SUGGESTED CHANGES TO SEDIMENTATION CONTROL RULES

SUBCHAPTER 04A - SEDIMENTATION CONTROL COMMISSION ORGANIZATION

15A NCAC 04A .0101 OFFICES OF THE SEDIMENTATION CONTROL COMMISSION

Persons may write or visit the North Carolina Sedimentation Control Commission offices at the Archdale Building, 512 N. Salisbury Street, P.O. Box 27687, Raleigh, North Carolina 27604 or write to them at 1612 Mail Service Center, Raleigh, NC 27699-1612. Persons may write or visit regional offices of the Commission's staff in the Division of Energy, Mineral, and Land Resources at the following locations:

(1) Interchange Building 2090 US Hwy 70
59 Woodfin Place Swannanoa, NC 28778
P.O. Box 370
Asheville, N.C. 28801
(2) 585 Waughtown Street 450 Hanes Mill Rd.
Suite 300
Winston-Salem, N.C. 27102 27105
(3) 919 North Main Street 610 E. Center Avenue
P.O. Box 950 Suite 301
Mooresville, N.C. 28115
(4) 3800 Barrett Drive
P.O. Box 27687
Raleigh, N.C. 27611
(5) Wachovia Building 225 Green Street
Suite 714
Fayetteville, N.C. 28301
(6) 1424 Carolina Avenue 943 Washington Square Mall
P.O. Box 2188
Washington, N.C. 27889
(7) 127 Cardinal Dr., Ext. Drive Extension
Wilmington, N.C. 28405-3845

History Note: Authority G.S. 143B-298; 113A-54
Eff. February 1, 1976;
Amended Eff. August 1, 2012 (see S.L. 2012-143, s.1.(f)); October 1, 1995; February 1, 1992; May 1, 1990; December 1, 1988;
Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04A .0102 PURPOSES

15A NCAC 04A .0103 STRUCTURE

15A NCAC 04A .0104 DELEGATION

History Note: Authority G.S. 113A-54(b)(d)(3); 113A-56(a)(b); 113A-58(1); 113A-61(d); 143B-298;

15A NCAC 04A .0105 DEFINITIONS

As used in this Chapter, the following terms shall have these meanings:

(1) "Accelerated Erosion" means any increase over the rate of natural erosion, as a result of land-disturbing activities.

Black type: Existing rule language, Black type: Removed language, Underlined: Replacement language
(2) "Adequate Erosion Control Measure, Structure, or Device Devices or Structures" means one which controls the soil material within the land area under responsible control of the person conducting the land-disturbing activity.

(3) "Being Conducted" means a land-disturbing activity has been initiated and permanent stabilization of the site has not been completed not deemed complete.

(4) "Borrow" means fill material which is required for on-site construction and is obtained from other locations.

(5) "Buffer Zone" means the strip of land adjacent to a lake or natural watercourse.

(6) "Coastal counties Counties" means the following counties: Beaufort, Bertie, Brunswick, Camden, Carteret, Chowan, Currituck, Dare, Gates, Hertford, Hyde, New Hanover, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Tyrrell, and Washington.

(7) "Completion of Construction or Development" means that no further land-disturbing activity is required on a phase of a project except that which is necessary for establishing a permanent ground cover.

(8) "Commission" means the North Carolina Sedimentation Control Commission.

(9) "Director" means the Director of the Division of Energy, Mineral, and Land Resources of the Department of Environment, Health, and Natural Resources.

(10) "Discharge Point" means that point at which runoff leaves a tract of land on which a land-disturbing activity has occurred or enters a lake or natural watercourse.

(11) "Energy Dissipator" means a structure or a shaped channel section with mechanical armoring placed at the outlet of pipes or conduits to receive and break down the energy from high velocity flow.

(12) "Ground Cover" means any natural vegetative growth or other material which renders the soil surface stable against accelerated erosion.

(13) "High Quality Water (HQW) Zones" means areas in the Coastal Counties that are within 575 feet of High Quality Waters and for the remainder of the state areas that are within one mile of and drain to HQW's.

(14) "High Quality Waters" means those classified described as such in 15A NCAC 2B .0101(e)(5) (This reference is in the process of being changed to 15A NCAC 02B .0224), General Procedures, which is incorporated herein by reference to include further amendments.

(15) "Lake or Natural Watercourse" means any stream, river, brook, swamp, sound, bay, creek, run, branch, canal, waterway, estuary, and any reservoir, lake or pond, natural or impounded in which sediment may be moved or carried in suspension, and which could be damaged by accumulation of sediment.

