Except as provided in subsection (n) of this section, the complaint and notice of dismissal are confidential and not public records.

(m) Reports and Records. – The Commission shall render the results of its inquiry in writing. When a matter is referred under subdivision (h)(2) and (3), or subsection (k) of this section, the Commission's report shall consist of the complaint, response, and detailed results of its inquiry in support of the Commission's finding of a violation under this Chapter.

If no hearing is held at such time as the Commission reports to the employing entity a recommendation of sanctions, the complaint and response shall be made public.

(o) Recommendations of Sanctions. – After referring a matter under subsection (k) of this section, if requested by the entity to which the matter was referred, the Commission may recommend sanctions or issue rulings as it deems necessary or appropriate to protect the public interest and ensure compliance with this Chapter. In recommending appropriate sanctions, the Commission may consider the following factors:

1. The public servant's prior experience in an agency or on a board and prior opportunities to learn the ethical standards for a public servant as set forth in Article 4 of this Chapter, including those dealing with conflicts of interest.

2. The number of ethics violations.
(3) The severity of the ethics violations.
(4) Whether the ethics violations involve the public servant's financial interest.
(5) Whether the ethics violations were inadvertent or intentional.
(6) Whether the public servant knew or should have known that the improper conduct was a violation of this Chapter.
(7) Whether the public servant has previously been advised or warned by the Commission.

(9) The public servant's motivation or reason for the improper conduct or action, including whether the action was for personal financial gain versus protection of the public interest.

In making recommendations under this subsection, if the Commission determines, after proper review and investigation, that sanctions are appropriate, the Commission may recommend any action it deems necessary to properly address and rectify any violation of this Chapter by a public servant, including removal of the public servant from the public servant's State position. Nothing in this subsection is intended, and shall not be construed, to give the Commission any independent civil, criminal, or administrative investigative or enforcement authority over covered persons, or other State employees or appointees.

(q) Continuing Jurisdiction. – The Commission shall have continuing jurisdiction to investigate possible criminal violations of this Chapter for a period of one year following the date an individual, who was formerly a public servant or legislative employee, ceases to be a public servant or legislative employee for any investigation that commenced prior to the date the public servant or legislative employee ceases to be a public servant or legislative employee.

(r) Subpoena Authority. – The Commission may petition the Superior Court of Wake County for the approval to issue subpoenas and subpoenas duces tecum as necessary to conduct investigations of alleged violations of this Chapter. The court shall authorize subpoenas under this subsection when the court determines the subpoenas are necessary for the enforcement of this Chapter. Subpoenas issued under this subsection shall be enforceable by the court through contempt powers. Venue shall be with the Superior Court of Wake County for any person or governmental unit covered by this Chapter, and personal jurisdiction may be asserted under G.S. 1-75.4.

(s) Reports. – The number of complaints referred under this section shall be reported under G.S. 138A-10(a)(12).

The purpose of disclosure of the financial and personal interests by covered persons is to assist covered persons and those who appoint, elect, hire, supervise, or advise them identify and avoid conflicts of interest and potential conflicts of interest between the covered person's private interests and the covered person's public duties. It is critical to this process that current and prospective covered persons examine, evaluate, and disclose those personal and financial interests that could be or cause a conflict of interest or potential conflict of interest between the covered person's private interests and the covered person's public duties. Covered persons must take an active, thorough, and conscientious role in the disclosure and review process, including having a complete knowledge of how the covered person's public position or duties might impact the covered person's private interests. Covered persons have an affirmative duty to provide any and all information that a reasonable person would conclude is necessary to carry out the purposes of this Chapter and to fully disclose any conflict of interest or potential conflict of interest between the covered person's public and private interests, but the disclosure, review, and evaluation process is not intended to result in the disclosure of unnecessary or irrelevant personal information. (2006-201, s. 1; 2008-213, s. 63.)

This subsection shall not apply to financial or other benefits derived by a covered person or legislative employee that the covered person or legislative employee would enjoy to an extent no greater than that which other citizens of the State would or could enjoy, or that are so remote, tenuous, insignificant, or speculative that a reasonable person would conclude under the circumstances that the covered person's or legislative employee's ability to protect the public interest and perform the covered person's or legislative employee's official duties would not be compromised.

(2006-201, s. 1.)

§ 138A-34. Use of information for private gain.

A public servant or legislative employee shall not use or disclose nonpublic information gained in the course of, or by reason of, the public servant's or legislative employee's official responsibilities in a way that would affect a personal financial interest of the public servant or legislative employee, a member of the public servant's or legislative employee's extended family, or a person or governmental unit with whom or business with which the public servant or legislative employee is associated. A public servant or legislative employee shall not improperly use or improperly disclose any confidential information. (2006-201, s. 1; 2008-213, s. 83.)

§ 138A-35. Other rules of conduct.

(a) A public servant shall make a due and diligent effort before taking any action, including voting or participating in discussions with other public servants on a board on which the public servant also serves, to determine whether the public servant has a conflict of interest. If the public servant is unable to determine whether or not a conflict of interest may exist, the public servant has a duty to inquire of the Commission as to that conflict.

(b) A public servant shall continually monitor, evaluate, and manage the public servant's personal, financial, and professional affairs to ensure the absence of conflicts of interest.

(c) A public servant shall obey all other civil laws, administrative requirements, and criminal statutes governing conduct of State government applicable to appointees and employees. (2006-201, s. 1.)

(a) Except as permitted by subsection (d) of this section and under G.S. 138A-38, no public servant acting in that capacity, authorized to perform an official action requiring the exercise of discretion, shall participate in an official action by the employing entity if the public servant knows the public servant or a person with which the public servant is associated may incur a reasonably foreseeable financial benefit from the matter under consideration, which financial...
benefit would impair the public servant's independence of judgment or from which it could reasonably be inferred that the financial benefit would influence the public servant's participation in the official action.

(b) A public servant described in subsection (a) of this section shall abstain from taking any verbal or written action in furtherance of the official action. The public servant shall submit in writing to the employing entity the reasons for the abstention. When the employing entity is a board, the abstention shall be recorded in the employing entity's minutes.

(c) A public servant shall take appropriate steps, under the particular circumstances and considering the type of proceeding involved, to remove himself or herself to the extent necessary, to protect the public interest and comply with this Chapter, from any proceeding in which the public servant's impartiality might reasonably be questioned due to the public servant's familial, personal, or financial relationship with a participant in the proceeding. A participant includes (i) an owner, shareholder, partner, member or manager of a limited liability company, employee, agent, officer, or director of a business, organization, or group involved in the proceeding, or (ii) an organization or group that has petitioned for rule making or has some specific, unique, and substantial interest in the proceeding. Proceedings include quasi-judicial proceedings and quasi-legislative proceedings. A personal relationship includes one in a leadership or policy-making position in a business, organization, or group.

(d) If a public servant is uncertain about whether the relationship described in subsection (c) of this section justifies removing the public servant from the proceeding under subsection (c) of this section, the public servant shall disclose the relationship to the individual presiding over the proceeding and seek appropriate guidance. The presiding officer, in consultation with legal counsel if necessary, shall then determine the extent to which the public servant will be permitted to participate. If the affected public servant is the individual presiding, then the vice-chair or any other substitute presiding officer shall make the determination. A good-faith determination under this subsection of the allowable degree of participation by a public servant is presumptively valid and only subject to review under G.S. 138A-12 upon a clear and convincing showing of mistake, fraud, abuse of discretion, or willful disregard of this Chapter.

