National Register of Historic Places  
Registration Form

This form is for use in nominating or requesting determinations of eligibility for individual properties or districts. See instructions in Guidelines for Completing National Register Forms (National Register Bulletin 16). Complete each item by marking "x" in the appropriate box or by entering the requested information. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, styles, materials, and areas of significance, enter only the categories and subcategories listed in the instructions. For additional space use continuation sheets (Form 10-900a). Type all entries.

1. Name of Property  
   historic name The Hill-Grainger Historic District  
   other names/site number North Queen Street Area

2. Location

   [ ] determined not eligible for the National Register.

   [ ] removed from the National Register.

   [ ] other, (explain):

   Signature of the Keeper  
   Date of Action
Located some three blocks north of the central business district of Kinston, North Carolina, the Hill-Grainger Historic District is an irregularly configured area of approximately 81 acres, comprising all or part of 17 city blocks of varying sizes. Streets in the district are lined with large trees planted early in this century, and many house lots are also enhanced by mature trees and other plantings. The district is predominantly residential in character, containing 145 primary buildings, of which 140 are houses, built for the most part between 1900 and 1941. Of the five non-residential primary buildings, four are noncontributing commercial buildings and the fifth is the (former) Grainger High School [#92]. There are 61 secondary buildings in the district, mainly garages. The structure is a non-contributing high brick wall [S-1] surrounding the (second) H. C. Hines House [#122] on North Queen Street. The district is part of the Late 19th/Early 20th Century Residential Neighborhoods property type; architecturally, the district is within the mainstream of North Carolina's residential construction in this important period.

The district contains a total of 207 resources—145 principal buildings, 61 auxiliary buildings and one structure. Of the principal buildings, 25 are noncontributing, while 9 auxiliary buildings are thus designated. The ratio of noncontributing principal buildings to the total number of resources is 12%; if noncontributing auxiliary buildings are included, the ratio is 16%. The majority of noncontributing buildings in the district were built after the district's period of significance. Distinguishing the district from its surroundings are differing land uses and later construction dates. To the south is Vernon Avenue, a major thoroughfare which has been and still is the location of significant strip commercial development. To the east is Grainger Stadium (completed 1952), while to the west is open space formerly occupied by large buildings associated with the local tobacco industry, the last of which was razed in 1986. North of the district are residential areas whose houses were built for the most part during the 1940s and after.
The terrain, street layout, size of houses and general building construction dates divide the district basically into two sections, with the north/south-running North Queen Street acting as a physical link and the history of the district acting as a contextual link. North Queen Street is a broad thoroughfare lined with large trees and substantial, architecturally sophisticated residences dating from the turn of the century through the late 1930s. Set on large lots with typically suburban setbacks, the houses on North Queen Street include outstanding examples of the Queen Anne, Neo-Classical Revival, Colonial Revival and Tudor Revival styles.

In the area of the district south of Capitol Avenue, the terrain is uniformly flat and the street layout is in a grid pattern. In this south section, houses east of North Queen Street are generally relatively modest frame dwellings of traditional design or Bungalow form set close to the street on narrow deep lots, while those to the west are more substantial. On both sides of Queen Street in this section, construction dates fall mainly between 1900 and 1925, reflecting the earlier subdivision and sale of lots.

On the north side of Capitol Avenue, the land begins a noticeable upward slope to a high point on a ridge running across Summit Avenue, a rise of approximately ten feet. This higher, northern section of the district was known in 19th and early 20th century Kinston as "The Hill." The street layout in this area is less uniform, as are lot sizes and building setbacks. Houses are generally larger in this area than in the southern section, and masonry construction and brick veneer are more common. Neo-Classical Revival, Colonial Revival, Tudor Revival and large Craftsman Bungalows were built here between 1900 and 1941. Prior to 1910, this area consisted of three large tracts north of Park Avenue and west of Independent Street, each occupied by a substantial residence; a single larger tract east of Independent Street; and a few smaller tracts in the area between Park and Capitol avenues.

Prior to 1914, North Queen Street ended at Park Avenue, where Sarahurst [110] stood on an approximately 19-acre site. This elegant Neo-Classical Revival brick house, designed by New Bern architect H. W. Simpson, was built by J. W. Grainger for his daughter Capitola and her husband Dr. D. T. Edwards. When the street was opened northward, the house was moved to its present location on the northeast corner of North Queen Street and Park Avenue. On the adjacent 15-acre site to the west was Grainger's residence, Vernon Heights, the remodeled early 19th century home of John Washington. Purchased in 1913 from the Grainger estate by C. F. Harvey, Sr., Vernon Heights was demolished to be
replaced in 1913-14 by Vernon Hall [#145], another large Neo-Classical Revival residence, but one still retaining its ample site. The third large tract west of Independent Street contained the house built in 1907 for Mrs. Alice Fields; also designed by H. W. Simpson in the Neo-Classical Revival style, the Fields-Rasberry House [#89] now occupies a 2.8-acre lot running from Park to Summit Avenue. The (former) Grainger High School (#92) was erected in 1924 on a 7-acre parcel divided from the larger tract east of Independent Street; Leslie Boney of Wilmington was the architect for this large Neo-Classical Revival brick building.

Among the other notable houses in the district is the splendid, academic Tudor Revival (second) H. C. Hines House [#122], a large irregularly-configured brick residence now standing behind a high brick wall; it is clearly an architect-designed house, although the name of that architect has not been identified. More modest versions of the style are scattered through the northern section of the district.

The Canady-Sutton House [#105] is an elegant brick Colonial Revival house with Renaissance Revival influence, topped by a tile hip roof and having a complementary garage. The graceful Classical Revival-style Hobgood-Sparrow House [#125] exhibits Mediterranean influences. The late Queen Anne style is well represented on North Queen Street [#s 103 and 114] and West Capitola Avenue [#s 32, 35 and 36], while the Colonial Revival style has both frame and brick illustrations scattered through the district [#s 6, 90, 91, and 112].

The Bungalow, primarily Craftsman-style, has a significant representation in the district, and there are a small number of American Four-Square houses as well. The (first) H. C. Hines House [#88], the Staten Sugg House [#83], and the E. J. Becton House [#118] are particularly fine examples of Craftsman Bungalows typical of the decade between 1915 and 1925. Also of note is the large number of gable-front frame, brick-veneered or stuccoed Bungalows found in the south section of the district, totaling 19 of the district's primary buildings. A smaller number of Bungalows have front-facing jerkin head gable roofs, with a charming identical pair located on East Capitola Avenue [#s 22 and 23]. At least two houses in the district are mail-order houses ordered from Aladdin Homes; they are the J. T. Pratt House [#11], an example of "The Carolina," and its neighbor "The Virginia" [#12], an American Four-Square with Craftsman influence.