(16) "Natural Erosion" means erosion as defined in G.S. 113A-52(5) under natural environmental conditions undisturbed by man.

(17) "Person Conducting the Land-disturbing Activity" means any person who may be held responsible for a violation unless expressly provided otherwise by the Sedimentation Pollution Control Act of 1973, G.S. 113A-50 to 66 69, the Rules of this Chapter North Carolina Administrative Code, Title 15A Chapter 4, or any order or local ordinance adopted pursuant to the Sedimentation Pollution Control Act of 1973, G.S. 113A-50 to 66 69.

(18) "Person Who Violates" or "Violator", as used in G.S. 113A-64, means:

(a) the developer or other person who has or holds himself out as having financial or operational control over the land-disturbing activity; or

(b) the landowner or person in possession or control of the land when he has directly or indirectly allowed the land-disturbing activity or has directly benefitted from it or he has failed to comply with any provision of the Sedimentation Pollution Control Act of 1973, G.S. 113A-50 to 66 69, the Rules of this Chapter North Carolina Administrative Code, Title 15A, Chapter 4, or any order or local ordinance adopted pursuant to the Sedimentation Pollution Control Act of 1973, G.S. 113A-50 to 66 69, as it imposes a duty upon him.

Note: It was proposed by the Workgroup that the statement “or has benefitted from it” be removed since it could be used to bring action against someone who only incidentally
benefited from the project. The word “directly” was also added. The Workgroup was split on whether it was best to keep it in or remove it. The Workgroup decided to ask the Commission to provide input on whether they desire the phrase to be removed or remain in place.

(10) “Phase of Grading” means one of two types of grading, rough or fine.
(20)(12) “Sedimentation” means the process by which sediment resulting from accelerated erosion has been or is being transported off the site of the land-disturbing activity or into a lake or natural watercourse.
(21)(19) “Storm Drainage Facilities” means the system of inlets, conduits, channels, ditches, and appurtenances which serve to collect and convey stormwater through and from a given drainage area.
(22)(13) “Storm Water Stormwater Runoff” means the direct runoff of water resulting from precipitation in any form.
(23)(20) “Ten Year Storm” means the surface runoff resulting from a rainfall of an intensity expected to be equaled or exceeded, on the average, once in 10 years, and of a duration which will produce the maximum peak rate of runoff, for the watershed of interest under average antecedent wetness conditions.
(24)(28) “Twenty-five Year Storm” means the surface runoff resulting from a rainfall of an intensity expected to be equaled or exceeded, on the average, once in 25 years, and of a duration which will produce the maximum peak rate of runoff, from the watershed of interest under average antecedent wetness conditions.
(25)(15) “Uncovered” means the removal of ground cover from, on, or above the soil surface.
(26)(16) “Undertaken” means the initiating of any activity, or phase of activity, which results or will result in a change in the ground cover or topography of a tract of land.
(27)(17) “Waste” means surplus materials resulting from on-site construction and disposed of at other locations.
(28)(21) “Velocity” means the average velocity rate of flow through the cross section of the main channel at the peak flow of the storm of interest. The cross section of the main channel shall be that area defined by the geometry of the channel plus the area of flow below the flood height defined by vertical lines at the main channel banks. Overload flows are not to be included for the purpose of computing velocity of flow.

SUBCHAPTER 4B – EROSION AND SEDIMENT CONTROL

15A NCAC 04B .0101 AUTHORITY
History Note: Authority G.S. 113A-54; 113A-64;
Eff. February 1, 1976;

15A NCAC 04B .0102 PURPOSE

15A NCAC 04B .0103 SCOPE

Black type: Existing rule language. Black type: Removed language. Underlined type: Replacement language
15A NCAC 04B .0104  DEFINITIONS
History Note: Authority G.S. 113A-52; 113A-54;
Eff. February 1, 1976;
Amended Eff. March 14, 1980; January 31, 1979; July 1, 1978;

15A NCAC 04B .0105  PROTECTION OF PROPERTY
Persons conducting land-disturbing activity shall take all reasonable measures to protect all public and private property from sedimentation and erosion damage caused by such activities.

