John Achzet
VP Operations
Royal Pest Solutions, Inc.
53 McCullough Drive
New Castle, DE 19720

SUBJECT: Rescission Request - Cessation of Operations
Application No. 6500355.18C
Royal Pest Solutions, Inc.
Facility ID: 6500355, Wilmington, New Hanover County
Permit No. 10302R02

Dear Mr. Achzet:

The Division of Air Quality has reviewed your letter received April 10, 2018 requesting rescission of Permit No. 10302R02.

Based on information on file and the application 6500355.18C the facility has ceased operations and no longer requires an air quality permit.

Therefore, in accordance with your request, Air Quality Permit No. 10302R02 is hereby **rescinded**, effective the date of this letter. It should be noted that this exemption from permitting does not exempt Royal Pest Solutions, Inc. from complying with any applicable standards.

Furthermore, should you decide to re-open the facility, and its operations result in emissions of air pollutants, including toxic air pollutants, an Air Quality Permit may be required, and you are required to notify this regional office prior to beginning these operations.

This exemption from the permitting requirement is based upon your statement that this facility has been closed and is no longer operating. Please be advised that the operation of any air pollution emission sources which require a permit without first receiving a permit is in violation of 15A NCAC 2Q.0101, "Required Air Quality Permits." If this facility is required to obtain an Air Quality permit in the future because of air emissions, each day of operation of emission sources

Mr. John Achzet

without an Air Quality Permit represents a separate violation. Such violations may be subject to enforcement action pursuant to NCGS 143-215.114A.

If you have any questions with reference to the above matter, please do not hesitate to contact Dean Carroll at 910-796-7215.

Sincerely,

Brad Newland, Wilm Regional Supervisor
Division of Air Quality, NCDEQ