(e) This section shall not allow participation in an official action prohibited by G.S. 14-234.

(a) Except as permitted under G.S. 138A-38, no legislator shall participate in a legislative action if the legislator knows the legislator or a person with which the legislator is associated may incur a reasonably foreseeable financial benefit from the action, and if after considering whether the legislator's judgment would be substantially influenced by the financial benefit and considering the need for the legislator's particular contribution, including special knowledge of the subject matter to the effective functioning of the legislature, the legislator concludes that an actual financial benefit does exist which would impair the legislator's independence of judgment.

(a1) The legislator shall submit in writing to the principal clerk of the house of which the legislator is a member the reasons for the abstention from participation in the legislative matter.

(b) If the legislator has a material doubt as to whether the legislator should act, the legislator may submit the question for an advisory opinion to the State Ethics Commission in accordance with G.S. 138A-13 or the Legislative Ethics Committee in accordance with G.S. 120-104.

(a) Notwithstanding G.S. 138A-36 and G.S. 138A-37, a covered person may participate in an official action or legislative action under any of the following circumstances except as specifically limited:

1. The only interest or reasonably foreseeable benefit or detriment that accrues to the covered person, the covered person's extended family, business with which the covered person is associated, or nonprofit corporation or organization with which the covered person is associated as a member of a profession, occupation, or general class is no greater than that which could reasonably be foreseen to accrue to all members of that profession, occupation, or general class.

2. When an official or legislative action affects or would affect the covered person's compensation and allowances as a covered person.

3. Before the covered person participated in the official or legislative action, the covered person requested and received from the Commission or Committee a written advisory opinion that authorized the participation. In authorizing the participation under this subdivision, the Commission or Committee shall consider the need for the legislator's particular contribution, such as special knowledge of the subject matter, to the effective functioning of the General Assembly.

4. Before participating in an official action, a public servant made full written disclosure to the public servant's employing entity which then made a written determination that the interest or benefit would neither impair the public servant's independence of judgment nor influence the public servant's participation in the official action. The employing entity shall file a copy of that written determination with the Commission.

5. When action is ministerial only and does not require the exercise of discretion.

6. When a public or legislative body records in its minutes that it cannot obtain a quorum in order to take the official or legislative action because the covered person is disqualified from acting under G.S. 138A-36, G.S. 138A-37, or this section, the covered person may be counted for purposes of a quorum, but shall otherwise abstain from taking any further action.

7. When a public servant notifies the Commission in writing that the public servant, or someone whom the public servant appoints to act in the public servant's stead, or both, are the only individuals having legal authority to take an official action, and the public servant discloses in writing the circumstances and nature of the conflict of interest.

(b) This section shall not allow participation in an official action prohibited by G.S. 14-234.

(c) Notwithstanding G.S. 138A-37, if a legislator is employed or retained by, or is an independent contractor of, a governmental unit, and the legislator is the only member of the house elected from the district where that governmental unit is located, then the legislator may take legislative action on behalf of that governmental unit provided the legislator discloses in writing to the principal clerk the nature of the relationship with the governmental unit prior to, or at the time of, taking the legislative action.
(d) Notwithstanding G.S. 138A-36, service by the president, chief financial officer, chief administrative officer, or voting member of the board of trustees of a community college as an officer, employee, or member of the board of directors of a nonprofit corporation established under G.S. 115D-20(9) to support the community college shall not constitute a conflict of interest under G.S. 138A-36, provided that the majority of the nonprofit corporation's board of directors is not comprised of the president, chief financial officer, and chief administrative officer, or voting members of the board of trustees of the community college which the nonprofit corporation was created to support. (2006-201, s. 1; 2007-347, s. 14; 2008-213, s. 85; 2010-169, s. 22(d)).

(a) Within 30 days of notice of the Commission's determination that a public servant has a disqualifying conflict of interest, the public servant shall eliminate the interest that constitutes the disqualifying conflict of interest or resign from the public position.

(b) Failure by a public servant to comply with subsection (a) of this section is a violation of this Chapter for purposes of G.S. 138A-45.

(c) A decision under this section shall be considered a final decision for contested case purposes under Article 3 of Chapter 150B of the General Statutes.

(d) As used in this section, a disqualifying conflict of interest is a conflict of interest of such significance that the conflict of interest would prevent a public servant from fulfilling a substantial function or portion of the public servant's public duties. (2006-201, s. 1.)

§ 138A-40. Employment and supervision of members of covered person's or legislative employee's extended family.

A covered person or legislative employee shall not cause the employment, appointment, promotion, transfer, or advancement of an extended family member of the covered person or legislative employee to a State office, or a position to which the covered person or legislative employee supervises or manages, except for positions at the General Assembly as permitted under G.S. 120-32(2). A public servant or legislative employee shall not supervise, manage, or participate in an action relating to the discipline of a member of the public servant's or legislative employee's extended family, except as specifically authorized by the public servant's or legislative employee's employing entity. (2006-201, s. 1; 2007-347, s. 15.)

§ 138A-41. Other ethics standards.

(a) Nothing in this Chapter shall prevent the Supreme Court, the Committee, the Legislative Services Commission, constitutional officers of the State, heads of principal departments, the Board of Governors of The University of North Carolina, the State Board of Community Colleges, or other boards from adopting additional or supplemental ethics standards applicable to that public agency's operations.

(b) The Governor, as a constitutional officer of the State, shall have the authority to adopt additional and supplemental ethics standards applicable to any appointee of the Governor to any State board, commission, council, committee, task force, authority, or similar public body, however denominated, created by statute or executive order, whether advisory or nonadvisory in authority. If the Governor adopts such ethics standards, the standards shall be published in the North Carolina Register and made available to each appointee subject to the ethics standards.
(c) The Governor, as a constitutional officer of the State, shall have the authority to adopt minimum ethics standards applicable to any employee of a State agency. If the Governor adopts such standards, the ethics standards shall be published in the North Carolina Register and made available to each employee subject to the ethics standards. (2006-201, s. 1; 2010-169, s. 14.)

Article 5.
Violation Consequences.

§ 138A-45. Violation consequences.

(a) Violation of this Chapter by any covered person or legislative employee is grounds for disciplinary action. Except as specifically provided in this Chapter and for perjury under G.S. 138A-12 and G.S. 138A-24, no criminal penalty shall attach for any violation of this Chapter.

(b) The willful failure of any public servant serving on a board to comply with this Chapter is misfeasance, malfeasance, or nonfeasance. In the event of misfeasance, malfeasance, or nonfeasance, the offending public servant serving on a board is subject to removal from the board of which the public servant is a member. For appointees of the Governor and members of the Council of State, the appointing authority may remove the offending public servant. For appointees of the Speaker of the House of Representatives may remove the offending public servant. For appointees of the General Assembly made upon the recommendation of the Speaker of the House of Representatives, the Governor at the recommendation of the Speaker of the House of Representatives may remove the offending public servant. For appointees of the President Pro Tempore of the Senate, the President Pro Tempore of the Senate may remove the offending public servant. For appointees of the General Assembly made upon the recommendation of the President Pro Tempore of the Senate, the Governor at the recommendation of the President Pro Tempore of the Senate may remove the offending public servant. For public servants elected to a board by either the Senate or House of Representatives, the electing house of the General Assembly shall exercise the discretion of whether to remove the offending public servant. For all other appointees, the Commission shall exercise the discretion of whether to remove the offending public servant.