History Note: Authority G.S. 113A-54(d)(2);
Eff. February 1, 1976;

15A NCAC 04B .0106  BASIC EROSION AND SEDIMENTATION CONTROL PLAN OBJECTIVES
(a) An erosion and sedimentation control plan developed pursuant to Chapter 04, shall may be disapproved pursuant to 15A NCAC 4B .0118 if the plan fails to be designed to address the following control objectives:
   a) (1) Identify Critical Areas: Identify site areas subject to severe erosion, and off-site areas especially vulnerable to damage from erosion and sedimentation.
   b) (2) Limit Exposed Areas. Limit the size of the area exposed at any one time.
   c) (3) Limit Time of Exposure. Limit exposure to the shortest feasible time allowable by rules, other permits, or as directed by the approving authority.
   d) (4) Control Surface Water. Control surface water runoff originating upgrade of exposed areas in order to reduce erosion and sediment loss during exposure.
   e) (5) Control Sedimentation. All land-disturbing activity is to be planned and conducted so as to prevent off-site sedimentation damage.
   f) (6) Manage Storm Water Stormwater Runoff. Plans shall be designed such that when the any increase in velocity of storm water stormwater runoff resulting from a land-disturbing activity will not result in causes accelerated erosion of the receiving stormwater conveyance or the discharge point, watercourse. Plans plans shall include measures necessary to control the prevent erosion from the runoff velocity within the project boundary to prevent erosion from and at the point of discharge.

(b) When deemed necessary by the approving authority a preconstruction conference may be required (Moved to 04B .120(d))

History Note: Authority G.S. 113A-54(d)(4); 113A-54.1;
Eff. February 1, 1976;
Amended Eff. July 1, 2000; February 1, 1992; May 1, 1990; November 1, 1984; March 14, 1980.

15A NCAC 04B .0107  MANDATORY STANDARDS FOR LAND-DISTURBING ACTIVITY
(a) No land-disturbing activity subject to these Rules shall be undertaken except in accordance with the G.S. 113A-57.
(b) Pursuant to G.S. 113A-57(3), provisions for a ground cover sufficient to restrain erosion must be accomplished within 15 working days or 90 calendar days following completion of construction or development, whichever period is shorter, except as provided in 15A NCAC 4B .0124(e).
(c) Pursuant to G.S. 113A-57(4) and 113A-54(d)(4), an erosion and sedimentation control plan must be both filed and approved by the agency having jurisdiction.
(d) When sites are also covered under the NPDES Construction General Permit (NCG 010000), more stringent standards, such as limits to stabilize the site with ground cover may apply.

History Note: Authority G.S. 113A-54(d)(4); 113A-57; 113A-57(3)(4); 113A-61.1; Eff. February 1, 1976; Amended Eff. July 1, 2000; May 1, 1990; August 1, 1988; November 1, 1984; March 14, 1980.

15A NCAC 04B .0108 DESIGN AND PERFORMANCE STANDARD

Erosion and sedimentation control measures, structures, and devices shall be so planned, designed, and constructed to provide protection from the runoff of that 10-year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture Soil Conservation Service’s "National Engineering Field Manual Handbook 630 for Conservation Practices" which is herein incorporated by reference including subsequent amendments and editions, and may be accessed at https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/water/manage/hydrology/?cid=stelprdb1043063 or according to procedures adopted by any other agency of this state or the United States or any generally recognized organization or association.

History Note: Authority G.S. 113A-54; Eff. February 1, 1976; Amended Eff. November 1, 1984; July 1, 1978.

15A NCAC 04B .0109 STORM WATER STORMWATER OUTLET PROTECTION

(a) Persons shall conduct land-disturbing activity so that the post-construction velocity of the ten-year storm runoff in the receiving watercourse stormwater conveyance to, and including, the discharge point does not exceed the greater of:

1. the velocity established by the table in Paragraph (d) of this Rule; or
2. the velocity of the ten-year storm runoff in the receiving watercourse stormwater conveyance prior to development.

If conditions (1) or (2) of this Paragraph cannot be met, then the receiving watercourse stormwater conveyance to and including the discharge point shall be designed and constructed to withstand the expected velocity anywhere the velocity exceeds the “prior to development” velocity by ten percent.

(b) Acceptable Management Measures. The Commission recognizes that management of stormwater runoff to control downstream erosion constitutes a developing technology and consequently invites the use of innovative techniques shown to produce successful results. Alternatives include:

1. Compensate for increased runoff from areas rendered impervious by designing measures to promote infiltration.
2. Avoid increases in stormwater discharge velocities by using vegetated or roughened swales and waterways in place of closed drains and paved sections.
3. Provide energy dissipators at storm drainage outlets to reduce flow velocities to the discharge points.
4. Protect watercourses stormwater conveyances subject to accelerated erosion by improving cross sections and/or providing erosion-resistant lining.

(c) Exceptions. This Rule shall not apply when stormwater discharge velocities will not create an erosion problem in the receiving watercourse stormwater conveyance or discharge point.

