 6:40pm and some Saturdays during program activities.

**Site 2: Office/Professional Development/Parent Classes** (900 Hines St W, Wilson, NC 27893)
The Sipnayan Math Center location will be used as the office site of the Sipnayan-21st CCLC program. This will be the venue to secure all important documentation. This will serve as a storage location of computer equipment and other procured materials during after-school breaks. In addition to being an office location, this will also be the site for staff professional development and parent ESL classes on Saturdays. This site will be rented for 12 months starting on September 1, 2019 to August 31, 2020 for $700.00 per month. The rent includes utilities, internet service and security system.

This budget will include computer supplies and online subscriptions, except those pertaining to telecommunications (under a different code). Computer supplies will include the year’s supply of printer/copier toner for $800.00.

Computer software and supplies will also include the yearly cost of $300 to maintain the afterschool program website.

As part of the program’s focus on Financial Literacy, Sipnayan Math Center has partnered with the NC Center for Economic Education (NCCEE). The center provides educational materials and actively engaging activities to promote financial literacy. One of the programs is the Stock Market Game, a realistic Stock Market experience for students who will develop their own financial portfolio. Students will be able to invest and watch their investment grow or decline. Students will be competing against other afterschool or regular school students. The registration fee for this program is $15/group x 33 groups = $500.00.

Based on the feeder school’s feedback, one of the students’ needs in the middle school department is to be able to write essays using the computer with speed and accuracy. This will give students more time on the content of the topic they are writing about than spending too much time on typing itself. This school year, the program is subscribing to a keyboarding online by Ellsworth Publishing Company. The total cost of the subscription for 100 students is $335.00.

This budget is allocated for storage cabinets, $650.00, and musical instruments for $2,120.00.

The center will purchase two (2) storage cabinets for $325.00 each.

Students who come regularly receive daily enrichment for math and ELA which is the major focus of the program. One of the major “attractions” of the program that encourages students to come regularly is the music department. In this department, students learn to play different instruments and become part of a bigger production composed of different musical parts. This year, the center will invest on purchasing musical instruments, such as a microphone, keyboard, keyboard amplifier, bass guitar, bass guitar amplifier, tambourine, congas, xylophone and cymbals.

The program will use the buses owned by Sipayan Math Center. The center will charge the 21st CCLC program using the same rate as the Wilson County Schools transportation rate for rented activity buses, which is $1.75 per mile. This rate is inclusive of vehicle maintenance, commercial insurance, registration and fuel.

The center will provide three buses to safely transport about 100 students from the Program Site (1004 Herring Ave E, Wilson, NC 27893) to the students’ residence within Wilson County. The center will provide an additional bus if the number of students increases and the duration of the routes increases to about 1.5 hours. The bus drivers will maintain a daily mileage log which will be submitted to the Bookkeeper. The mileage log will include the following information: driver’s name, bus information, miles driven, number of students and driver’s signature.

The dates and terms of this agreement will be for a period of 11 months from September 1, 2019 to July 31, 2020. The selection of this vendor followed EDGAR conflict-of-interest, procurement, and reasonable guidelines. Signed and dated contract will be on file at the 21st CCLC Site.

The average mileage per bus per day is 40 miles. During the school year (152 regular schedule and 10 intersession days), the total estimated mileage is 110 miles per day for the three (3) buses based on drop-off only. During the summer (25 days) and intersession days, the total estimated mileage is 220 miles per day for the three (3) buses based on pick-up and drop-off routes.

Five Strands Listed on Monitoring Report

1. Program Management
2. Program Implementation
3. Family and Community Engagement
4. Federal, State and Local Statutes
5. Fiscal Management
The State Educational Agency (SEA) is required to monitor the quality and effectiveness of the programs operating with funds provided through 21st Century Community Learning Centers (21st CCLC) grant program (EDGAR, 2 CFR & 200.331). Monitoring of the 21st CCLC subgrantees focuses on indicators across five (5) compliance strands: Program Management; Program Implementation; Family Engagement; Federal, State and Local Statutes; and Fiscal Management.

