Masonboro Island is one of ten North Carolina Coastal Reserves and is also part of the NC National Estuarine Research Reserve. The island is protected and managed under a state-federal partnership with NOAA and housed within the NC Division of Coastal Management.

Why is Masonboro protected?
The lands and waters within the Coastal Reserve have been protected to preserve the natural character, habitat and communities of the sites for the benefit of the citizens of the State of North Carolina.

What is the mission of the program?
The NC Coastal Reserve and National Estuarine Research Reserve have been established to protect coastal and estuarine sites so that they will be available for research and education purposes.

Can the public visit Masonboro Island?
Although the island was protected primarily for research and education, traditional uses such as fishing and recreation are allowed as long as they do not interfere with these primary uses. Appropriate use of the Reserve allows for both protection of the natural resources and continued public enjoyment.

How can I learn more?
Visit the Coastal Reserve website at www.nccoastalreserve.net for more information about the program and its sites.

Who do I contact about Masonboro?
To learn more about Masonboro Island or to get involved as a volunteer, contact the Southern Sites Manager at 910-962-2998.