(c) The willful failure of any public servant serving as a State employee to comply with this Chapter is a violation of a written work order, thereby permitting disciplinary action as allowed by the law, including termination from employment. For employees of State departments headed by a member of the Council of State, the appropriate member of the Council of State shall make all final decisions on the manner in which the offending public servant shall be disciplined. For public servants who are judicial employees, the Chief Justice shall make all final decisions on the matter in which the offending judicial employee shall be disciplined. For legislative employees, the Legislative Services Commission shall make or refer to the hiring authority all final decisions on the matter in which the offending legislative employee shall be disciplined. For public servants appointed or elected for The University of North Carolina or the Community Colleges System, the appointing or electing authority shall make all final decisions on the matter in which the offending public servant shall be disciplined. For any other public servant serving as a State employee, the hiring authority shall make all final decisions on the manner in which the offending public servant shall be disciplined.
employee, the Governor shall make all final decisions on the manner in which the offending public servant shall be disciplined.

(d) The willful failure of any constitutional officer of the State to comply with this Chapter is malfeasance in office for purposes of G.S. 123-5.

(e) The willful failure of a legislator, other than the Lieutenant Governor, to comply with this Chapter is grounds for sanctions under G.S. 120-103.1.

(f) Nothing in this Chapter affects the power of the State to prosecute any person for any violation of the criminal law.

(g) The Commission may seek to enjoin violations of G.S. 138A-34. (2006-201, s. 1.)

(a) Duty to Adopt Plans, Standards, etc. – The Commission is hereby directed and empowered, as rapidly as possible within the limits of funds and facilities available to it, and subject to the procedural requirements of this Article and Article 21:

1. To prepare and develop, after proper study, a comprehensive plan or plans for the prevention, abatement and control of air pollution in the State or in any designated area of the State.

2. To determine by means of field sampling and other studies, including the examination of available data collected by any local, State or federal agency or any person, the degree of air contamination and air pollution in the State and the several areas of the State.

(4) To collect information or to require reporting from classes of sources which, in the judgment of the Environmental Management Commission, may cause or contribute to air pollution. Any person operating or responsible for the operation of air contaminant sources of any class for which the Commission requires reporting shall make reports containing such information as may be required by the Commission concerning location, size, and height of contaminant outlets, processes employed, fuels used, and the nature and time periods or duration of emissions, and such other information as is relevant to air pollution and available or reasonably capable of being assembled.

(5) To develop and adopt emission control standards as in the judgment of the Commission may be necessary to prohibit, abate, or control air pollution commensurate with established air quality standards. This subdivision does not apply to that portion of the National Emission Standards for Hazardous Air Pollutants for asbestos that governs demolition and renovation as set out in 40 C.F.R. § 61.141, 61.145, 61.150, and 61.154 (1 July 1993 edition).

(7) To develop and adopt standards and plans necessary to implement programs for the prevention of significant deterioration and for the attainment of air quality standards in nonattainment areas.
(10) To develop and adopt standards and plans necessary to implement requirements of the federal Clean Air Act and implementing regulations adopted by the United States Environmental Protection Agency.
§ 143-215.107D. Emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) from certain coal-fired generating units.

(a) As used in this section:
   (1) "Coal-fired generating unit" means a coal-fired generating unit, as defined by 40 Code of Federal Regulations § 96.2 (1 July 2001 Edition), that is located in this State and has the capacity to generate 25 or more megawatts of electricity.
   (2) "Investor-owned public utility" means an investor-owned public utility, as defined in G.S. 62-3.

(b) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted more than 75,000 tons of oxides of nitrogen (NOx) in calendar year 2000:
   (1) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 35,000 tons of oxides of nitrogen (NOx) in any calendar year beginning 1 January 2007.
   (2) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 31,000 tons of oxides of nitrogen (NOx) in any calendar year beginning 1 January 2009.

(c) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted 75,000 tons or less of oxides of nitrogen (NOx) in calendar year 2000 shall not collectively emit from the coal-fired generating units that it owns or operates more than 25,000 tons of oxides of nitrogen (NOx) in any calendar year beginning 1 January 2007.

(d) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted more than 225,000 tons of sulfur dioxide (SO2) in calendar year 2000:
   (1) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 150,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2009.
   (2) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 80,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2013.

(e) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted 225,000 tons or less of sulfur dioxide (SO2) in calendar year 2000:
   (1) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 100,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2009.
   (2) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 50,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2013.

(f) Each investor-owned public utility to which this section applies may determine how it will achieve the collective emissions limitations imposed by this section. Compliance with the emissions limitations set out in this section does not alter the obligation of any person to comply with any other federal or State law, regulation, or rule related to air quality or visibility. This subsection shall not be construed to limit the authority of the Commission to impose specific limitations on the emission of oxides of nitrogen (NOx) and sulfur dioxide (SO2) from an individual coal-fired generating unit owned or operated by an investor-owned public utility.
(g) A coal-fired generating unit that is subject to the collective emissions limitations set out in this section on 1 July 2002 shall remain subject to the collective emissions limitations whether or not it thereafter continues to be owned or operated by an investor-owned public utility.

(h) The Commission shall require that any permit or modified permit issued for a coal-fired generating unit that is subject to this section include conditions that provide for testing, monitoring, record keeping, and reporting adequate to assure compliance with the requirements of this section.

(i) The Governor may enter into an agreement with an investor-owned public utility under which the investor-owned public utility voluntarily agrees to transfer to the State any emissions allowances acquired or that may be acquired by the investor-owned public utility pursuant to 42 U.S.C. §§ 7651-7651o, as implemented by 40 Code of Federal Regulations §§ 73.1 through 73.90 (1 July 2001 Edition); 42 U.S.C. 7410(a)(2)(D)(i)(I), as implemented by 40 Code of Federal Regulations § 51.121 (1 July 2001 Edition), related federal regulations, and the associated State Implementation Plan; 42 U.S.C. § 7426, as implemented by 40 Code of Federal Regulations § 52.34 (1 July 2001 Edition) and related federal regulations; or any similar program established under federal law that result from compliance with the emissions limitations set out in this section. An agreement entered into pursuant to this subsection shall be binding and shall be enforceable by specific performance. If the Governor enters into an agreement that provides for the transfer of emissions allowances to the State, the Governor shall file verified copies of the agreement with the Attorney General, the Secretary of State, the State Treasurer, the Secretary of Environment and Natural Resources, and the Utilities Commission. The State Treasurer shall hold all emissions allowances that are transferred to the State as provided in this subsection in trust for the people of this State and shall sell, trade, transfer, or otherwise dispose of the emissions allowances only as the General Assembly shall provide by law.

(j) An investor-owned public utility that is subject to the emissions limitations set out in this section shall submit to the Utilities Commission and to the Department on or before 1 April of each year a verified statement pursuant to subsection (i) of G.S. 62-133.6. (2002-4, s. 1.)