(d) The following table sets maximum permissible velocity for stormwater discharges:

<table>
<thead>
<tr>
<th>Material</th>
<th>Maximum Permissible Velocities For</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fine Sand (noncolloidal)</td>
<td>2.5 F.P.S.  .8 M.P.S.</td>
</tr>
<tr>
<td>Sandy Loam (noncolloidal)</td>
<td>2.5 F.P.S.  .8 M.P.S.</td>
</tr>
<tr>
<td>Silt Loam (noncolloidal)</td>
<td>3.0 F.P.S.  .9 M.P.S.</td>

</tbody>
</table>

Ordinary Firm Loam 3.5 1.1
Fine Gravel 5.0 1.5
Stiff Clay (very colloidal) 5.0 1.5
Graded, Loam to Cobbles (noncolloidal) 5.0 1.5
Graded, Silt to Cobbles (colloidal) 5.5 1.7
Alluvial Silts (noncolloidal) 3.5 1.1
Alluvial Silts (colloidal) 5.0 1.5
Coarse Gravel (noncolloidal) 6.0 1.8
Cobbles and Shingles 5.5 1.7
Shales and Hard Pans 6.0 1.8

Source: Adapted from recommendations by Special Committee on Irrigation Research, American Society of Civil Engineers, 1926, for channels with straight alignment. For sinuous channels multiply allowable velocity by 0.95 for slightly sinuous, by 0.9 for moderately sinuous channels, and by 0.8 for highly sinuous channels.

History Note: Authority G.S. 113A-54(b)(c); Eff. February 1, 1976; Amended Eff. February 1, 1992; May 1, 1990; November 1, 1984; July 1, 1978.

15A NCAC 04B .0110  BORROW AND WASTE AREAS
If the same person conducts the land-disturbing activity and any related borrow or waste activity, the related borrow or waste activity shall constitute part of the land-disturbing activity unless the borrow or waste activity is regulated under the Mining Act of 1971, or is a landfill regulated by the Division of Solid Waste Management. If the land-disturbing activity and any related borrow or waste activity are not conducted by the same person, they shall be considered separate land-disturbing activities.

History Note: Authority G.S. 74-67; 113A-54(b); 130A-166.21; Eff. February 1, 1976; Amended Eff. May 1, 1990; November 1, 1984.

15A NCAC 04B .0111  ACCESS AND HAUL ROADS
Temporary access and haul roads, other than public roads, constructed or used in connection with any land-disturbing activity shall be considered a part of such activity.

History Note: Authority G.S. 113A-54; Eff. February 1, 1976.

15A NCAC 04B .0112  OPERATIONS IN LAKES OR NATURAL WATERCOURSES
Land-disturbing activity in connection with construction in, on, over, or under a lake or natural watercourse shall minimize the extent and duration of disruption of the stream channel. Where relocation of a stream forms an essential part of the proposed activity, the relocation shall minimize unnecessary changes in the stream flow characteristics.

History Note: Authority G.S. 113A-54; 113A-54.1(a); 113A-54.1(c); Eff. February 1, 1976; Amended Eff. November 1, 1984.

15A NCAC 04B .0113  RESPONSIBILITY FOR MAINTENANCE
During the development of a site, the person conducting the land-disturbing activity shall install and maintain all temporary and permanent erosion and sedimentation control measures as required by the approved plan or any provision of the Act, these Rules, or any order or local ordinance adopted pursuant to the Act. After site development, the land owner or person in possession or control of the land shall install and/or maintain all necessary permanent erosion and sediment control measures, except those measures installed within a road or street right of way or easement accepted for maintenance by a governmental agency.

Black type: Existing rule language, Black type: Removed language, Underlined type: Replacement language
15A NCAC 04B .0114 GUIDELINES FOR EROSION AND SEDIMENT CONTROL PRACTICES

Whenever the commission or a local government determines that significant erosion and sedimentation continues despite the installation of protective practices, the person conducting the land-disturbing activity will be required to and shall take additional protective action.

15A NCAC 04B .0115 ADDITIONAL MEASURES

Persons conducting land-disturbing activity on a tract that covers one or more acres shall file three copies of the erosion and sedimentation control plan with the local government having jurisdiction or with the Commission if no local government has jurisdiction, at least 30 days prior to beginning such activity and shall keep another copy of the plan on file at the job site. After approving a plan, if the Commission or local government determines, either upon review of such plan or upon inspection of the job site, that a significant risk of accelerated erosion or off-site sedimentation exists, the Commission or local government shall require a revised plan. Pending the preparation of the revised plan, work shall cease or shall continue under conditions outlined by the appropriate authority.

