Project Summary:	

North Carolina Division of Air Quality
2018 Diesel Emissions Reduction Grant
On-Road Mobile Project Form

Use this form for any on-road mobile projects. (e.g. truck replacement project)

1 Introduction and Project Description

1a Briefly describe your organization and the staff who will be working on the project

1b Clearly describe your project plans, if awarded

North Carolina Division of Air Quality
2018 Diesel Emissions Reduction Grant
On-Road Mobile Project Form

Use this form for any on-road mobile projects. (e.g. truck replacement project)

1c Address any "**PROJECT SELECTION CRITERIA**" from the 2018 Diesel Emissions Reduction Grant-Request for Proposal Guidance that may not be adequately addressed elsewhere.

2 Quantifiable Reductions

Please complete the **2018_DERG_Onroad_Worksheet.xlsx** file that is attached to this form on the left side of your computer screen. Once you have completed the form hit save and it will automatically update the information.

2a Describe the new equipment

The new equipment should be similar in horsepower and use of the old equipment.

- Is the equipment new or remanufactured old equipment?
- Is vehicle a hybrid or special use truck? Explain.

3 Unquantifiable benefits

Describe any unquantifiable benefits in this section or other reasons besides emissions reduction why this project should be selected for funding.

4 Budget _____

Provide an itemized listing of all the project costs, including total amount of funds requested, and any additional sources of funds both from the applicant and other sources.

Budget Table

Item	Project Costs	Grant Funds	Your Organization	Other (Specify)

North Carolina Division of Air Quality
2018 Diesel Emissions Reduction Grant
On-Road Mobile Project Form

Use this form for any on-road mobile projects. (e.g. truck replacement project)

5 Permanence of Benefits

State the full lifetime of the project equipment. Also, state the remaining project equipment lifetime at the time the project occurs.

How long does this equipment typically last when new?		Years
When was the last engine rebuild on the old equipment?		
How frequently do you rebuild the engine?		
How much of the equipment life will be left in the old engine (minimum 3 yrs. required)?		Years

6 Project Timetable or Schedule

All projects ***must be completed by August 30, 2019***. Provide a step by step estimate of how long it will take to complete your project. Due to variable contract processing time, make the schedule relative to your contract start date rather than hard dates. For example, 1 month after the contract is in place – order for school bus retrofits will be made.

Task	**Time**
Contract Begins	
Contract ends – Project Completed

6a Seasonal Concerns

Please select "yes" or a "no", in the table below, the months in which the work on this project can possibly take place. For example, some equipment cannot be taken out of service during the summer months because it is steadily being used.

January	February	March	April	May	June
Yes	Yes	Yes	Yes	Yes	Yes
July	August	September	October	November	December
Yes	Yes	Yes	Yes	Yes	Yes

7 Assurances

By signing below, the grantee assures that any equipment purchased with this grant will remain in North Carolina for 70% of the time for the next 3 years.

Good Faith Commitment of Location of Equipment Activity	
As an authorized official of _____ (organization name), I attest that, to the best of my knowledge, the information in this application is correct and at least 70% of the equipment's operation will occur in North Carolina for the next 3 years.