During the first three decades of its period of significance, the district was characterized by almost constant construction of houses, with overlapping use of various architectural styles as their popularity
The Hill-Grainger Historic District

Houses in the district are one, one and one-half or two stories in height, with one example of a two-and-one-half-story house, Vernon Hall [#145]. The main building of (former) Grainger High School [#92] is two stories with a full basement story. While the dominant material in the district is wood, there are 17 brick-veneered, eight brick masonry and five stuccoed contributing houses. Replacement siding—aluminum, vinyl, asbestos, asphalt and brick veneer—covers 19 contributing buildings. Roofs are covered with standing seam tin, slate, tile or asphalt shingle. Decorative trim is typical for the various styles. Queen Anne houses have turned porch posts, ornamental wood shingle, and turned and sawn elements. The various classically-inspired houses—Neo-Classical Revival, Classical Revival and Colonial Revival—have columns in several classical orders, modillions, dentils, Palladian windows and entrances with sidelights and transoms. Craftsman houses have triangular knee braces, exposed rafter ends, and porches with tapered posts on brick piers or battered piers. Stucco and mock half-timbering, battered chimneys, elaborate chimney pots, casement windows, and Tudor-arched openings typify the Tudor Revival houses.

As already noted, three buildings or complexes in the district are sited on relatively large tracts of land—Vernon Hall [#145] on 15 acres, the (former) Grainger High School [#92] on seven acres, and the Fields Rasberry House [#89] on a 2.8-acre tract. In addition to the large open areas on these properties, there are a small number of open spaces in the district, primarily lots where buildings have been demolished or which have remained undeveloped.
Buildings in the district are in fair to excellent condition, with maintenance largely a matter left up to private owners. A small number of houses have been rehabilitated and converted to commercial or office use. The only organized preservation activities in the district are those related to the (former) Grainger High School [#92]; plans are currently underway to restore the school's auditorium for use as a performing arts center, while the remainder of the main building will be renovated as office space for a real estate company.

triple-pile bungalow with gabled bay on east
elevation; two-bay facade spanned by hip-
roofed porch with central gablet, brick
corner piers, tapered posts on piers between,
and square-section balusters; Palladian-
influenced window and vents in front gable
end; William T. Paisley was an embalmer who
promoted a recreation program for the city;
later owner Richard P. Moss was vice-
president of E. V. Webb Tobacco Co. (CD; SM;
J&H)

Gable-roofed frame garage with attached shed.

G. C. Taylor House; gable-front, triple-pile
stuccoed bungalow with asymmetrical three-bay
facade; engaged porch has stuccoed corner
piers; Craftsman details; Taylor, an insur-
ance agent, apparently built this house and
adjacent house to the east (#19). (CD; SM)

G. C. Taylor Speculative House; gable-front,
triple-pile, stuccoed bungalow with asymme-
trical three-bay facade; recessed porch has
stuccoed corner piers; Craftsman details;
virtually identical to #18 and built by same
man, G. C. Taylor. (LCRD; CD; SM)
C OB-6. 207  ca. 1926  1  Shed-roofed frame two-car garage.

C 20. 209  ca. 1920  2  John R. McNeil House; frame American Four-Square with double-pile, side-hall plan topped by hip roof; two-bay facade spanned by one-story porch with square-section posts and balusters; sidelighted entrance; one-story rear wing; McNeil was proprietor of the newsstand at the Hotel Tull. (CD; SM)

N 21. 211  ca. 1948  1  M. A. Marshall House; gable-roofed frame Colonial Revival cottage with asbestos shingle siding. (CD; DI)

C 22. 213  ca. 1921  1  A. D. Sugg House; charming Craftsman bungalow with standing seam tin, front-facing jerkin head gable roof; recessed corner porch with square-section posts and trellis; triple pile with two-bay facade; sidelighted entrance; Palladian-influenced window and vents in front gable end; identical to #23; Sugg was a butcher. (CD; SM)

C OB-7. 213  ca. 1921  1  Gable-front frame garage with double-leaf doors.

C 23. 215  ca. 1921  1  House; identical to #22; triple-pile frame Craftsman bungalow with standing seam tin front-facing jerkin head gable roof; two-bay facade; recessed corner porch with square-section posts and trellis; Palladian-influenced attic window and vents in front gable end; possibly built for A. D. Sugg as rental property. (CD; SM)

C OB-8. 215  ca. 1921  1  Gable-roofed frame garage with double-leaf doors.

N 24. 303  ca. 1960  1  House; gable-roofed brick-veneered ranch-style house.

C 25. 305  ca. 1921  1  C. L. Willis House; gable-front frame Craftsman bungalow with two-bay facade; triple

Continuation Sheet

The Hill-Grainger Historic District
Section number 7. Page 7.14

C 39. 808 ca. 1910 2
Ashley-Boney House; double-pile frame Colonial Revival with center-hall plan; hip-roofed main block with pedimented two-story semi-hexagonal bays on facade and north elevation; standing seam tin roof; one-story porch across facade and north elevation has slender classical columns and spindle balusters; William Ashley, president-treasurer of Ashley Silk Company, occupied the house for a number of years, together with H. F. Boney, a lawyer. (SM; CD)

N 40. 902 ca. 1942 1 1/2
Duplex; gable-front frame duplex; triple pile with four-bay facade; gabled porch with turned posts shelters two entrances. (CD)

C 41. 904 ca. 1933 1
House; modest gable-roofed frame house; double pile with three-bay facade; Tudor Revival influence in entrance vestibule topped by gable roof with unequal slopes. (SM; CD)

C OB-13. 904 ca. 1933 1
Gable-roofed two-car garage with small gabled wings on side elevations.

North Side, East Grainger Avenue

C 42. 106 ca. 1909 2
Sutton-Pittman House; traditional frame side-hall plan, L-shaped house with gable roof; one-story screened porch with square-section posts follows line of facade; one-story rear wing; occupied for many years jointly by solicitor and insurance agent William H. Sutton and the Harry E. Pittman family; Pittman was assistant postmaster. (CD; SM)

C 43. 108 ca. 1908 1
Pittman-Ferrell House; traditional frame house with double-pile front section topped by standing seam tin pedimented gable roof; pedimented gable centered on three-bay facade; porch has bracketed turned posts and spindle balusters; rear wing; Edward and Kirby Pittman, the latter a fitter, were
The Hill-Grainger Historic District

C 0B-14. 108 ca. 1922 1 Gable-roofed frame garage with exposed rafter ends.

