EXECUTIVE ORDER NO. 225
EXTENDING CERTAIN HEALTH AND HUMAN SERVICES PROVISIONS IN PREVIOUS EXECUTIVE ORDERS AND DELEGATIONS OF AUTHORITY

WHEREAS, on March 10, 2020, the undersigned issued Executive Order No. 116, 34 N.C. Reg. 1744-1749 (April 1, 2020), which declared a State of Emergency to coordinate the state’s response and protective actions to address the Coronavirus Disease 2019 (“COVID-19”) public health emergency and to provide for the health, safety, and welfare of residents and visitors located in North Carolina; and

WHEREAS, on March 13, 2020, the President of the United States issued an emergency declaration for all states, tribes, territories, and the District of Columbia, retroactive to March 1, 2020, and the President declared that the COVID-19 pandemic in the United States constitutes a national emergency; and

WHEREAS, on March 25, 2020, the President approved a Major Disaster Declaration, FEMA-4487-DR, for the state of North Carolina; and

WHEREAS, as of the date of this Executive Order, the state is experiencing rapidly increasing rates of the percent of emergency department visits that are due to COVID-19-like illness, the daily number of new diagnosed COVID-19 cases, the percent of total COVID-19 tests that are positive, and the number of COVID-19 hospitalizations; and

WHEREAS, COVID-19 continues to inflect an unprecedented toll on human life in North Carolina; and

WHEREAS, more than one million seventy-one thousand (1,071,000) people in North Carolina have been diagnosed with COVID-19, and more than thirteen thousand seven hundred (13,700) people in North Carolina have died from the disease; and

WHEREAS, the continued prevalence of variants of concern, chiefly the Delta variant, across the state, the fact that our key COVID-19 metrics remain elevated, and the need to make additional progress in the state’s ongoing vaccination efforts together require continuation of the measures specified herein; and
WHEREAS, in Executive Order Nos. 130, 139 and 152, the undersigned, with the concurrence of the Council of State, determined that the Secretary of NCDHHS (the “Secretary”) required authority to modify or waive enforcement of certain legal constraints or regulations which restrict the immediate relief of human suffering; and

WHEREAS, certain provisions of Executive Order Nos. 130 and 139 were extended by Executive Order Nos. 144, 148, 152, 165, 177, 193 and 211, but these provisions are set to expire unless the undersigned takes further action; and

WHEREAS, it is anticipated that the need for these measures will continue for at least a period of sixty (60) days; and

WHEREAS, since the Declaration of a State of Emergency in Executive Order No. 116, North Carolina has accumulated increased personal protective equipment (“PPE”) for health care workers and first responders, developed health care protocols and procedures for the treatment of COVID-19, and adopted personal recommendations to promote social distancing and reduce transmission of COVID-19; and

WHEREAS, despite the accumulation of additional PPE, the advancements made by health care professionals to treat the disease, and the efforts made by the undersigned’s administration and all North Carolinians to reduce transmission of the disease across the state, hospital administrators and health care providers continue to express concerns that unless the spread of COVID-19 is limited, existing health care facilities may be insufficient to care for those who become sick or need hospital-level care for other conditions; and

WHEREAS, until enough North Carolinians are vaccinated, COVID-19 will continue to cause devastating illness and death; and

WHEREAS, as of the date of this Executive Order, the United States Food and Drug Administration (the “FDA”) has authorized three vaccines for COVID-19, it is anticipated that the vaccines may be authorized for additional age groups, and more vaccines may be authorized in the future; and

WHEREAS, rigorous clinical trials have demonstrated that the FDA-authorized COVID-19 vaccinations are safe and effective, and that the known and potential benefits of the FDA-authorized COVID-19 vaccines outweigh the known and potential harms of contracting the COVID-19 virus; and

WHEREAS, the vaccine is free to all North Carolinians, regardless of insurance status; and

WHEREAS, North Carolina and its mental health, developmental disabilities, and substance abuse facility and service providers need to take all reasonable actions to expand capacity as to improve the ability to efficiently respond to the COVID-19 pandemic, thereby reducing the probability that the demand for care in North Carolina will outpace capacity; and

WHEREAS, in some cases, these actions have required and will continue to require temporarily waiving or modifying legal and regulatory constraints so that these mental health, developmental disability, and substance abuse facilities and providers can maintain licensure and continue to provide necessary services; and

WHEREAS, decisions about adding and transferring resources continue to require real-time decision-making; and

WHEREAS, to continue to enable rapid decision-making, the undersigned has determined that it is in the best interest of the people of North Carolina to provide the Secretary with authority to modify or waive enforcement of certain legal and regulatory constraints as necessary in order to expand capacity and save lives; and
WHEREAS, for example, there is a growing need of health care providers to administer
the vaccine, however, many individuals with medical training are not authorized to administer
vaccines due to licensing requirements; accordingly, the undersigned wishes to remove any such
barriers which would prevent or impair the ability of these medical personnel from assisting with
vaccine administration; and

WHEREAS, to prevent barriers to vaccine administration that would leave doses
unadministered and would leave people unprotected, it is also critically important that those
administering the vaccine, and those providing their property and facilities for purposes of vaccine
administration, are provided with insulation from liability to the maximum extent permitted by
law; and

WHEREAS, the process of vaccinating North Carolinians to levels sufficient to protect
the population requires comprehensive and aggressive statewide efforts together with robust
community participation; and

WHEREAS, accordingly, state officials are directed to marshal all available state property,
equipment, and personnel towards facilitating the statewide vaccination effort; and

WHEREAS, the State Health Director has been assigned authority by the Secretary,
pursuant to N.C. Gen. Stat. § 130A-3, to exercise authorities under N.C. Gen. Stat. § 130A-5,
including to investigate the causes of communicable disease affecting the public health in order to
control and prevent those diseases, to provide, under the rules of the North Carolina Commission
for Public Health, for the prevention, detection, reporting, and control of communicable diseases,
and to develop and carry out health programs necessary for the protection and promotion of the
public health and the control of diseases; and

WHEREAS, to support local health departments on the front lines responding to the
COVID-19 pandemic, it has been necessary to waive certain local health department regulations
in Executive Orders Nos. 119, 139, and subsequent extensions, including requirements around
accreditation, and as local health departments have been for a year and will continue to be the lead
agencies in the state’s efforts to combat the COVID virus, additional waivers are needed to provide
relief to local health departments on the front lines responding to the COVID-19 pandemic; and
