• Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
• Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
• Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
• Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
• Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law. Thus, Executive Order 13175 does not apply to this action.

ENVIRONMENTAL PROTECTION AGENCY
40 CFR Part 52
Air Plan Approval; North Carolina; Motor Vehicle Emissions Control Program; Correcting Amendment

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: This proposed action, taken under the authority of the Clean Air Act, would correct an error in previously promulgated rules approving certain elements of the North Carolina state implementation plan (SIP). This error relates to the North Carolina SIP’s Motor Vehicle Emissions Control Standard rules and the correction removes a provision of the State’s otherwise federally-enforceable regulations that could result in infringement upon the sovereign immunity of Federal facilities. The intended effect is to ensure that the North Carolina SIP is correctly identified in the applicable part of the Code of Federal Regulations and to eliminate the possibility of such infringement.

SUPPLEMENTARY INFORMATION: In the Final Rules Section of this Federal Register, EPA is approving the State’s implementation plan revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