C 44. 112 ca. 1922 1 J. T. Kennedy House; gable-front frame bungalow; triple pile; asymmetrical three-bay facade; engaged porch has full-height brick piers and low weatherboard apron; Kennedy was a partner in Taylor and Kennedy dry goods business. (CD; SM)

C 45. 200 ca. 1903 1 Loftin-Bagby-Scott House; rectangular double-pile frame house with low hip roof of standing seam tin; L-shaped rear wing; three-bay facade spanned by porch with spindle balusters and turned posts with sawn brackets; built by Jesse Grainger for Mrs. Miriam Loftin and Fannie Loftin; later owners included solicitor Charles Bagby and grocer John W. Scott. (LCRD; CD; SM; HLC)

C 46. 206 ca. 1926 1 R. A. Stroud House; gable-front frame bungalow; triple pile with two bay facade; sidelight entrance; hip-roofed porch has tiny gablet, battered brick corner piers and tapered posts on brick piers; Palladian-influenced attic window and vents in front gable end; Stroud worked for H. Stadiem for sixty years. (CD; SM; HLC)

N 0B-15. 206 ca. 1926 1 Gable-roofed frame garage with replacement vertical panel siding.

C 47. 208 ca. 1912 1 Wooten-Grady House; traditional single-pile frame house with large rear wing and three-bay facade; standing seam tin gable roof; porch spanning facade and east elevation has bracketed turned posts and square-section balusters; Thomas M. Wooten, salesman for Hines Bros. Lumber Co., was early owner; later owner J. Clarence Grady was associated
with Grady and Fordham Service Station. (SM; CD)

C 0B-16. 208 ca. 1912 1 Gable-roofed frame garage with sheds on each side elevation.

N 48. 210 ca. 1953 1 House; gable-roofed frame cottage with asbestos shingle siding. (CD)

C 49. 214 ca. 1915 1 Coston-Grady House; double-pile frame house with Classical Revival influence; high hip roof of standing seam tin; flanking pedimented gables over three-bay facade; pedimented bay on east elevation; one-story porch with classical columns spans facade and east elevation; transom over entrance; occupied jointly by family of William G. Coston and William Grady, a clerk. (CD; SM)

I. T. Haskins House; double-pile frame house topped by low hip roof of standing seam tin; asymmetrical three-bay facade has paired windows, a transomed entrance and window, and a trio of windows in the three bays; porch supported by slender posts spans facade and west elevation with clipped corner; rear wing; Haskins was a grocer. (CD; SM; LCRD)

(first) Fannie Haskins House; gable-front frame bungalow with asymmetrical three-bay facade; double pile; engaged porch has replacement wrought-iron supports and railing; transom over entrance; triangular knee braces; built for Mrs. Fannie Haskins, a seamstress, after the death of her husband, I. T. Haskins (#50). (LCRD; CD; SM)

S. H. Haskins House; triple-pile frame gable-front bungalow with Craftsman details; asymmetrical three-bay facade spanned by engaged porch with replacement wrought-iron supports and railing; diamond attic vent in gable end; no occupation is listed for Haskins in city directories. (CD; SM)
The Hi11-Grainger Historic District

Section number 1, Page 7,17

C 53. 306 ca. 1930 1
J. S. Gray House; triple-pile frame gable-front bungalow with Craftsman details; four-bay facade spanned by engaged screened porch with full-height brick piers and low board wall; Gray was chief of the Kinston Fire Department. (CD; SM)

C OB-17. 306 ca. 1932 1
Shed-roofed one-car frame garage now used for storage.

C 54. 308 ca. 1920 1
J. M. Rochelle House; traditional single-pile frame house with standing seam tin gable roof and three-bay facade; shed dormer; rear wing larger than front block; shed-roofed full-facade porch has square-section posts and low vertical board wall; contractor Isaac Rochelle assisted his son, a real estate agent, in the construction of this house. (CD; SM; DI)

C OB-18. 308 ca. 1932 1
Shed-roofed frame two-car garage.

C 55. 310 1924 1
C. F. Shriver House; triple-pile frame bungalow with front gable roof; engaged porch spanning three-bay facade has square-section posts and balusters; triangular knee braces; gable end has two small rectangular attic vents flanking larger square window; contractor John K. Byrd built for Shriver, a tailor. (CD; SM; DI)

C OB-19. 310 ca. 1932 1
Gable-roofed frame garage and storage building.

C 56. 314 ca. 1922 2
O. A. Bruton House; unusual frame Craftsman house with front jerkin head gable roof; wall dormer on east elevation; recessed front corner porch on west elevation second floor; three-bay facade spanned by engaged porch with battered painted brick corner piers and arched openings; standing seam tin roof; triple pile; Bruton was a postal carrier. (CD; SM)
South Side, East Grainger Street

C 59. 107  ca. 1905  1

Gray-Waters House; traditional single-pile frame house with three-bay facade and standing seam tin gable roof; low shed dormer; second owner updated with bungalow porch having tapered posts on brick piers and low weatherboard wall; rear wing extends beyond edge of east elevation; coal dealer Marshall Gray was early owner; second owner Charles A. Waters was a dry goods merchant. (CD; SM; LCRD)

C OB-20. 107  ca. 1915  1

Shed-roofed frame garage.

C 60. 109  ca. 1905  1

Scott-Waters House; traditional single-pile frame house with three-bay facade and standing seam tin gable roof; gablet centered on facade; entrance has two-light transom; porch spanning facade has square-section posts and spindle balusters; rear wing extends beyond edge of east elevation; early occupants were farmer S. William Scott, painter William H. Scott and helper James A. Scott; later owned by A. J. Waters of Waters Meat Market. (SM;

with square-section posts on brick piers spans three-bay facade; small addition on west elevation; Elmore was a carpenter. (SM; CD)

Shed-roofed frame garage.

Wallace-Parrott House; frame Craftsman bungalow topped by gable roof with low shed dormer; single pile; three-bay facade spanned by engaged porch with square-section posts and balusters; left (west) porch bay enclosed; gabled rear wing extends beyond east elevation edge; attorney Fitzhugh E. Wallace was early occupant; later owned by James M. Parrott, owner of Parrott Farms. (LCRD; HLC; CD; SM)

Small hip-roofed frame garage with exposed rafter ends; now used for storage.

R. C. Smith House; double-pile frame house with L-shaped facade; two pedimented gables on three-bay facade, one on each side elevation; standing seam tin roof; two-bay porch has bracketed turned posts and turned balusters; rear wing; apparently built as rental property by Edgar Moseley on large tract between Grainger and Capitola avenues (see #s 35 and 36); occupied since 1940s by Moseley granddaughter Mary Smith and husband Ralph C. Smith. (LCRD; CD; SM)

Two-car frame garage with tin shingle hip roof.