§ 143-215.108. Control of sources of air pollution; permits required.

(a) Except as provided in subsections (a1) and (a2) of this section, no person shall do any of the following things or carry out any of the following activities that contravene or will be likely to contravene standards established pursuant to G.S. 143-215.107 or set out in G.S. 143-215.107D unless that person has obtained a permit for the activity from the Commission and has complied with any conditions of the permit:

1. Establish or operate any air contaminant source, except as provided in G.S. 143-215.108A.
2. Build, erect, use, or operate any equipment that may result in the emission of an air contaminant or that is likely to cause air pollution, except as provided in G.S. 143-215.108A.
3. Alter or change the construction or method of operation of any equipment or process from which air contaminants are or may be emitted.

(a1) The Commission may by rule establish procedures that meet the requirements of section 502(b)(10) of Title V (42 U.S.C. § 7661a(b)(10)) and 40 Code of Federal Regulations §
70.4(b)(12) (1 July 1993 Edition) to allow a permittee to make changes within a permitted
facility without requiring a revision of the permit.

(a2) The Commission may adopt rules that provide for a minor modification of a permit. At a
minimum, rules that provide for a minor modification of a permit shall meet the requirements of
40 Code of Federal Regulations § 70.7(e)(2) (1 July 1993 Edition). If the Commission adopts
rules that provide for a minor modification of a permit, a permittee shall not make a change in
the permitted facility while the application for the minor modification is under review unless the
change is authorized under the rules adopted by the Commission.

(b) The Commission shall act upon all applications for permits so as to effectuate the
purposes of this Article by reducing existing air pollution and preventing, so far as reasonably
possible, any increased pollution of the air from any additional or enlarged sources.

(c) The Commission shall have the power:

(1) To grant and renew a permit with any conditions attached that the Commission
believes necessary to achieve the purposes of this Article or the requirements
of the Clean Air Act and implementing regulations adopted by the United
States Environmental Protection Agency;

(2) To grant and renew any temporary permit for such period of time as the
Commission shall specify even though the action allowed by such permit may
result in pollution or increase pollution where conditions make such
temporary permit essential;

(3) To terminate, modify, or revoke and reissue any permit upon not less than 60
days' written notice to any person affected;

(3a) To suspend any permit pursuant to the provisions of G.S. 150B-3(c);

(4) To require all applications for permits and renewals to be in writing and to
prescribe the form of such applications;

(5) To request such information from an applicant and to conduct such inquiry or
investigation as it may deem necessary and to require the submission of plans
and specifications prior to acting on any application for a permit;

(5a) To require that an applicant satisfy the Department that the applicant, or any
parent, subsidiary, or other affiliate of the applicant or parent:

a. Is financially qualified to carry out the activity for which a permit is
required under subsection (a); and

b. Has substantially complied with the air quality and emission control
standards applicable to any activity in which the applicant has
previously engaged, and has been in substantial compliance with
federal and state laws, regulations, and rules for the protection of the
environment.

As used in this subdivision, the words "affiliate," "parent," and "subsidiary"
have the same meaning as in 17 Code of Federal Regulations 240.12b-2 (1
April 1990 Edition);

(6) To adopt rules, as it deems necessary, establishing the form of applications and
permits and procedures for the granting or denial of permits and renewals
pursuant to this section; and all permits, renewals and denials shall be in
writing;

(7) To prohibit any stationary source within the State from emitting any air pollutant
in amounts that will prevent attainment or maintenance by any other state of
any national ambient air quality standard or that will interfere with measures required to be included in the applicable implementation plan for any other state to prevent deterioration of air quality or protect visibility; and

(8) To designate certain classes of activities for which a general permit may be issued, after considering the environmental impact of an activity, the frequency of the activity, the need for individual permit oversight, and the need for public review and comment on individual permits.

(d) (1) The Commission may conduct any inquiry or investigation it considers necessary before acting on an application and may require an applicant to submit plans, specifications, and other information the Commission considers necessary to evaluate the application. A permit application may not be deemed complete unless it is accompanied by a copy of the request for determination as provided in subsection (f) of this section that bears a date of receipt entered by the clerk of the local government and until the 15-day period for issuance of a determination has elapsed.

(2) The Commission shall adopt rules specifying the times within which it must act upon applications for permits required by Title V and other permits required by this section. The times specified shall be extended for the period during which the Commission is prohibited from issuing a permit under subdivisions (3) and (4) of this subsection. The Commission shall inform a permit applicant as to whether or not the application is complete within the time specified in the rules for action on the application. If the Commission fails to act on an application for a permit required by Title V or this section within the time period specified, the failure to act on the application constitutes a final agency decision to deny the permit. A permit applicant, permittee, or other person aggrieved, as defined in G.S. 150B-2, may seek judicial review of a failure to act on the application as provided in G.S. 143-215.5 and Article 4 of Chapter 150B of the General Statutes. Notwithstanding the provisions of G.S. 150B-51, upon review of a failure to act on an application for a permit required by Title V or this section, a court may either: (i) affirm the denial of the permit or (ii) remand the application to the Commission for action upon the application within a specified time.

(3) If the Administrator of the United States Environmental Protection Agency validly objects to the issuance of a permit required by Title V within 45 days after the Administrator receives the proposed permit and the required portions of the permit application, the Commission shall not issue the permit until the Commission revises the proposed permit to meet all objections noted by the Administrator or otherwise satisfies all objections consistent with Title V and implementing regulations adopted by the United States Environmental Protection Agency.

(4) If the Administrator of the United States Environmental Protection Agency validly objects to the issuance of a permit required by Title V after the expiration of the 45-day review period specified in subdivision (3) of this subsection as a result of a petition filed pursuant to section 505(b)(2) of Title V (42 U.S.C. § 7661d(b)(2)) and prior to the issuance of the permit by the Commission, the Commission shall not issue the permit until the Commission
revises the proposed permit to meet all objections noted by the Administrator or otherwise satisfies all objections consistent with Title V and implementing regulations adopted by the United States Environmental Protection Agency.

(d1) No Title V permit issued pursuant to this section shall be issued or renewed for a term exceeding five years. All other permits issued pursuant to this section shall be issued for a term not to exceed eight years.

(e) A permit applicant or permittee who is dissatisfied with a decision of the Commission may commence a contested case by filing a petition under G.S. 150B-23 within 30 days after the Commission notifies the applicant or permittee of its decision. If the permit applicant or permittee does not file a petition within the required time, the Commission's decision on the application is final and is not subject to review.

