REPORTING, REGISTERING AND TRANSFER INSTRUCTIONS FOR SECURITIES

September 4, 2018

Each Holder, Broker, Transfer Agent and Third Party Reporter should adhere to the requirements below:

Securities should only be reported to North Carolina if they have value and can be registered to the rightful owner should they come forward. Securities not meeting this criteria should be maintained by the holder, in the name of the owner, until such time that they can be transferred or re-registered and reported to the North Carolina Department of State Treasurer (DST) with the ability to be re-registered to the rightful owner. It is incumbent on the holder to identify worthless issues, shares which are unable to be registered to the owner, and restricted shares.

The instructions below should be followed to ensure securities are properly reported, registered, and transferred.

1. At least five (5) business days prior to the anticipated delivery of securities, all reportable securities should be listed on the 'Summary of Securities to be Reported' spreadsheet found in the [Forms and Guides](#) section of our website and emailed to Wells Fargo Advisors (WFA) at the following address: nc.statemail@wellsfargoadvisors.com. Holder reports should NOT be finalized or submitted to the DST until an additional five (5) business days have passed since submitting the spreadsheet to WFA.
2. Upon receipt, WFA will email a confirmation of receipt of the 'Summary of Securities to be Reported' spreadsheet.
3. Within five (5) business days of receipt, WFA will email the remitter with any identified security issues that should not be reported or delivered to North Carolina. **Such issues and owner detail must be removed from the holder report** prior to submitting the report to the DST.
4. For security issues that should be reported, see registration and reporting instructions below.
5. The holder's owner detail report must be submitted in an electronic North Carolina modified NAUPA file format to the DST. Electronic holder reports and owner detail should not be sent to WFA or Wells Fargo Clearing Services, LLC.
 - a) Dividends earned prior to registering shares to the DST should be reported in the owner's name, regardless of the amount, with a NAUPA Class Code of 'SC01', and included in the total remittance of funds.
 - b) For securities which cannot be transferred in fractional shares, individual owner shares should only be reported and delivered in whole shares. Any fractional shares should be liquidated for the individual owners. The values of the fractional share should be reported with a NAUPA Class Code of 'SC09' and applied to each

individual owner. The fractional share proceeds should be included in the total remittance of funds. Once fractions are liquidated, whole shares should be delivered as instructed below. The value for fractional shares must be reported and delivered for each individual owner. Do not aggregate the fractional share proceeds.

- c) If reporting for multiple holders or funds:
 - a. Each holder or fund report and corresponding owner detail must be attached and mailed together.
 - b. Each holder or fund electronic file must be saved in the name of the specific holder or fund on the electronic media submitted.
- d) Attach the following to the holder report: a paper copy of the ‘Summary of Securities to be Reported’ spreadsheet previously submitted to WFA, email of non-reportable securities (if applicable), delivery confirmation(s) showing date of delivery, and a copy of the account statement for any securities which are unable to be held by WFA, but have value and are able to be re-registered in the name of the DST.
- e) Refer to [Step 4 Submit Your Report and Remit Funds Due](#) for additional detailed holder report and fund remittance instructions.

REGISTRATION AND DELIVERY OF STOCK

A security should not be re-registered into the name of the DST until five (5) business days have passed from the submission of the ‘Summary of Securities to be Reported’ spreadsheet to WFA.

Reporting and Remitting Checklist

- Submit ‘Summary of Securities to be Reported’ spreadsheet to WFA at least five (5) business days prior to the anticipated delivery of shares/units.
- Adjust holder report if you have received a notification from WFA that a security issue is not reportable.
- Register and deliver securities as instructed in this Guide to WFA. (CASH option MUST BE SELECTED for all Dividend and Capital Gains Registration).
- Confirm all securities scheduled for transfer were delivered.
- Review report for accuracy. Verify that shares and/or cash included on your report equal shares delivered and/or cash to be remitted.
- Prepare documents to be submitted with the report. Attach a paper copy of the Summary of Securities for all corresponding reports, email of non-reportable securities (if applicable), delivery confirmation(s) showing date of delivery, and include an account statement with reports for all securities registered to the DST which are unable to be delivered to WFA.
- Remit check/wire and report to the DST.

Reminder: Do not report securities that have no value or which are restricted from registration to the rightful owner. Maintain these securities in the name of the owner and report at such time that they gain value or can be registered to the rightful owner.