Frame garage with slate hip roof; originally associated with Edgar Moseley house which formerly stood on northwest corner of West Capitola Avenue and North Heritage Street.
South Side, West Grainger Avenue

C 68.  108  ca. 1905  2

Poole-Herndon House; unusual gable-front frame house; triple pile with small rear one-story wing; each side elevation has gable wall dormer and gable and shed wall dormer; three-bay facade sheltered by one-story porch with square-section posts; entrance has sidelights and three-part transom; standing seam tin roof; nearly identical house formerly stood on site immediately to west; both probably built by contractor Charles H. Poole, who was living here in 1908; later purchased by Mrs. Mamie Herndon who sold to her son John Herndon, an insurance salesman and bookkeeper. (LCRD; CD; SM)

East Side, North Heritage Street

C 69.  805  ca. 1920  1

F. B. McCallum House; gable-front frame bungalow; triple pile; asymmetrical three-bay facade spanned by engaged porch with square-section posts on low weatherboard wall; triangular knee braces; McCallum was a veterinary surgeon, City Meat and Milk Inspector, and City Health Officer. (CD; SM)

East Side, North Independent Street

C 70.  903  ca. 1932  1

Gladys Henderson House; small gable-roofed frame cottage with three-bay facade; double pile; small entrance-bay porch with gable roof, arched opening and slender square-section posts; asbestos siding; Miss Henderson was a stenographer. (CD)

C 71.  905  ca. 1934  1

(second) Fannie Haskins House; simple double-pile, gable-roofed frame cottage with four-bay facade; German siding; off-center entrance-bay porch has gable roof and square-section posts; Mrs. Haskins, widow of I. T. Hoskins (#s 50 and 51) moved to this house in
Kilpatrick House; double-pile, side-hall-plan frame house topped by standing seam tin pedimented front gable roof; long one-story wing on south elevation has porch with square-section posts and balusters; one-story front porch removed after 1930; post and lintel door surround; built for policeman Jefferson L. Kilpatrick; later occupied by his son, Frank L. Kilpatrick, an employee of Kinston Free Press Co., Inc. (LCRD; CD; SM)

Shed-roofed frame two-car garage.

West Side, North Independent Street

House; gable-roofed frame house with L-shaped facade; shed-roofed porch. (CD)

House; traditional single-pile frame house with three-bay facade; standing seam tin pedimented gable roof with gable centered on facade; porch has turned posts; rear wings. (CD; SM)

House; double-pile frame gable-front bungalow with Craftsman details; asymmetrical three-bay facade spanned by engaged porch with replacement wrought-iron supports and railing; paired attic windows in gable end. (CD; SM)

G. W. Carter House; distinctive stuccoed house with Prairie Style influence; double-pile hip-roofed main block has symmetrical three-bay facade and horizontal banding below roof line; bellcast standing seam tin hood at entrance has trellis supports; one-story wing on north elevation; two-story hip-roofed building connected to south elevation by enclosed second-floor breezeway; Carter established G. W. Carter Tile Co. in 1928 and was involved in many civic activities. (CD; J&H)

The Hill-Grainger Historic District

C 82. 905 ca. 1913 2 two-bay facade; one-story rear wing; apparently built as speculative property by Dan Parrott; purchased by bookkeeper James Pratt; later owned by Richard King. (LCRD; CD; SM)

C 83. 909 ca. 1922 1 1/2 Staten Sugg House; handsome gable-roofed, triple-pile frame Craftsman bungalow with low shed dormer; engaged porch spanning three-bay facade has tapered posts on brick piers and square-section balusters; sidelighted entrance; Sugg was buyer and manager of wholesale grocery firms of T. W. Mewborn and J. S. Martin and Co. (CD; SM)

C OB-29. 909 ca. 1922 1 Gable-roofed frame 2-car garage with original doors.

C 84. 1001 ca. 1905 2 N. W. Hill House; traditional single-pile frame house with standing seam tin gable roof and centered gable on three-bay facade; one-story full-facade porch has square-section posts; transom over entrance; two-story rear wing with one-story ell; Hill was a farmer. (LCRD; CD; SM)

C OB-30. 1001 ca. 1915 1 Small gable-roofed frame garage.

West Side, North McLewean Street

C 85. 904 ca. 1910 2 Kennedy-Taylor House; T-shaped frame side-hall-plan house with standing seam tin pedimented gable roof; two-bay facade sheltered by one-story porch with bracketed turned posts; one-story rear ell; originally located at 112 East Grainger Avenue where it was residence of John T. Kennedy, a partner
in dry goods firm Taylor and Kennedy; moved to current location ca. 1922, probably by W. Kennedy Taylor, a farmer. (SM; LCRD; CD)

R. N. Sutton House; gable-roofed frame double-pile Craftsman bungalow with shed dormer; one-story rear wing; asymmetrical three-bay facade spanned by deep engaged porch with battered full-height brick corner piers; Sutton operated the family clothing business, A. J. Sutton and Sons, with his mother and brothers. (CD; SM)

North Side, Park Avenue

G. C. Andrews House; picturesque brick-veneered house with Tudor Revival influence; double pile; gable roof; three-bay facade has shed wall dormer in left bay, steeply-pitched gable over right two bays, and smaller gable over entrance porch with arched openings; entrance has elliptical transom; round-arched attic vents; one-story sunporch on west elevation has entrance with transom and sidelights; Andrews was a conductor for Atlantic Coast Line Railroad. (SM; CD)

(first) H. C. Hines House; distinctive frame Craftsman bungalow with gable roof and gabled bays on both side elevations; shed dormer; double pile; asymmetrical three-bay facade spanned by engaged porch with brick corner piers; porte cochere on west elevation has cross-pattern battered brick piers; both porch and porte cochere have squared off basket arches; aluminum siding; Hines was president of H. C. Hines and Company and secretary-treasurer of Hines Bros. Lumber Co.; he later built #122. (CD; SM; LCRD)

C 105. 1101 ca. 1925 2

with transom and sidelights; one-story wraparound porch has porte cochere on north elevation, is enclosed on south; slender classical columns; one-story bay on north elevation has Palladian-influenced window treatment; one-story rear wing; two-story wing on south elevation; built for Lawrence A. Cobb, founder of Cobb and Johnson Wholesale Grocery, later L. A. Cobb and Co.; later owned by John R. Sams, agent for Sinclair Refrigerator Co. and mayor of Kinston from 1943 to 1945; has served as an inn and boarding house; now converted to offices. (LCRD; CD; SM; J&H)

Canady-Sutton House; elegant example of brick Colonial Revival with Renaissance Revival influence; double-pile, center-hall plan topped by tile hip roof with small hip dormers; bracketed eaves; three-bay facade has recessed central entrance bay flanked on first floor by French doors in round-arched openings with keystones and transoms; entrance with classical surround and sidelights is framed by one-story porch supported by Doric columns with balustrade on flat roof; one-story porch on north elevation, sunroom on south; one-story rear wing; built for J. Herman Canady, who assumed control of the B. W. Canady family business at his father's death in 1905 and was later general manager of the Hotel Kinston Corp., a founder of First National Bank of Kinston and the Kennedy Memorial Home; purchased in 1950 by prominent realtor Frederick I. Sutton, Jr. (LCRD; J&H; CD; SM)

C 08-42. 1101 ca. 1925 2

Handsome two-car brick garage topped by tile hip roof with bracketed eaves; second-floor apartment lighted by trio of eyebrow wall dormers on west elevation.

