Term: 10 months, July 1 - June 30

Purpose: Provides guaranteed funding for salaries for classroom teachers, including Program Enhancement Teachers. To qualify as a classroom teacher and to be charged against this allotment, an individual must spend a major portion of the school day providing classroom instruction and shall not be assigned to administrative duties in either the central or school offices. Eligibility: Each LEA is entitled to positions. The number of positions allotted is based on the formulas listed below.

Formulas:
The following positions are calculated separately and then consolidated into PRC 001. The total positions are then multiplied by the LEA’s average monthly salary (based on prior year 6th pay period plus legislated salary increases) plus benefits. The individual formulas are listed below.

After the first month of school, a LEA can request additional resources due to extraordinary student population growth. Allotments will be adjusted within available funds. (See General Information Section, Allotment Adjustment for ADM growth.)

For city LEAs with less than 3,000 ADM, fractions are rounded up to the nearest whole position.

MATH / SCIENCE / COMPUTER TEACHERS:

Each county is entitled to one position. Positions will be divided between county and city LEAs based on previously approved plans. The percent split will remain in effect until the plan is revised and DPI is notified. Plans do not have to be submitted to DPI.

SPECIAL PROVISIONS:

1. Refer to the School Attendance and Student Accounting Manual produced by the Division of School Business.

2. Additional classroom teachers may be allotted within available funds based on the provisions outlined in Section 01 and upon request by the superintendent to the Division of School Business. (See General Information Section, Small Schools)

3. It is recommended that the teachers generated by self-contained/separate classrooms serving children with disabilities be used for children with disabilities. This includes self-contained/separate classes for autism, deaf-blind, behaviorally-emotionally disabled, developmental delayed, educable mentally disabled, hearing impaired, learning disabled, multi-handicapped, orthopedically impaired, other health impaired, speech-language impaired, severe profound, trainable mentally disabled, traumatic brain injured and visually impaired.

4. Senate Bill 765, Modified Section 1, General Statutes 115C-12(24) states that LEAs shall use (i) the teachers allocated for students assigned to alternative learning programs pursuant to the regular teacher allotment and (ii) the teachers allocated to students assigned to alternative learning programs only to serve the needs of these students.

5. The State regulations permit LEAs to identify a state allotted teaching position (no additional positions are provided and no Career Technical Education funds can be used) and use that position to pay a Junior ROTC instructor, provided the local school does employ another teacher using local funds to replace the use of the State allotted position. For each Junior ROTC position paid from State funds, a locally paid position must be provided.

6. Teachers on Loan Additional positions may be allotted to LEAs which have teachers from their LEA selected to serve with the Department of Public Instruction. The teachers selected will work at designated LEAs throughout the State in support of major State Board of Education initiatives such as school assistance, teacher inductions, technology assessment/training, and student improvement. These additional teacher positions are allotted to the LEAs from which the teachers are employed since the reassigned teachers will remain on the LEA’s payroll. The allotment will be in PRC 096 Special Position Allotment or in PRC 095 Special Dollar Allotment.

7. Teacher of the Year - An additional position (12 months) is allotted to the LEA from which the Teacher of the Year is selected. This allotment will also be allotted in PRC 096, Special Position Allotment.

8. All newly certified teachers (local & state) who have never taught before, or taught less than 6 months, are eligible for up to three extra days of employment for orientation and classroom preparation. This includes lateral entry teachers that are newly certified and have never taught before. If the teacher does not have zero years on his or her license due to non-teaching experience being credited, then the Salary Administration School Financial Reporting Section must approve the new teacher orientation funding. The teacher is to be
paid appropriately for the teacher's certification level and years of service. Eligible Teachers must be paid from pay code object 125 for the additional days of employment. The state will pay up to 3 days of training per eligible teacher based on the teacher's daily rate of pay. The School Allotments Section will allot funds beginning in March based on the number of eligible teachers paid, not to exceed 3 days per teacher. Once the number of participants and additional days of service are identified, your regular classroom teacher position allotment will be increased. The three additional new teacher orientation days must be completed by April 30th. Any new teachers hired after this date should go through orientation with the new teachers for the next fiscal year.

9. If a LEA plans to convert a position to contract for an International Faculty Exchange (IFE) member, that unit may request the conversion of positions to dollar equivalents. This applies only to IFE programs.

- To request the conversion, the LEA must submit the form entitled "Program Expansion Teacher Positions Request for Conversion to a Dollar Allotment" to the Division of Pre-Kindergarten and Elementary Education Global Education in the Division of K-12 Standards, Curriculum and Instruction. If approved, funds must be used in accordance with the plan submitted and approved.

- Positions converted used to cover costs associated with bringing an International Faculty Exchange (IFE) to the LEA through the International Exchange Program will be converted at a rate of $64,558 (includes benefits).

- These positions must be used for teachers only.

