SEL Defined

Core SEL Competencies

Where do students need social emotional skills?

Research on SEL indicates connections with achievement and an overall impact on students.

See this meta-analysis summary on SEL’s impact.

EQUITY

CASEL believes “SEL instruction and opportunities are essential to an effective and sound education for all children and youth regardless of race, socioeconomic status, gender, and/or other cultural differences.” Our State Board of Education (SBE) supports both Whole Child and equity through the 2025 Statewide Strategic Plan.

Career & Technical Education
Summary of NC SEL Implementation Plan

BUILD FOUNDERAL SUPPORT & PLAN
North Carolina has created an implementation plan for scaling up integrated social emotional learning across our state. We are establishing our working groups; developing a shared, statewide vision; assessing our needs and resources; developing our communication plan; and aligning our resources and policies.

STRENGTHEN ADULT SEL COMPETENCIES & CAPACITY
North Carolina is developing adult expertise on SEL through our professional learning systems. We will create conditions to support SEL across the educator pipeline; strengthen adult social and emotional competence and leadership to advance SEL through collaboration with districts, communities, and families; and promote equity through SEL.

PROMOTE SEL FOR STUDENTS
North Carolina is promoting and supporting adoption and implementation of evidence-based programs and practices and promoting SEL integration with academic standards and other school based frameworks. We will support implementation of Prek-12 SEL competencies; develop and strengthen family partnerships through policies, systems, and supports; and develop and strengthen SEL-related community partnerships.

USE DATA FOR CONTINUOUS IMPROVEMENT
North Carolina is creating a state-level SEL Data Evaluation Plan to include mapping existing student outcome and adult implementation data. We will develop strategies and tools for supporting SEL implementation for continuous improvement using a problem solving model.