N 106. 1113 ca. 1925 2

House; said to have been constructed as two-car garage with second floor apartment;
The Hill-Grainger Historic District

C 107. 1115 1938 1

W. C. Moore House; gable-roofed frame Colonial Revival with asymmetrical four-bay facade; wings on rear and south elevation; full-facade portico has square-section posts and balustrade on roof; designed by architect and building supplies dealer Liston Mallard and constructed by carpenter Ray Tew for William C. Moore, proprietor of Dixie Fuel and Building Material Co. (DI; SM)

C 108. 1117 1935 2

Paul Stroud House; brick-veneered, double-pile Colonial Revival house with gable roof and symmetrical three-bay facade; trio of small pedimented attic dormers; dentilled cornice; entrance has transom and surround with fluted pilasters, entablature and triangular pediment; one-story sunroom on south elevation; Stroud was co-owner of Stroud Brothers grocery and meat market, later a wholesale grocery firm. (HLC; CD)

C OB-43. 1117 ca. 1936 1

Brick-veneered garage with slate gable roof.

C 109. 1119 1937 2

Weiland Apartments; brick Colonial Revival apartment building with gable roof and seven-bay facade; classical entrance sur-round with sidelights.(KHDC)

C 110. 1201 1902-04 2

Sarahurst; graceful brick Neo-Classical Revival house; double pile with two-story rear wing; low hip roof over main block with three pedimented dormers across three-bay facade, one on each side elevation; main entrance opens to formal reception/stair hall; hexastyle portico with monumental composite columns and projecting elliptical central section; modillion cornice; windows have stone sills and lintels; entrance has large sidelights and three-light transom in
classical surround; oval stair window on facade; porte cochere on south elevation; originally stood at the head of Queen Street facing south; moved to current location and reoriented in 1914 for opening of street; designed by New Bern architect H. W. Simpson and constructed by local contractor Sam Harrell; built for Capitola G. Edwards, daughter of Jesse Grainger and wife of Dr. D. T. Edwards, a lawyer, teacher and editor of the Kinston Free Press for 14 years; named for their daughter Sarah who occupied the house until recently; Sarah was married to C. R. "Pat" Crawford, a professional baseball player and Kinston's first superintendent of recreation. (JWG; CD; J&H; DI)

C 111. 1203 1924 2

O. L. Wilson House; rectangular frame Colonial Revival; double pile with symmetrical three-bay facade; hip roof; trios of windows flank entrance which has sidelights and elliptical fanlight; small gabled porch has arched opening and unfluted Ionic columns; modillion cornice; Wilson, a dentist, lived in the Mitchelltown section prior to building this house. (CD; SM; HLC)

C OB-44. 1203 ca. 1935 1

Frame building with standing seam tin roof and brick chimney.

C 112. 1205 1925 2

P. F. Whitaker House; double-pile frame Colonial Revival with gambrel roof and broad shed dormers; symmetrical three-bay facade has trios of windows flanking entrance with sidelights and three-part transom sheltered by gabled hood having arched opening and Tuscan columns; one-story porch on north elevation, wing on south; Dr. Whitaker was a founder and first president of Memorial General Hospital and chairman of the Board of Trustees of the Kinston Public Schools. (CD; HLC; J&H; SM)

C OB-45. 1205 ca. 1925 1

Frame garage with standing seam tin roof;
The Hill-Grainger Historic District

Section number 7, Page 733

C 113. 1207 ca. 1940 2

R. A. Whitaker House; simple frame double-pile Colonial Revival with gable roof and symmetrical three-bay facade; one-story wings on side elevation; entrance has pedimented surround and two-light transom; Whitaker, brother of P. F. Whitaker (#112) was a prominent local attorney and a State Senator. (CD; HLC)

C 0B-46. 1207 ca. 1940 1

Cable-roofed frame Colonial Revival garage connected to house by breezeway.

West Side, North Queen Street

C 114. 900 ca. 1901 2

Dawson-Hodges-Tull House; large frame Queen Anne with double-pile, side-hall-plan main block topped by pyramidal roof; shallow pedimented two-story bays on right bay of two-bay facade and north elevation; south elevation has pedimented semi-octagonal two-story bay; large two-story rear wing; one-story wraparound porch has bracketed turned posts and spindle balusters and frieze; asbestos siding; Jesse Grainger hired contractor S. M. Harrell to construct the house which was sold to John H. Dawson, a farmer and City Treasurer for 25 years; later owned by Dawson's son-in-law Paul Hodges, also a farmer and a member of the Lenoir County Board of Education and State Highway and Public Works Commission; purchased in 1935 by Isaac M. Tull, a cotton warehouseman and County Treasurer. (JWG; LCRD; CD; J&H; HLC)

C 0B-47. 900 ca. 1915 1

Two-car frame garage with slate hip roof and bracketed eaves; shed on east elevation.

N 115. 904 ca. 1965 1

Commercial Building; flat-roofed brick-faced commercial building with metal and glass
shopfront and entrance; sits at southwest corner of paved parking lot.

Koonce-Munsell House; frame double-pile, side-hall-plan house similar to a group found in the Mitchelltown section; hip-roofed main block with shallow gabled two-story bay on facade and decorative gables centered on each side elevation; one-story screened porch on south elevation probably survivor of one-story porch which spanned facade and south elevation; pent now provides shelter for first floor of facade; right bay has modern bay window; apparently built for M. G. Koonce, a farmer, sewing machine salesman, and later owner of Sanitary Grocery; later owner Paul L. Munsell was a dentist. (LCRD; CD; SM)

Rachel Tull House; picturesque brick Tudor Revival topped by slate multi-gable roof with low shed dormer on facade and shed wall dormers on north elevation; broad front gable over right bay of three-bay facade with stucco and mock half-timbered panel overhanging first floor; panel’s lower section has row of quatrefoils; sides of front dormer and gable end of one-story south porch also have stucco and mock half-timbering; entrance has bellcast metal hood; Oscar Shackleford, a local contractor, constructed the house; Mrs. Tull worked for J. C. Rasberry Insurance Co. prior to opening her own firm, R. S. Tull and Co. (LCRD; SM; DI)

Shed-roofed frame garage.