10. Funds can be transferred out of this category by submitting an ABC Transfer Form in the Allotment System. Converting certified position allotments to dollars for the purpose of hiring the same type position is not allowable. The conversion rate will be the first step on the "A" Salary Schedule, plus benefits. K-5 Program enhancement positions shall not be transferred out of this category.

11. Teachers for geographically isolated K-12 schools: An additional teacher allotment will be made for small schools when consolidation is not feasible due to the geographic isolation of the school and the school meets at least one of the following criteria:

a. The school is located in a LEA in which ADM is less than 1.5 per square mile.

b. The school is located in a LEA for a county containing more than 150,000 acres of national forest owned by the federal government and managed by the US Forest Service pursuant to G.S. 104-5.

Qualifying schools will receive one classroom teacher per grade. Teachers will be allotted to the remainder of the LEA under the regular teacher allotment formula. A LEA receiving special allotments for a small, geographically isolated school shall continue to receive one-half of that special allotment funding for the fiscal year after the school is closed. These funds shall be used to assist in the transition of students from the closed school to other schools in the LEA.

12. The position being funded by Burroughs Welcome Grant will be funded an extra 2 months from this category.
13. Program enhancement refers to any of the following:

UNIFORM CHART OF ACCOUNTS CODE: XXXX-TBD-XXX
CFDA #: 84.010A

TYPE: Dollars
TERM: Encumber by 09/30/19, Liquidate by 12/31/19

PURPOSE: To provide assistance for schools, which have been identified as schools in need of Targeted Support and Improvement (TSI) under the State's federally-approved plan for the Every Student Succeeds Act (ESSA). These funds will be available for use in the current school year to support planning activities to include necessary training and support of leadership team and school improvement team in the NCStar planning and measurement tool, a comprehensive needs assessment, and other specialized professional development specifically targeting the school’s results (subgroups) for being identified in the Targeted Support and Improvement category.

This is especially important since 1,530 schools of the total of 1,635 TSI schools were identified as a result of the performance of the school’s students with disabilities subgroup, followed by 237 schools identified based on the Black students subgroup and 228 schools identified based on the English learners subgroup. The remaining subgroups represented a much lower number of TSI schools.

LEAs with more than one TSI school may choose to combine 2018-19 TSI funding to develop a localized strategy that will impact multiple TSI Schools within the LEA. These funds would not be for use as salaries or benefits. These funds would be used for Targeted Support and Improvement Schools (TSI) only. Comprehensive Support and Improvement (CSI) schools already receive annual School Improvement funding and may use such funding in a like manner if they choose.

ELIGIBILITY: To be eligible to receive these funds, an LEA / Charter school must have one or more schools identified under the federally-approved definition for TSI schools. These are schools with at least one subgroup of students that scored at or below the lowest 5% of the state’s schools’ all-students group’s performance.

Applications must be approved prior to the LEA / Charter school receiving the allotment.
FORMULA: Funds will be allotted based on approval of an application for School Improvement (PRC-TBD) funds submitted by the LEA or charter school on behalf of schools participating as TSI schools.

Each TSI school will receive an equal proportion of the 2017 - 2018 State Aid portion reserved for School Improvement activities. This State Aid portion is the 3% set aside from the Title I-A funding available to LEAs and schools from the 2017-18 school year.

SPECIAL PROVISIONS:

1. Each grant is awarded for a period of time beginning July 1, 2018 and ending September 30, 2019.

2. Program Administrators will notify the School Allotment Section of any LEA /Charter school that has not submitted an application for funding by January 30, 2019. LOW WEALTH COUNTIES SUPPLEMENTAL FUNDING

PROGRAM REPORT CODE: 031
UNIFORM CHART OF ACCOUNTS CODE: XXX0-031-XXX
STATUTORY REFERENCE: S.L. 2015-241, Section 8.3

TYPE: Dollars
TERM: July 1 - June 30

PURPOSE: To provide supplemental funds in counties that do not have the ability to generate revenue to support public schools (per a legislated formula) at the state average level. The funding is to allow those counties to enhance the instructional program and student achievement.

ELIGIBILITY: Eligible LEAs are those located in counties in which the calculated county wealth (per the legislated formula) is less than 100% of the state average wealth.

FORMULA:
All data used for this formula will be the most recent data as of May 15, of the preceding fiscal year of the allotment.

1. Compare a county's ability to generate revenue (using three criteria) with the average ability to generate revenue of the other 99 counties in the state.

   Purpose:
   The overall wealth of a county is considered critical in determining if a county can generate the necessary revenue to support the LEA(s) located within the county. The formula attempts to project the county's ability to generate revenue as compared to other counties in North Carolina.