(f) An applicant for a permit under this section for a new facility or for the expansion of a facility permitted under this section shall request each local government having jurisdiction over any part of the land on which the facility and its appurtenances are to be located to issue a determination as to whether the local government has in effect a zoning or subdivision ordinance applicable to the facility and whether the proposed facility or expansion would be consistent with the ordinance. The request to the local government shall be accompanied by a copy of the draft permit application and shall be delivered to the clerk of the local government personally or by certified mail. The determination shall be verified or supported by affidavit signed by the official designated by the local government to make the determination and, if the local government states that the facility is inconsistent with a zoning or subdivision ordinance, shall include a copy of the ordinance and the specific reasons for the determination of inconsistency. A copy of any such determination shall be provided to the applicant when it is submitted to the Commission. The Commission shall not act upon an application for a permit under this section until it has received a determination from each local government requested to make a determination by the applicant. If a local government determines that the new facility or the expansion of an existing facility is inconsistent with a zoning or subdivision ordinance, and unless the local government makes a subsequent determination of consistency with all ordinances cited in the determination or the proposed facility is determined by a court of competent jurisdiction to be consistent with the cited ordinances, the Commission shall attach as a condition of the permit a requirement that the applicant, prior to construction or operation of the facility under the permit, comply with all lawfully adopted local ordinances, including those cited in the determination, that apply to the facility at the time of construction or operation of the facility. If a local government fails to submit a determination to the Commission as provided by this subsection within 15 days after receipt of the request, the Commission may proceed to consider the permit application without regard to local zoning and subdivision ordinances. This subsection shall not be construed to affect the validity of any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance or to affect the responsibility of any person to comply with any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance. This subsection shall not be construed to limit any opportunity a local government may have to comment on a permit application under any other law or rule. This subsection shall not apply to any facility with respect to which local ordinances are subject to review under either G.S. 104E-6.2 or G.S. 130A-293.

(g) Any person who is required to hold a permit under this section shall submit to the Department a written description of his current and projected plans to reduce the emission of air contaminants under such permit by source reduction or recycling. The written description shall

accompany the payment of the annual permit fee. The written description shall also accompany any application for a new permit, or for modification of an existing permit, under this section. The written description required by this subsection shall not be considered part of a permit application and shall not serve as the basis for the denial of a permit or permit modification.

(h) Expedited Review of Applications Certified by a Professional Engineer. – The Commission shall adopt rules governing the submittal of permit applications certified by a professional engineer, including draft permits, that can be sent to public notice and hearing upon receipt and subjected to technical review by personnel within the Department. These rules shall specify, at a minimum, any forms to be used; a checklist for applicants that lists all items of information required to prepare a complete permit application; the form of the certification required on the application by a professional engineer; and the information that must be included in the draft permit. The Department shall process an application that is certified by a professional engineer as provided in subdivisions (1) through (7) of this subsection.

(1) Initiation of Review. – Upon receipt of an application certified by a professional engineer in accordance with this subsection and the rules adopted pursuant to this subsection, the Department shall determine whether the application is complete as provided in subdivision (2) of this subsection. Within 30 days after the date on which an application is determined to be complete, the Department shall:
   a. Publish any required notices, using the draft permit included with the application;
   b. Schedule any required public meetings or hearings on the application and permit; and
   c. Initiate any and all technical review of the application in a manner to ensure substantial completion of the technical review by the time of any public hearing on the application, or if there is no hearing, by the close of the notice period.

(2) Completeness Review. – Within 10 working days of receipt of the permit application certified by a professional engineer under this subsection, the Department shall determine whether the application is complete for purposes of this subsection. The Department shall determine whether the permit application certified by a professional engineer is complete by comparing the information provided in the application with the checklist contained in the rules adopted by the Commission pursuant to this subsection.
   a. If the application is not complete, the Department shall promptly notify the applicant in writing of all deficiencies of the application, specifying the items that need to be included, modified, or supplemented in order to make the application complete, and the 10-day time period is suspended after this request for further information. If the applicant submits the requested information within the time specified, the 10-day time period shall begin again on the day the additional information was submitted. If the additional information is not submitted within the time periods specified, the Department shall return the application to the applicant, and the applicant may treat the return of the application as a denial of the application or may resubmit the application at a later time.
b. If the Department fails to notify the applicant that an application is not complete within the time period set forth in this subsection, the application shall be deemed to be complete.

(3) Time for Permit Decision. – For any application found to be complete under subdivision (2) of this subsection, the Department shall issue a permit decision within 30 days of the last day of any public hearing on the application, or if there is no hearing, within 30 days of the close of the notice period.

(4) Rights if Permit Decision Not Made in Timely Fashion. – If the Department fails to issue a permit decision within the time periods specified in subdivision (3) of this subsection, the applicant may:
   a. Take no action, thereby consenting to the continued review of the application; or
   b. Treat the failure to issue a permit decision as a denial of the application and appeal the denial as provided in subdivision (2) of subsection (d) of this section.

(5) Power to Halt Review. – At any time after the permit application certified by a professional engineer has been determined to be complete under subdivision (2) of this subsection, the Department may immediately terminate review of that application, including technical review and any hearings or meetings scheduled on the application, upon a determination of one of the following:
   a. The permit application is not in substantial compliance with the applicable rules; or
   b. The applicant failed to pay all permit application fees.

(6) Rights if Review Halted. – If the Department terminates review of an application under subdivision (5) of this subsection, the applicant may take any of the following actions:
   a. Revise and resubmit the application; or
   b. Treat the action as a denial of the application and appeal the denial under Article 3 of Chapter 150B of the General Statutes.

(7) Option; No Additional Fee. – The submittal of a permit application certified by a professional engineer to be considered under this subsection shall be an option and shall not be required of any applicant. The Department shall not impose any additional fees for the receipt or processing of a permit application certified by a professional engineer.

(i) Rules for Review of Applications Other Than Those Certified by a Professional Engineer. – The Commission shall adopt rules governing the times of review for all permit applications submitted pursuant to this section other than those certified by a professional engineer pursuant to subsection (h) of this section. Those rules shall specify maximum times for, among other things, the following actions in reviewing the permit applications covered by this subsection:
   1. Determining that the permit application is complete;
   2. Requesting additional information to determine completeness;
   3. Determining that additional information is needed to conduct a technical review of the application;
   4. Completing all technical review of the permit application;
   5. Holding and completing all public meetings and hearings required for the application;
Completing the record from reviewing and acting on the application; and

§ 143-215.3. General powers of Commission and Department; auxiliary powers.

(a) Additional Powers. – In addition to the specific powers prescribed elsewhere in this
Article, and for the purpose of carrying out its duties, the Commission shall have the power:
(1) To make rules implementing Articles 21, 21A, 21B, or 38 of this Chapter.
(1a) To adopt fee schedules and collect fees for the following:
   a. Processing of applications for permits or registrations issued under Article
      21, other than Parts 1 and 1A, Articles 21A, 21B, and 38 of this
      Chapter;
   b. Administering permits or registrations issued under Article 21, other than
      Parts 1 and 1A, Articles 21A, 21B, and 38 of this Chapter including
      monitoring compliance with the terms of those permits; and
   c. Reviewing, processing, and publicizing applications for construction grant
      awards under the Federal Water Pollution Control Act.

No fee may be charged under this provision, however, to a farmer who submits an
application that pertains to his farming operations.