E. J. Becton House; attractive Craftsman frame bungalow topped by gable roof with small gable dormer over right bay of three-bay facade; triple pile; shallow hipped bays on side elevations; offset two-bay porch with gable roof has battered rubble stone corner piers; rubble stone exterior end chimney on
north elevation; Becton was an agent for Atlantic Coast Realty Co. of Petersburg, Virginia, which promoted the later development of Mitchelltown. (LCRD; CD; SM)

Leo Brody House; handsome brick Tudor Revival with slate multi-gable roof and stucco and mock half-timbering in gable ends; tiny gable dormers on facade and rear wing; three-bay facade has gable over two projecting right bays; left roof slope sweeps down over arched entrance; segmental-arched double window in right bay; gabled wings on north elevation; exterior end chimneys have elaborate panelled stacks; Brody opened and managed a branch of H. Brody & Sons department store in Kinston in 1928. (HLC; CD; SM)

C. W. Howard, Jr., House; large double-pile, center-hall-plan, brick-veneered Colonial Revival with gable roof; tetrastyle portico with monumental Tuscan columns spans three-bay facade; entrance has sidelights, elliptical fanlight and classical surround; one-story enclosed porch on south elevation; one-story rear wing; Howard operated a wholesale grocery business and was a prominent civic and business leader; house is on site of earlier frame house belonging to Howard’s father, a Disciples of Christ minister and co-editor for 3 years of the Kinston Free Press. (LCRD; CD; HLC; J&H)

Fitts-Dail House; frame Classical Revival with triple-pile, side-hall plan topped by front-facing pedimented gable roof; lower
gable over shallow two-story bay in left of two-bay facade; entrance has sidelights and transom; one-story gabled wing on north elevation; facade and wing spanned by one-story porch with square-section posts and balusters and gable at entrance bay; aluminum siding; Dr. Fairfax Fitts was an osteopath; James C. Dail ran a men's clothing store, was a city commissioner and was mayor of Kinston from 1929 to 1933. (CD; SM; J&H)

Gable-roofed frame garage now covered with metal siding.

(second) H. C. Hines House; outstanding example of large random-bond brick Tudor Revival house of irregular configuration topped by slate roof featuring variety of gables; metal casement windows set in cast stone surrounds; massive interior chimneys have elaborate decorative pots; built for Harvey C. Hines, vice-president of Hines Bros. Lumber Co, founder of a wholesale grocery business, the Coca-Cola bottling works, and an ice cream factory; Hines was also a prominent business and civic leader. (LCRD; KDFP; J&H; CD; SM)

High Flemish-bond brick wall with molded brick cap surrounding the property; brick piers topped by concrete pineapples hold wrought-iron gates. (KHDC)

Large brick carriage house/servants' quarters that complements the main house; gable roof with hip extension over balcony on east elevation; shed dormer; casement windows.

Vernon Hall Cottage/Rachel Davis House; frame Colonial Revival house originally associated with the Vernon Hall (#145) property; located at end of Summitt Ave. extension; believed originally to have been three-room cottage; numerous additions make an irregular plan

State significance of property, and justify criteria, criteria considerations, and areas and periods of significance noted above.

The Hill-Grainger Historic District is significant in the history of Kinston, North Carolina, as one of the early residential neighborhoods developed beyond the city’s original boundaries and as a strong collection of representative early 20th century residential construction. As such, it reflects the community’s development from a small governmental and commercial center for a rural, agrarian county to a major transportation, industrial and market hub for much of eastern North Carolina. It also illustrates the property type of Late 19th/Early 20th Century Residential Neighborhoods. The context for the district is Kinston’s Era of Accelerating Prosperity, 1890–1941, as it represents the town’s increasingly urban character, the growing numbers of individuals in middle- and upper-income brackets, and the rising level of architectural sophistication in the community. Although construction of houses began in this section north of Kinston’s original boundaries in the mid 1890s, the buildings currently standing in the district were built between 1900 and 1941, as late 19th century buildings have given place to mid and late 20th century commercial development. Prominent merchant, civic leader and industrialist J. W. Grainger, whose own home Vernon Heights originally stood within the district’s boundaries, acquired sole interest in a 257-acre tract of land north of Kinston in 1892 and began building rental and speculative houses and selling lots in the area soon thereafter. These earliest houses were typical of the period, being either large frame Queen Anne houses or more modest traditional houses. The first five years of the 20th century saw a continuation of this pattern, while the Neo-Classical Revival style was gaining popularity; several sophisticated examples of the latter style were built prior to 1915. After 1910, the Colonial Revival and Craftsman styles came into fashion locally, with the latter appearing on American Four-Squares and Bungalows. These styles continued their dominance through the 1920s, even as the Tudor Revival was coming into favor. This decade in particular reveals the extension of prosperity and architectural sophistication through the population. A small number of houses in the district have been moved from their

See continuation sheet
original locations, but in most cases, they were moved only short
distances and during the period of significance.

Historical Background

The Hill-Grainger Historic District, whose southern edge is located
three blocks north of Kinston’s expanded central business district, is
an area of approximately 81 acres containing a representative assemblage
of early 20th century residential buildings with the addition of a mid
1920s school and a small group of later 20th century houses, commercial
buildings and additions to the school complex. The origins of the
district date to the mid 1890s when J. W. Grainger began building rental
and speculative houses and selling lots in an area north of the town
roughly bounded by Lenoir and Grainger avenues and North Independent and
North Heritage streets.

Jesse W. Grainger (1845-1910) moved to Kinston from Greene County
in 1879 and engaged in truck farming and the sale of fertilizers and
farm implements [Johnson and Holloman, pp. 122-124]. Apparently a short
time after arriving in Kinston, Grainger joined with prominent merchant
Lemuel Harvey (1845-1912) and cotton broker William C. Fields (d. 1902)
to purchase a large tract of land north of Kinston. (The exact date of
this transaction is unclear since available deed records for Lenoir
County begin with 1880 as a result of a late 1870s courthouse fire.)
The property’s previous owner was John C. Washington, who had served the
community in many capacities beginning in the early 1830s [Deed book 14,
p. 597; and Heritage, p. 252].

Grainger acquired the interests of Harvey and Fields in a 257-acre
portion of the Washington lands in 1892 for $6,708.34; this tract
included Vernon, Washington’s residence, which Grainger remodelled and
occupied until his death [deed book, 14, p. 597]. On this land, known
as Vernon Farm, Grainger carried out a large truck-farming operation.
An early 20th century description of Vernon and its owner went as
follows:

It is a beautiful, a charming and bewitching place—
of which there are so few left. He has the broad
acres surrounding the hill under the best cultiva-
tion in strawberries, beans, peas, cabbage, aspara-
gus, cantaloupes, etc [Industrial Issue, p. 67].
The northern portion of the Washington-Grainger property, which is located on a ridge above the generally flat surrounding terrain, was long known as "The Hill" [Dreyer, Kinston's Architecture, p. 137]. The district’s name, coined by the consultant for the original survey, derives from this traditional appellation and the area’s vital association with J. W. Grainger.