Program Administrators use the instrument to review documentation and conduct interviews compared to the data and narrative descriptions submitted in the approved project. Each indicator within a compliance strand is rated as follows:

Strand II: PROGRAM IMPLEMENTATION

21st CCLC programs must use award funds to offer students a broad array of services and activities that are designed to reinforce and complement the regular academics of participating students described in the grant. *(Section 4201(a)(2); Section 4204(b)(2))*
Program Schedules

How can you ensure that you are making the most of the afterschool hours and increasing students’ desire to learn? Research indicates that students get the most out of afterschool programs that:

- Develop thoughtful, fun, accessible, activities in a safe environment; build in transition time
- Survey and build on students’ interests
- Motivate and engage all students to participate
- Connect to grade-level benchmarks, standards, and the school-day curriculum to increase achievement
- Provide real-world activities that connect to the broader community
- Provide effective tutoring and differentiated instruction for all skill levels
- Integrate technology
- Provide homework help
- Plan activities that engage students and enhance skills across the curriculum
- Alignment with approved project

<tbody>
<tr>
<td>Reading lesson on the book, Otis</td>
<td>K-2</td>
<td>45 minutes</td>
<td>6/27/2014</td>
</tr>
</tbody>
</table>

Learning Objective(s):

- Make predictions, learn new vocabulary, and demonstrate comprehension of the story
- Participate in discussion and respond to text in meaningful ways through writing or drawing
- Develop group work skills by working together and listening to others

Materials Needed:
A copy of the book Otis, chart paper, writing or drawing paper and crayons/colored pencils, resources about farms and/or farm animals

Preparation:
- Read the book Otis, and develop questions for discussion.
- Begin a word wall or chart of the new vocabulary words that the story introduces.
- Create a KWL Chart for recording students’ prior knowledge, questions, and what they learned

BEFORE READING | DURING READING | AFTER READING

Purpose: Activate prior knowledge, make predictions, discuss vocabulary

Purpose: Engage with the text, self-monitor comprehension

Purpose: examine questions that guided reading; respond to text through writing/drawing

Strategy:
Preview: KWL Chart. Using a Vocabulary word wall or chart

Strategy: Read Aloud. Asking during reading questions

Strategy: Discussion. Using a graphic organizer to summarize

Procedure:
1. Preview the cover of the book by pointing out the title, author and picture. Ask students about background knowledge about farms, cows, and tractors to record students’ answers on a KWL chart.
2. Ask students to make predictions about what will happen in the story.
3. Introduce new vocabulary words and add new words to a word wall or chart while reading the book, e.g., bales, hay, calf.

Procedure:
1. Read aloud the book.
2. Ask questions to promote comprehension, e.g., Why did the farmer buy the new tractor?
3. How did Otis feel when the new tractor came to the farm?
4. Ask students for additional questions or responses to the text.

Procedure:
1. Discuss the themes of the story, e.g., friendship, and ask students what they learned to complete the KWL chart. Ask students for questions or initial responses to the ending.
2. Have students complete an illustrated response to reading (e.g., Story Map). Ask students to draw out the story map or favorite parts of the story.
3. Extend learning if time permits. Continue to read books about farms and/or farm animals and students work in groups to write a sequel to Otis.

Evaluate (Outcomes to Look For) / Additional Notes:

- Students show an understanding of the characters, setting, plot and themes of the story.
- Students increase in background knowledge and vocabulary related to the reading content.
- Students grow in understanding of the before, during and after reading process.
- Students work together to create a response to reading.

• Governor Cooper has announced NC Public Schools will open under modified social distancing Plan B
• Requirements:
  – Face coverings will be required for every teacher, staff member and student from kindergarten through high school.
  – Limit the total number of people in buildings so that 6 feet of distancing is possible, for example, when students are seated or in line.
  – Symptom screenings, including temperature checks, will take place daily before children and staff enter your program (even if they were screened in the morning).
  – Create a way to isolate students or staff who have symptoms and ensure that they can get home safely.
  – Schedules must allow time for frequent hand washing and programs will regularly clean classrooms, bathrooms, buses and equipment.
  – Teachers will work to limit sharing of personal items and classroom materials.
  – Nonessential visitors and activities involving outside organizations will be limited.