(1b) The fee to be charged pursuant to G.S. 143-215.3(a)(1a) for processing an
application for a permit under G.S. 143-215.108 and G.S. 143-215.109 of
Article 21B of this Chapter may not exceed five hundred dollars ($500.00).
The fee to be charged pursuant to G.S. 143-215.3(a)(1a) for processing a
registration under Part 2A of this Article or Article 38 of this Chapter may not
exceed fifty dollars ($50.00) for any single registration. An additional fee of
twenty percent (20%) of the registration processing fee may be assessed for a
late registration under Article 38 of this Chapter. The fee for administering
and compliance monitoring under Article 21, other than Parts 1 and 1A, and
G.S. 143-215.108 and G.S. 143-215.109 of Article 21B shall be charged on an
annual basis for each year of the permit term and may not exceed one
thousand five hundred dollars ($1,500) per year. Fees for processing all
permits under Article 21A and all other sections of Article 21B shall not
exceed one hundred dollars ($100.00) for any single permit. The total
payment for fees that are set by the Commission under this subsection for all
permits for any single facility shall not exceed seven thousand five hundred
dollars ($7,500) per year, which amount shall include all application fees and
fees for administration and compliance monitoring. A single facility is defined
to be any contiguous area under one ownership and in which permitted
activities occur. For all permits issued under these Articles where a fee
schedule is not specified in the statutes, the Commission, or other commission
specified by statute shall adopt a fee schedule in a rule following the procedures established by the Administrative Procedure Act. Fee schedules shall be established to reflect the size of the emission or discharge, the potential impact on the environment, the staff costs involved, relative costs of the issuance of new permits and the reissuance of existing permits, and shall include adequate safeguards to prevent unusual fee assessments which would result in serious economic burden on an individual applicant. A system shall be considered to allow consolidated annual payments for persons with multiple permits. In its rulemaking to establish fee schedules, the Commission is also directed to consider a method of rewarding facilities which achieve full compliance with administrative and self-monitoring reporting requirements, and to consider, in those cases where the cost of renewal or amendment of a permit is less than for the original permit, a lower fee for the renewal or amendment.

(1c) Moneys collected pursuant to G.S. 143-215.3(a)(1a) shall be used to:

a. Eliminate, insofar as possible, backlogs of permit applications awaiting agency action;
b. Improve the quality of permits issued;
c. Improve the rate of compliance of permitted activities with environmental standards; and
d. Decrease the length of the processing period for permit applications.

(1d) The Commission may adopt and implement a graduated fee schedule sufficient to cover all direct and indirect costs required for the State to develop and administer a permit program which meets the requirements of Title V. The provisions of subdivision (1b) of this subsection do not apply to the adoption of a fee schedule under this subdivision. In adopting and implementing a fee schedule, the Commission shall require that the owner or operator of all air contaminant sources subject to the requirement to obtain a permit under Title V to pay an annual fee, or the equivalent over some other period, sufficient to cover costs as provided in section 502(b)(3)(A) of Title V. The fee schedule shall be adopted according to the procedures set out in Chapter 150B of the General Statutes.

a. The total amount of fees collected under the fee schedule adopted pursuant to this subdivision shall conform to the requirements of section 502(b)(3)(B) of Title V. No fee shall be collected for more than 4,000 tons per year of any individual regulated pollutant, as defined in section 502(b)(3)(B)(ii) of Title V, emitted by any source. Fees collected pursuant to this subdivision shall be credited to the Title V Account.

b. The Commission may reduce any permit fee required under this section to take into account the financial resources of small business stationary sources as defined under Title V and regulations promulgated by the United States Environmental Protection Agency.

c. When funds in the Title V Account exceed the total amount necessary to cover the cost of the Title V program for the next fiscal year, the Secretary shall reduce the amount billed for the next fiscal year so that
the excess funds are used to supplement the cost of administering the Title V permit program in that fiscal year.

(1e) The Commission shall collect the application, annual, and project fees for processing and administering permits, certificates of coverage under general permits, and certifications issued under Parts 1 and 1A of this Article and for compliance monitoring under Parts 1 and 1A of this Article as provided in G.S. 143-215.3D and G.S. 143-215.10G.

(2) To direct that such investigation be conducted as it may reasonably deem necessary to carry out its duties as prescribed by this Article or Article 21A or Article 21B of this Chapter, and for this purpose to enter at reasonable times upon any property, public or private, for the purpose of investigating the condition of any waters and the discharge therein of any sewage, industrial waste, or other waste or for the purpose of investigating the condition of the air, air pollution, air contaminant sources, emissions, or the installation and operation of any air-cleaning devices, and to require written statements or the filing of reports under oath, with respect to pertinent questions relating to the operation of any air-cleaning device, sewer system, disposal system, or treatment works. In the case of effluent or emission data, any records, reports, or information obtained under this Article or Article 21A or Article 21B of this Chapter shall be related to any applicable effluent or emission limitations or toxic, pretreatment, or new source performance standards. No person shall refuse entry or access to any authorized representative of the Commission or Department who requests entry for purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out his official duties.

(3) To conduct public hearings and to delegate the power to conduct public hearings in accordance with the procedures prescribed by this Article or by Article 21B of this Chapter.

(4) To delegate such of the powers of the Commission as the Commission deems necessary to one or more of its members, to the Secretary or any other qualified employee of the Department. The Commission shall not delegate to persons other than its own members and the designated employees of the Department the power to conduct hearings with respect to the classification of waters, the assignment of classifications, air quality standards, air contaminant source classifications, emission control standards, or the issuance of any special order except in the case of an emergency under subdivision (12) of this subsection for the abatement of existing water or air pollution. Any employee of the Department to whom a delegation of power is made to conduct a hearing shall report the hearing with its evidence and record to the Commission.

(5) To institute such actions in the superior court of any county in which a violation of this Article, Article 21B of this Chapter, or the rules of the Commission has occurred, or, in the discretion of the Commission, in the superior court of the county in which any defendant resides, or has his or its principal place of business, as the Commission may deem necessary for the enforcement of any of the provisions of this Article, Article 21B of this Chapter, or of any official
action of the Commission, including proceedings to enforce subpoenas or for the punishment of contempt of the Commission.

(6) To agree upon or enter into any settlements or compromises of any actions and to prosecute any appeals or other proceedings.

(7) To direct the investigation of any killing of fish and wildlife which, in the opinion of the Commission, is of sufficient magnitude to justify investigation and is known or believed to have resulted from the pollution of the waters or air as defined in this Article, and whenever any person, whether or not he shall have been issued a certificate of approval, permit or other document of approval authorized by this or any other State law, has negligently, or carelessly or unlawfully, or willfully and unlawfully, caused pollution of the waters or air as defined in this Article, in such quantity, concentration or manner that fish or wildlife are killed as the result thereof, the Commission, may recover, in the name of the State, damages from such person. The measure of damages shall be the amount determined by the Department and the North Carolina Wildlife Resources Commission, whichever has jurisdiction over the fish and wildlife destroyed to be the replacement cost thereof plus the cost of all reasonable and necessary investigations made or caused to be made by the State in connection therewith. Upon receipt of the estimate of damages caused, the Department shall notify the persons responsible for the destruction of the fish or wildlife in question and may effect such settlement as the Commission may deem proper and reasonable, and if no settlement is reached within a reasonable time, the Commission shall bring a civil action to recover such damages in the superior court in the county in which the discharge took place. Upon such action being brought the superior court shall have jurisdiction to hear and determine all issues or questions of law or fact, arising on the pleadings, including issues of liability and the amount of damages. On such hearing, the estimate of the replacement costs of the fish or wildlife destroyed shall be prima facie evidence of the actual replacement costs of such fish or wildlife. In arriving at such estimate, any reasonably accurate method may be used and it shall not be necessary for any agent of the Wildlife Resources Commission or the Department to collect, handle or weigh numerous specimens of dead fish or wildlife.