In the mid 1890s, Grainger ventured into the real estate development business by selling off some of his land north of Kinston as building lots; he also began having houses erected in the area for rental and speculation purposes. The first area developed by Grainger was in the flat terrain between Lenoir and Grainger avenues, extending from North Independent to North Heritage Street. Among those renting houses from Grainger was L. P. Tapp, an Orange County tobacconist whom Grainger brought to Kinston to work in the town’s new tobacco market. Tapp later built a large Neo-Classical Revival house in the Mitchelltown area and established his own tobacco warehouse in 1923. The house Tapp rented from Grainger, which was located in the 800 block of North Queen Street, is no longer standing; Sanborn maps and early 20th century photographs suggest that it was a traditional two-story single-pile frame house with a large one-story rear wing [Grainger papers; Sanborn maps; Industrial Issue, p. 30]. The great majority of houses built on Grainger's property prior to 1900 in the area north of Lenoir Avenue no longer exists; any which do survive are separated from The Hill-Grainger Historic District by later development.

The early 20th century saw an intensification of construction in the area, as Grainger continued his speculative activities, hiring two local contractors, S. M. Harrell and D. H. Taylor, to build houses for rent or sale. One house surviving in the district and identified as having been constructed by Harrell is the Dawson-Hodges-Tull House (#114), a large frame Queen Anne-style house built at a cost of $3,300 [Grainger Papers]. Typical of the more modest house built by Grainger on speculation is the Loftin-Bagby-Scott House (#45) on East Grainger Avenue, a rectangular one-story frame house with turned and sawn ornament on the porch. Other houses surviving in the district from the first decade of the 20th century include several modest one-story traditional frame dwellings (#s 37, 42, 43, 59, 60, 138, 141 and 142), as well as larger frame Queen Anne houses such as the Daly-Waldrop House (#32) and the Turnage-Hooker House (#35), which face each other across West Capitola Avenue, and the Julia and Kate McDaniel House (#103) on North Queen Street.
In 1902, Grainger hired New Bern architect H. W. Simpson to design a house for Grainger’s daughter Capitola who had married Daniel Thomas Edwards (1870-1955). Edwards served as editor and publisher of the Kinston Free Press from 1903 to 1914 [Heritage, p. 209]. S. M. Harrell was the contractor for the large Neo-Classical Revival brick residence which was constructed on the same ridge to the east of Grainger’s Vernon Heights home. Sarahurst (#110), which was named for the Edwards’s daughter, stood at the head of North Queen Street until 1914 when it was moved to its current location facing west on North Queen Street at the corner of Summit Avenue. North Queen Street beyond Summit was thus opened for development. Several photographs of Kinston used in the 1906 Industrial Issue of the Kinston Free Press were taken from Sarahurst at its original location, which offered a good vantage point from which to view the growing town.

A second large brick Neo-Classical Revival house designed by H. W. Simpson was that built in 1907 for Mrs. Alice Fields, widow of W. C. Fields. Known as the Fields-Rasberry House (#89), the residence is located on a sloping 2.8-acre lot facing Park Avenue. In the deed transferring two tracts of land north of Kinston to Mrs. Fields by Grainger and his wife, it was stipulated "... that Mrs. Alice J. Fields will build a Residence and reside on the property here conveyed" [deed book 31, p. 776].

The popularity of the Neo-Classical Revival style persisted in the district for nearly ten more years, with the most notable later example being Vernon Hall (#145), which stands on the 15-acre site of J. W. Grainger’s home. After Grainger’s death, his property was divided among his widow and children, with his daughter Mary M. Grainger receiving the home tract [deed book 43, p. 162]. The latter was sold in 1913 to C. F. Harvey, Sr., a son of Lemuel Harvey, who continued in the family business and became a prominent civic leader in his own right [deed book 48, p. 1; and Heritage, p. 253]. The Harveys had the Grainger residence demolished and a massive brick house in the Neo-Classical Revival style built in its place. Unfortunately, the architect for Vernon Hall has not been identified.

Through the first two decades of the 20th century, even as late examples of the Queen Anne style were being constructed in the Hill-Grainger section alongside more traditional houses and Neo-Classical Revival mansions, other styles were gaining popularity, principally the Colonial Revival, Classical Revival and Craftsman styles. The ca. 1906 Cobb-Sams House (#104) is a large frame Colonial Revival residence built for Lawrence A. Cobb, founder of a wholesale grocery firm. Another
example of this style is the H. F. Boney House (#39), built ca. 1910 for an attorney and warehouseman for L. Harvey and Son. The Classical Revival style is represented by the ca. 1915 residence of H. D. DuPree (#7), a bookkeeper and deputy sheriff. The earliest evidence of Craftsman influence in the district is likely the E. J. Becton House (#118), a handsome frame Bungalow with battered rubble stone corner piers and chimney, built in 1915 for an agent of the Atlantic Coast Realty Company of Greenville, North Carolina, which developed the later sections of Mitchelltown.

A distinctive aspect of the development of the Hill-Grainger area was the role of several families whose members built houses in the area. Local building contractor Isaac S. Rochelle built houses for his two sons and himself in the early 1920s. The B. H. Rochelle House (#26) and the J. M. Rochelle House (#54) stand back-to-back. The father's house (#58), a large Classical Revival-influenced house, is at the eastern end of Grainger Avenue. At the other end of the same block of Grainger Avenue stand the houses of grocer I. T. Haskins (#50) and his son S. H. Haskins (#52); between them is the house built by the widow of I. T. Haskins (#51) shortly after his death. About 15 years later, Mrs. Haskins built a second house for herself (#71) around the corner on North Independent Street.

Another family with several houses in the district was that of prominent merchant A. J. Sutton, whose Classical Revival house (#4) stands on the northwest corner of East Capitola Avenue and North McLewean Street. Two doors west is the Sutton-Hooker House (#2), built for Horace L. Sutton, who was associated with his father and brothers in A. J. Sutton & Sons. In the next block east is the Colonial Revival residence of Hugh I. Sutton (#6), while R. N. Sutton's house, a Craftsman Bungalow (#86) stands behind his father's house facing North McLewean Street. Horace L. Sutton built a second house (#130) in the district about 1930; located on Summit Avenue, it is a brick-veneered dwelling with Tudor Revival references.

