15A NCAC 07J .0102 GENERAL DEFINITIONS
The following definitions apply whenever these words are used in this Subchapter:

(1) "Areas of Environmental Concern" (AECs) means geographic areas within the coastal area which the Coastal Resources Commission chooses to designate for special environmental and land use regulations. The types of areas which may be designated as AECs are described in G.S. 113A-113. Areas which have already been designated are defined in 15A NCAC 7H, "State Guidelines for Areas of Environmental Concern."

(3) "Excavation Project" means any moving, digging, or exposing of bottom materials, marshland substrate or root or rhizome matter in the estuarine waters, tidal sands, marshlands and state-owned lakes, regardless of the equipment or method used.

(4) "Filling Project" means the placing of any materials in estuarine waters, tidal sands, marshlands and state-owned lakes so as to raise the elevation of the area upon which the material is placed. Structure placement does not constitute a filling or excavation project. The placement of shell material specifically for the purpose of oyster culture also shall not be considered a filling project.

(7) "Division" means the Division of Coastal Management.

(8) "Permit" refers to CAMA major development permits, CAMA minor development permits and dredge and fill permits unless the context clearly indicates otherwise.