The State of North Carolina shall be deemed the owner of the fish or wildlife killed and all actions for recovery shall be brought by the Commission on behalf of the State as the owner of the fish or wildlife. The fact that the person or persons alleged to be responsible for the pollution which killed the fish or wildlife holds or has held a certificate of approval, permit or other document of approval authorized by this Article or any other law of the State shall not bar any such action. The proceeds of any recovery, less the cost of investigation, shall be used to replace, insofar as and as promptly as possible, the fish and wildlife killed, or in cases where replacement is not practicable, the proceeds shall be used in whatever manner the responsible agency deems proper for improving the fish or wildlife habitat in question. Any such funds received are hereby appropriated for these designated purposes. Nothing in
The determination of the Commission shall be supported by detailed findings of fact and conclusions set forth in the order and based upon competent evidence of record. The order shall describe the geographical area of the State affected thereby with particularity and shall prohibit the issuance of permits pending a determination by the Commission that the generalized condition of water or air pollution has ceased.

Notice of hearing shall be given in accordance with the provisions of G.S. 150B-21.2. A person aggrieved by an order of the Commission under this subdivision may seek judicial review of the order under Article 4 of Chapter 150B of the General Statutes without first commencing a contested case. An order may not be stayed while it is being reviewed.

(9) If an investigation conducted pursuant to this Article or Article 21B of this Chapter reveals a violation of any rules, standards, or limitations adopted by the Commission pursuant to this Article or Article 21B of this Chapter, or a violation of any terms or conditions of any permit issued pursuant to G.S. 143-215.1 or 143-215.108, or special order or other document issued pursuant to G.S. 143-215.2 or G.S. 143-215.110, the Commission may assess the reasonable costs of any investigation, inspection or monitoring survey which revealed the violation against the person responsible therefor. If the violation resulted in an unauthorized discharge to the waters or atmosphere of the State, the Commission may also assess the person responsible for the violation for any actual and necessary costs incurred by the State in removing, correcting or abating any adverse effects upon the water or air resulting from the unauthorized discharge. If the person responsible for the violation refuses or fails within a reasonable time to pay any sums assessed, the Commission may institute a civil action in the superior court of the county in which the violation occurred or, in the Commission's discretion, in the superior court of the county in which such person resides or has his or its principal place of business, to recover such sums.

(10) To require a laboratory facility that performs any tests, analyses, measurements, or monitoring required under this Article or Article 21B of this Chapter to be...
certified annually by the Department, to establish standards that a laboratory facility and its employees must meet and maintain in order for the laboratory facility to be certified, and to charge a laboratory facility a fee for certification. Fees collected under this subdivision shall be credited to the Water and Air Account and used to administer this subdivision. These fees shall be applied to the cost of certifying commercial, industrial, and municipal laboratory facilities.

(11) Repealed by Session Laws 1983, c. 296, s. 6.

(12) To declare an emergency when it finds that a generalized condition of water or air pollution which is causing imminent danger to the health or safety of the public. Regardless of any other provisions of law, if the Department finds that such a condition of water or air pollution exists and that it creates an emergency requiring immediate action to protect the public health and safety or to protect fish and wildlife, the Secretary of the Department with the concurrence of the Governor, shall order persons causing or contributing to the water or air pollution in question to reduce or discontinue immediately the emission of air contaminants or the discharge of wastes. Immediately after the issuance of such order, the chairman of the Commission shall fix a place and time for a hearing before the Commission to be held within 24 hours after issuance of such order, and within 24 hours after the commencement of such hearing, and without adjournment thereof, the Commission shall either affirm, modify or set aside the order.

In the absence of a generalized condition of air or water pollution of the type referred to above, if the Secretary finds that the emissions from one or more air contaminant sources or the discharge of wastes from one or more sources of water pollution is causing imminent danger to human health and safety or to fish and wildlife, he may with the concurrence of the Governor order the person or persons responsible for the operation or operations in question to immediately reduce or discontinue the emissions of air contaminants or the discharge of wastes or to take such other measures as are, in his judgment, necessary, without regard to any other provisions of this Article or Article 21B of this Chapter. In such event, the requirements for hearing and affirmance, modification or setting aside of such orders set forth in the preceding paragraph of this subdivision shall apply.

(13) Repealed by Session Laws 1983, c. 296, s. 6.

(14) To certify and approve, by appropriate delegations and conditions in permits required by G.S. 143-215.1, requests by publicly owned treatment works to implement, administer and enforce a pretreatment program for the control of pollutants which pass through or interfere with treatment processes in such treatment works; and to require such programs to be developed where necessary to comply with the Federal Water Pollution Control Act and the Resource Conservation and Recovery Act, including the addition of conditions and compliance schedules in permits required by G.S. 143-215.1. Pretreatment programs submitted by publicly owned treatment works shall include, at a minimum, the adoption of pretreatment standards, a permit or equally effective system for the control of pollutants contributed to the...
treatment works, and the ability to effectively enforce compliance with the program.

(15) To adopt rules for the prevention of pollution from underground tanks containing petroleum, petroleum products, or hazardous substances. Rules adopted under this section may incorporate standards and restrictions which exceed and are more comprehensive than comparable federal regulations.

(16) To adopt rules limiting the manufacture, storage, sale, distribution or use of cleaning agents containing phosphorus pursuant to G.S. 143-214.4(e), and to adopt rules limiting the manufacture, storage, sale, distribution or use of cleaning agents containing nitrilotriacetic acid.

(17) To adopt rules to implement Part 2A of Article 21A of Chapter 143.

(b) Research Functions. – The Department shall have the power to conduct scientific experiments, research, and investigations to discover economical and practical corrective methods for air pollution and waste disposal problems. To this end, the Department may cooperate with any public or private agency or agencies in the conduct of such experiments, research, and investigations, and may, when funds permit, establish research studies in any North Carolina educational institution, with the consent of such institution. In addition, the Department shall have the power to cooperate and enter into contracts with technical divisions of State agencies, institutions and with municipalities, industries, and other persons in the execution of such surveys, studies, and research as it may deem necessary in fulfilling its functions under this Article or Article 21B of this Chapter. In order for the State of North Carolina to effectively participate in programs administered by federal agencies for the regulation and abatement of water and air pollution, the Department is authorized to accept and administer funds provided by federal agencies for water and air pollution programs and to enter into contracts with federal agencies regarding the use of such funds.

(d) Relations with Other States. – The Commission or the Department may, with the approval of the Governor, consult with qualified representatives of adjoining states relative to the establishment of regulations for the protection of waters and air of mutual interest, but the approval of the General Assembly shall be required to make any regulations binding.

(e) Variances. – Any person subject to the provisions of G.S. 143-215.1 or 143-215.108 may apply to the Commission for a variance from rules, standards, or limitations established pursuant to G.S. 143-214.1, 143-215, or 143-215.107. The Commission may grant such variance, for fixed or indefinite periods after public hearing on due notice, or where it is found that circumstances so require, for a period not to exceed 90 days without prior hearing and notice. Prior to granting a variance hereunder, the Commission shall find that:

1. The discharge of waste or the emission of air contaminants occurring or proposed to occur do not endanger human health or safety; and

2. Compliance with the rules, standards, or limitations from which variance is sought cannot be achieved by application of best available technology found to be economically reasonable at the time of application for such variances, and would produce serious hardship without equal or greater benefits to the public,
provided that such variances shall be consistent with the provisions of the Federal Water Pollution Control Act as amended or the Clean Air Act as amended; and provided further, that any person who would otherwise be entitled to a variance or modification under the Federal Water Pollution Control Act as amended or the Clean Air Act as amended shall also be entitled to the same variance from or modification in rules, standards, or limitations established pursuant to G.S. 143-214.1, 143-215, and 143-215.107, respectively.

