: Suspension of Clinicals for HN43 Nursing Fundamentals and Practicum Students
by Barbara Burt - Thursday, 12 March 2020, 12:10 PM

Due to the onset of the coronavirus, all the clinicals for Nursing Fundamental students are to be suspended. Students should be transferred from HN43 Nursing Fundamentals and Practicum to HN42 Nursing Fundamentals and Non-Practicum.

Due to these required changes in the Nursing Fundamentals course codes, some Directors have asked for guidance for data managers to change student registrations to the correct course code. Please provide your data managers with the following step by step guides:

1. "Transferring a Group of Students from One Course/Section to Another"
2. Additionally, all of PowerSchool Scheduling QRDs are located here.
