ATLANTIC COAST PIPELINE AND SUPPLY HEADER PROJECT

Proposed Project

The Federal Energy Regulatory Commission (FERC) is the agency responsible for authorizing interstate natural gas transmission facilities under the Natural Gas Act, and is the lead federal agency for the Atlantic Coast Pipeline. On Sept. 18, 2015, Atlantic Coast Pipeline, LLC (Atlantic) and Dominion Energy Transmission, Inc. filed respective applications with the FERC to construct, operate, abandon and maintain natural gas pipeline facilities in Pennsylvania, West Virginia, Virginia and North Carolina. In addition, on Sept. 18, 2015, Atlantic and Piedmont Natural Gas. Co., Inc. filed a joint application with the FERC to lease capacity on Piedmont's existing pipeline distribution system.

Proposed in North Carolina

The Atlantic Coast Pipeline is proposing to construct one compressor station in Northampton County and install approximately 186 miles of transmission pipeline and accessories in Northampton, Halifax, Nash, Wilson, Johnston, Sampson, Cumberland and Robeson counties.

NCDEQ Permitting Requirements

Division of Energy, Minerals and Land Resources

- Erosion and Sediment Control Plan Approval
- NPDES General Stormwater Permit

Division of Water Resources

- 401 Water Quality Certification

Division of Air Quality

- Air Quality Permit— Small / Synthetic Minor Air Permit

How to submit comments specifically for the 401 Water Quality Certification

The Public is invited to submit comments by 5 pm Aug. 19, 2017 to:

401 Permitting Branch or PublicComments@ncdenr.gov
1617 Mail Service Center (include "ACP" in the email's subject line)
Raleigh, NC

Information on the 401 certification application can be found online at :