While the Rochelle, Haskins and Sutton family houses involved fathers and sons, the group of houses on the south side of West Capitola Avenue were built by Edgar Moseley for his daughters. Shortly after the turn of the century, Moseley (1858-1927) purchased a tract of land running along North Heritage Street between West Capitola and West Grainger avenues and built a large frame Queen Anne house at the corner of Capitola and Heritage; this house no longer stands [Heritage, p. 325]. About 1906, Moseley built similar Queen Anne houses for his daughters just to the east of his own residence—the Turnage-Hooker
House (#35) and the Mary M. Laws House (#36). Moseley also apparently built a rental house behind his residence; since the 1940s, the frame Queen Anne/Classical Revival frame house (#67) has been occupied by Moseley's granddaughter and her husband.

Also of note are the instances of an individual building two adjacent houses, one to occupy and one to rent or sell. About 1905 local contractor Charles H. Poole is believed to have built two nearly identical frame houses on West Grainger Avenue; the gable-front two-story dwellings had Classical Revival influence and unusual wall-dormer configurations on the side elevations. The house occupied by Poole, known as the Poole-Herndon House (#68) still stands, although its near twin was demolished in the mid 1980s. In the early 1920s, Lenoir County tax assessor J. T. Pratt purchased two mail-order Craftsman-style houses from the Aladdin Homes Company and had them erected on adjoining lots on East Capitola Avenue; Pratt occupied "The Carolina" (#11) and apparently rented "The Virginia" (#12) [Pratt letter; and Aladdin catalogue, pp. 66 and 100].

By the early 1920s, approximately one-half of the area within the district had been developed. In September 1921, Mayor Joe Dawson provided the following description of the development of the Hill-Grainger section:

Gradually, about 1890, Kinston began to go north and northeast across the open fields of J. W. Grainger, L. Harvey and W. C. Fields, who had together in 1889 purchased from the heirs of Washington "Vernon," and there was the foresight and the vigorous spirit of development then manifested itself through those three great business pioneers of the future city of Kinston that opened up that splendid section of the city now traversed by the beautiful streets of Washington, Lenoir, Vernon, Grainger, Capitola, and Park Avenue ["Realty Changes in Kinston"].

Soon after Grainger's death in 1910, development had begun to move northward up "The Hill" whose slope begins on the north side of Capitola Avenue.

A number of substantial and architecturally sophisticated houses were erected during the 1920s in The Hill-Grainger Historic District as Kinston's population became increasingly prosperous and some members of the community were familiar with the fashionable styles of the period.
and able to hire architects and builders to provide them with residences in those styles. The Colonial Revival style continued its popularity, although a greater number of 1920s examples were brick-veneered. Two adjacent illustrations are the O. W. Greene House (#90, ca. 1924), built for the manager of Carolina Telephone and Telegraph Company, and the Blackwood-Jenkins House (#91, ca. 1922), whose first owner was president of Carolina Gas and Electric Company. The ca. 1925 Canady-Sutton House (#105), built for prominent merchant and civic leader J. Herman Canady, is an elegant Colonial Revival residence with Renaissance Revival details. A. D. Hobgood, manager of the Export Leaf Tobacco Company, built the handsome brick-veneered Classical Revival Hobgood-Sparrow House (#125) in 1926; Hobgood had previously lived in the Mitchelltown section of Kinston.

In the latter part of the decade of the 1920s, the Tudor Revival style came into vogue. The finest representation of the style is the (second) H. C. Hines House (#122), built in 1929 for the vice-president of Hines Bros. Lumber Company and founder of a wholesale grocery business who moved to this house from an unusual Craftsman Bungalow on Park Avenue (#88). Hines's second residence is a striking and academically sound illustration of the style with its irregular configuration, casement windows in cast stone surrounds, massive chimneys with elaborate pots, and multiple roof gables. More modest examples of the style also went up about the same time, including the G. C. Andrews House (#87), built for an Atlantic Coast Line Railroad conductor; the residence of automobile salesman H. B. Cummings (#97); and that of Horace L. Sutton (#130), as already noted.

Kinston's first public school, a combination grammar and high school, stood on East Lenoir Avenue between North Independent and North East streets on land provided by J. W. Grainger. Between 1914 and 1919, this school was replaced by Kinston's first high school, a brick building on a lot running from Lenoir to Vernon Avenue just west of North East Street. This school was destroyed by fire in 1924 and replaced by the (former) Grainger High School (#92), a large brick Neo-Classical Revival structure designed by Wilmington architect Leslie Boney and located at the northeast corner of Park Avenue and North Independent Street [Heritage, p. 124]. The new school tract was also part of the Grainger property. Isaac S. "Ike" Rochelle, who lived in the district (#58), was the principal contractor for the main school building.

During the 1930s, residential construction in the Hill-Grainger section continued the same patterns established in previous decades.
relatively modest houses in keeping with the existing houses in the southern section (#s 903 and 905), a greater number were examples of Colonial Revival and Tudor Revival residences typical of early 20th century suburban neighborhoods across the state. Illustrations of the latter include the Paul Stroud House (#108), a brick-veneered Colonial Revival house built in 1935 for the co-owner of a wholesale grocery firm; the picturesque Tudor Revival residence of insurance company employee Rachel Tull (#117); the similarly styled Leo Brody House (#119) and L. C. Ferrell House (#127); and the ca. 1932 Colonial Revival-style house of W. A. Moore (#131), president of an insurance agency.

In the years following the district's period of significance, the Hill-Grainger section has seen the ever-northward move of Kinston's commercial district, decreasing the size of close-in residential areas. The space between Lenoir and Vernon avenues is now almost completely commercial in character, and much of the area between Vernon and Grainger avenues was omitted from the district because of late 20th century commercial encroachment. Part of the section was lost in 1952 with the construction of Grainger Stadium, which also incurred the loss of several blocks of working class housing in east Kinston. West of the district were several tobacco company buildings, including those of E. V. Webb & Co. and the Export Leaf Tobacco Company. Both buildings are gone, the latter having been razed as recently as 1986 [Sanborn maps; and Dreyer, Kinston's Architecture, p. 136]. North of the district are suburban neighborhoods developed largely in the 1940s and after. Within the district, there has been some infill and replacement construction, as well as the conversion of a small number of houses for use as offices or commercial space. But most buildings remain single-family dwellings, with few having been converted to apartments, so that the district clearly retains its character as an early 20th century residential neighborhood for middle- and upper-income residents.

Verbal Boundary Description

The district's boundaries are as shown on the attached sketch map.

Boundary Justification

The district's boundaries are determined by different land uses and/or construction dates after the period of significance. East of the district is Grainger (baseball) Stadium, built in 1952. To the west is open space on which tobacco warehouses once stood. The commercially developed W. Vernon Ave. is to the south, while the residential neighborhoods were largely developed after the period of significance.