A request for a determination that groundwater has been remediated to meet the standards and classifications established under this Part shall be accompanied by the fee required by G.S. 130A-310.39(a)(2). If the Department determines that groundwater has been remediated to established standards and classifications, the Department shall issue a written notification that no further remediation of the groundwater will be required. The notification shall state that no further remediation of the groundwater will be required unless the Department later determines, based on new information or information not previously provided to the Department, that the groundwater has not been remediated to established standards and classifications or that the Department was provided with false or incomplete information. Under any of those circumstances, the Department may withdraw the notification and require responsible parties to remediate the groundwater to established standards and classifications. Upon written request of the agency, the Commission may waive the 210-day requirement upon consideration of the degree of public benefit, whether the agency had control over the circumstances that required the requested waiver, notice to and opposition by the public, the need for the waiver, and previous requests for waivers submitted by the agency.

(a3) Unless otherwise provided by law, the agency shall:
   1. At least 30 business days prior to adopting a temporary rule, submit the rule and a notice of public hearing to the Codifier of Rules, and the Codifier of Rules shall publish the proposed temporary rule and the notice of public hearing on the Internet to be posted within five business days.
   2. At least 30 business days prior to adopting a temporary rule, notify persons on the mailing list maintained pursuant to G.S. 150B-21.2(d) and any other interested parties of its intent to adopt a temporary rule and of the public hearing.
   3. Accept written comments on the proposed temporary rule for at least 15 business days prior to adoption of the temporary rule.
   4. Hold at least one public hearing on the proposed temporary rule no less than five days after the rule and notice have been published.

(a4) An agency must also prepare a written statement of its findings of need for a temporary rule stating why adherence to the notice and hearing requirements in G.S. 150B-21.2 would be contrary to the public interest and why the immediate adoption of the rule is required. If the temporary rule establishes a new fee or increases an existing fee, the agency shall include in the
written statement that it has complied with the requirements of G.S. 12-3.1. The statement must be signed by the head of the agency adopting the temporary rule.

(b) Review. – When an agency adopts a temporary rule it must submit the rule and the agency's written statement of its findings of the need for the rule to the Rules Review Commission. Within 15 business days after receiving the proposed temporary rule, the Commission shall review the agency's written statement of findings of need for the rule and the rule to determine whether the statement meets the criteria listed in subsection (a) of this section and the rule meets the standards in G.S. 150B-21.9. The Commission shall direct a member of its staff who is an attorney licensed to practice law in North Carolina to review the statement of findings of need and the rule. The staff member shall make a recommendation to the Commission, which must be approved by the Commission or its designee. The Commission's designee shall be a panel of at least three members of the Commission. In reviewing the statement, the Commission or its designee may consider any information submitted by the agency or another person. If the Commission or its designee finds that the statement meets the criteria listed in subsection (a) of this section and the rule meets the standards in G.S. 150B-21.9, the Commission or its designee must approve the temporary rule and deliver the rule to the Codifier of Rules within two business days of approval. The Codifier of Rules must enter the rule into the North Carolina Administrative Code on the sixth business day following receipt from the Commission or its designee.

(b1) If the Commission or its designee finds that the statement does not meet the criteria listed in subsection (a) of this section or that the rule does not meet the standards in G.S. 150B-21.9, the Commission or its designee must immediately notify the head of the agency. The agency may supplement its statement of need with additional findings or submit a new statement. If the agency provides additional findings or submits a new statement, the Commission or its designee must review the additional findings or new statement within five business days after the agency submits the additional findings or new statement. If the Commission or its designee again finds that the statement does not meet the criteria listed in subsection (a) of this section or that the rule does not meet the standards in G.S. 150B-21.9, the Commission or its designee must immediately notify the head of the agency and return the rule to the agency.

(b2) If an agency decides not to provide additional findings or submit a new statement when notified by the Commission or its designee that the agency's findings of need for a rule do not meet the required criteria or that the rule does not meet the required standards, the agency must notify the Commission or its designee of its decision. The Commission or its designee shall then return the rule to the agency. When the Commission returns a rule to an agency in accordance with this subsection, the agency may file an action for declaratory judgment in Wake County Superior Court pursuant to Article 26 of Chapter 1 of the General Statutes.

(b3) Notwithstanding any other provision of this subsection, if the agency has not complied with the provisions of G.S. 12-3.1, the Codifier of Rules shall not enter the rule into the Code.

(c) Standing. – A person aggrieved by a temporary rule adopted by an agency may file an action for declaratory judgment in Wake County Superior Court pursuant to Article 26 of Chapter 1 of the General Statutes. In the action, the court shall determine whether the agency's written statement of findings of need for the rule meets the criteria listed in subsection (a) of this section and whether the rule meets the standards in G.S. 150B-21.9. The court shall not grant an ex parte temporary restraining order.

(c1) Filing a petition for rule making or a request for a declaratory ruling with the agency that adopted the rule is not a prerequisite to filing an action under this subsection. A person who files North Carolina General Statutes 58

an action for declaratory judgment under this subsection must serve a copy of the complaint on
the agency that adopted the rule being contested, the Codifier of Rules, and the Commission.

(d) Effective Date and Expiration. – A temporary rule becomes effective on the date
specified in G.S. 150B-21.3. A temporary rule expires on the earliest of the following dates:
   (1) The date specified in the rule.
   (2) The effective date of the permanent rule adopted to replace the temporary rule, if
       the Commission approves the permanent rule.
   (3) The date the Commission returns to an agency a permanent rule the agency
       adopted to replace the temporary rule.
   (4) The effective date of an act of the General Assembly that specifically disapproves
       a permanent rule adopted to replace the temporary rule.
   (5) 270 days from the date the temporary rule was published in the North Carolina
       Register, unless the permanent rule adopted to replace the temporary rule has
       been submitted to the Commission.

(e) Publication. – When the Codifier of Rules enters a temporary rule in the North Carolina
Administrative Code, the Codifier must publish the rule in the North Carolina Register. (1973, c.

   (5) Accept oral or written comments on the proposed rule as required by subsection
       (f) of this section.

When an agency publishes in the North Carolina Register a notice of text of a proposed rule, it must mail a copy of the notice or text to each person on the mailing list who has requested notice on the subject matter described in the notice or the rule affected. An agency may charge an annual fee to each person on the agency’s mailing list to cover copying and mailing costs.

(e) Hearing. – An agency must hold a public hearing on a rule it proposes to adopt if the agency publishes the text of the proposed rule in the North Carolina Register and the agency receives a written request for a public hearing on the proposed rule within 15 days after the notice of text is published. The agency must accept comments at the public hearing on both the proposed rule and any fiscal note that has been prepared in connection with the proposed rule.

An agency may hold a public hearing on a proposed rule and fiscal note in other circumstances.