   Criteria:
   a. Anticipated Total County Revenue - This anticipated revenue is generated from the property value in the county plus the revenue a county actually receives from sources such as sales taxes and fines and forfeitures. The property value has been adjusted by a formula to take into consideration the year the property was last valued. This calculation is projected to be almost 95% of all the revenue available to a county for current expense.

   b. Tax Base per Square Mile (Density) - This part of the formula compares the value of a county's property per square mile with the state average property value per square mile. This calculation attempts to recognize the "swamp land" (low to no value property) across the state and to compare the quantity of this property with all other counties.

   c. Per Capita Income – A three-year average of a county's per capita income is compared to the same average for the total state. The per capita income is a basic indicator of a county's residents' ability to pay taxes.
2. Determine if a county is eligible to receive funding.

**Purpose:**
The factors outlined in Step 1 are weighted to determine how a county compares to all other counties in the state.

**Criteria:**
- 40% Anticipated Total County Revenue as a percentage of the State Average Anticipated State Revenue (see Step 1 (a)).
- 10% Tax Base per Square Mile as a percentage of the State Average Tax Base per Square Mile (see Step 1 (b)).
- Combine the formula weights revenue/property as 50% of the calculation.
- 50% A County's Average per Capita Income as a percentage of the State Average per Capita Income (see Step 1 (c)).

When the three percentages are totaled, the sum indicates the county's wealth as a percentage of the state's average wealth. If the total is less than 100%, a county is eligible to receive funding.

3. Determine if a county is meeting a minimum effort to generate revenue or fund public schools as compared to a state average effort.

**Purpose:**
Minimum effort is established to determine if a county is committing a comparable effort compared to other counties within the State. To receive total funding, a county must either tax their local property at the State average or contribute more local dollars to public schools than the State average local contribution.

**Criteria:**
A county is fundable at 100% of the calculated funding if at least one of the following conditions is met:

a. The county's actual tax rate is adjusted by a formula to take into consideration the year the property was last valued. The revised tax rate is classified as the Effective Tax Rate. If the county's Effective Tax Rate is higher than the state Average Effective Tax Rate, the county is fundable at 100% of the funding as calculated in the formula.

b. If the county's appropriation per student is higher than what the county could provide given the county's ability to generate wealth and an average effort to fund public schools, then a county is eligible for 100% funding. To determine what a county could provide, the State average contribution is multiplied by the county's wealth percentage (total percentage in Step 2 above).

c. A county will be funded at a percentage of the calculated funding in the formula if the county is eligible for funding and does not meet the two criteria outlined above. A county's funding will be based on the percentage a county is contributing to public schools as compared to what the county could contribute based on the county's wealth and an average state effort.
4. **Calculation of what a County (LEA) will be funded.**

   **Purpose:**
   Once a county is determined to be Low Wealth, the next step is to calculate the amount of supplemental funds the county will receive.

   **Criteria:**
   The difference between the county's Appropriation per student and State Average Local Appropriation (including supplemental taxes) per student is multiplied by the county's ADM for a total allotment per formula.
   
   If the county does not meet the minimum effort as described in Step 3, their allotment is prorated based on the effort they are maintaining.
   
   The total for all counties is prorated to the appropriated funds.

**SPECIAL PROVISIONS:**

1. Funds allotted for a Low Wealth Supplement must be expended only for:
   - Instructional positions
   - Substitutes
   - Instructional support positions
   - Teacher assistant positions
   - Clerical positions
   - Overtime pay
   - Instructional equipment
   - Instructional supplies and materials
   - Staff development
   - Fringe benefits
   - Textbooks and digital resources
   - Supplements for instructional personnel and instructional support personnel as defined in the Uniform Chart of Accounts.

2. These funds are to supplement, not supplant, local funds. Funds will not be allocated to any LEA found to have used these funds to supplant local per student current expense funds. A county is considered to have used these funds to supplant if the current expense appropriation per student of the county for the current year is less than 95% of the average of the local current expense appropriations per student for the three prior fiscal years.

3. The State Board of Education will consider requests from LEAs to waive the non-supplant requirement as outlined in the legislated low wealth and small county supplemental funding formula only under the following conditions:
   
   The county can show:
• that it has remedied the deficiency in funding, or that extraordinary circumstances caused the county to supplant local expense funds with funds allocated under this section.

Examples include:
• Closing/merging schools within an LEA.
• Loss of federal Impact Aid funds.
• Significant change in the demand for county resources due to state/federal unfunded mandates, natural disaster, or other emergency.

4. For the 2017-2019 fiscal biennium, a county containing a base of the Armed Forces of the United States that has an average daily membership of more than 23,000 students shall receive whichever is the higher amount in each fiscal year as follows: either the same amount of supplemental funding the county received as a low-wealth county in the 2012-2013 fiscal year, or the amount of supplemental funding the county is eligible to receive as a low-wealth county pursuant to the formula. (2017 H258 section 2.19) This provision also exempts the county from the non supplant requirement.

5. Wayne County schools shall be allotted $2,000,000 in stabilization funds, in addition to the formula generated funds for the fiscal year 2017-18 only.

6. Funds may be transferred with no restrictions by submitting ABC Transfer Form in the Allotment System.
