North Carolina
June 24, 2020
Trends - Our Metrics

We are looking at a combination of metrics over the last 14 days.

- COVID-like syndromic cases
- Lab-confirmed cases
- Positive tests as a percentage of total tests
- Hospitalizations

We are also looking at our capacity for testing, tracing and personal protective equipment.
The percent of visits to the Emergency Department for COVID-like illness is **increasing**.
New cases in North Carolina are **increasing**.
Trends
Trajectory % of Tests that are Positive

Percent positive for SARS-CoV-2 by date of report among ELR labs

The trajectory of positive tests as a percentage of total tests remains elevated.
Hospitalizations are increasing.
Where We Are Today

Trends

- Trajectory of COVID-like syndromic cases
- Trajectory of cases
- Trajectory of positive tests as a percentage of total tests
- Trajectory of hospitalizations

Capacity

- Testing
- Contact Tracing
