PLEASE CALL 919-266-1100 IF THERE IS A TRANSMISSION PROBLEM.
Mr. Charles Gardner  
Director of the Division of Land Resources  
Department of Environment, Health and Natural Resources  

Dear Charles:  

Our TRIANGLE QUARRY mining permit prohibits Wake Stone from shipping material on Saturdays after 1:00 pm. This provision was added to our permit in order to insure that citizens utilizing Reedy Creek State Park were able to enjoy the park without the interference of truck traffic and other quarry operations.  

Reedy Creek State Park has been closed since September 6, 1996 because of damage caused by Hurricane Fran. I believe the park will be closed for some time to come.  

The Nello Teer Company is presently working on an special repair to the Raleigh Outer Loop near the RDU Airport -- a job that requires the shipment of 60,000 tons of ABC within a two month period of time. Because of the heavy rains during the past two months, the job is running well behind the anticipated schedule. Teer Company has asked us if we would be able to stay later than 1:00 pm on Saturdays in order to accommodate their needs. We have explained our permit restrictions to them, however with the Park not in operation at this time, we would like permission to ship aggregates to this NC DOT job until 5:00 on Saturdays. This request, and related permission, would expire when the park reopens or when Teer completes the repair, whichever comes first.  

Thank you for your consideration of this matter.  

Sincerely,  

WAKE STONE CORPORATION  

John A. Poole  
Vice President - Sales

RE: Permit No. 92-10
Cary Quarry
Wake County

Dear Mr. Poole:

Your recent request to have the above referenced mining permit modified has been approved. The modification is to allow the shipping of material after 1:00 P.M. on Saturdays until such time as the Umstead State Park reopens or the repair of the Raleigh Outer Loop Project near the RDU Airport is completed, whichever comes first.

Please attach this approval letter to your existing mining permit for future reference. The expiration date, mine name and permit number on the permit document shall remain the same as before this modification.

The issuance of a mining permit and/or any modification to it does not supersede local zoning regulations. The responsibility of compliance with any applicable zoning regulations lies with you.

Please advise this office at (919) 733-4574 should you have any questions concerning this matter.

Sincerely,

Charles H. Gardner, P.G., P.E.