15A NCAC 04B .0116 EXISTING UNCOVERED AREAS

15A NCAC 04B .0117 STATEMENT OF FINANCIAL RESPONSIBILITY AND OWNERSHIP

15A NCAC 04B .0118 APPROVAL OF PLANS

(a) Persons conducting land-disturbing activity on a tract which covers one or more acres shall file three copies of the erosion and sedimentation control plan with the local government having jurisdiction or with the Commission if no local government has jurisdiction, at least 30 days prior to beginning such activity and shall keep another copy of the plan on file at the job site. After approving a plan, if the Commission or local government determines, either upon review of such plan or upon inspection of the job site, that a significant risk of accelerated erosion or off-site sedimentation exists, the Commission or local government shall require a revised plan. Pending the preparation of the revised plan, work shall cease or shall continue under conditions outlined by the appropriate authority.

(b) Commission Approval:

(1) The Commission shall review plans for all land-disturbing activity over which the Commission has exclusive jurisdiction by statute and all other land-disturbing activity if no local government has jurisdiction.

(2) The Commission shall complete its review of any completed plan within 30 days of receipt and shall notify the person submitting the plan in writing that it has been:

(A) approved;

(B) approved with modification;

(C) approved with performance reservations;

(D) disapproved.

(3) The Commission's approval with modification, or approval with performance reservations or disapproval of any proposed plan, shall entitle the person submitting the plan to an administrative hearing in accordance with the provisions of G.S. 150B-23. (This Section rule does not modify any other rights to a contested case hearing which may arise under G.S. 150B-23).
(4) Subparagraph (b)(3) of this Rule shall not apply to the approval or modification of plans reviewed by the Commission pursuant to G.S. 113A-61(c).

(5) Any plan submitted for a land-disturbing activity for which an environmental document is required by the North Carolina Environmental Policy Act as set forth in G.S. 113A shall be deemed incomplete until a complete environmental document is available for review. The Commission shall promptly notify the person submitting the plan that the 30 day time limit for review of the plan pursuant to Subparagraph (b)(2) of this Rule shall not begin until a complete environmental document is available for review.

(c) Erosion An erosion and sedimentation control plans may also be disapproved unless they the plan application includes authorized statement of financial responsibility and ownership. This statement shall be signed by the person financially responsible for the land-disturbing activity or his attorney in fact. The statement shall include the mailing and street addresses of the principal place of business of the person financially responsible and of the owner of the land or their registered agents.

(d) Local Government Approval:
   (1) Local Governments administering erosion and sedimentation control programs shall develop and publish procedures for approval of plans. Such procedures shall respect applicable laws, ordinances, and rules, and shall contain procedures for appeal consistent with the local government's organization and operations.
   (2) The secretary Secretary shall appoint such employees of the Department as he deems necessary to consider appeals from the local government's final disapproval or modification of a plan. Within 30 days following receipt of notification of the appeal, such departmental employee shall complete the review and shall notify the local government and the person appealing the local government's decision that the plan should be approved, approved with modifications, approved with performance reservations, or disapproved.
   (3) If either the local government or the person submitting the plan disagrees with the decision reached by an employee of the Department, then he may appeal the decision to the Commission by filing notice within 15 days with the Director of the Division of Energy, Mineral, and Land Resources. The director Director shall make the proposed erosion control plan and the records relating to the local government's and departmental employees' review, available to an appeals review committee consisting of three members of the Commission appointed by the chairman. Within 10 days following receipt of the notification of appeal, the appeals review committee shall notify both the local government and the person submitting the plan of a place and time for consideration of the appeal, and shall afford both parties an opportunity to present written or oral arguments. The appeals review committee shall notify both parties of its decision concerning the approval, disapproval, or modification of the proposed plan within 30 days following such hearing.
   (e) The applicant's right under G.S. 113A-54.1(d) to appeal the Director's disapproval of an erosion control plan under G.S. 113A-54.1(c) gives rise to a right to a contested case under G.S. 150B, Article 3. An applicant desiring to appeal the Director's disapproval of an erosion control plan shall file with the Office of Administrative Hearings a contested case petition under G.S. 150B, Article 3. The general time limitation for filing a petition, and the commencement of the time limitation, shall be as set out in G.S. 150B-23(f). Contested cases shall be conducted under the procedures of G.S. 150B, Article 3 and applicable rules of the Office of Administrative Hearings. The Commission shall make the final decision on any contested case under G.S. 150B-36.

History Note: Filed as a Temporary Amendment Eff. January 14, 1992 for a period of 180 days to expire on July 11, 1992; Statutory Authority G.S. 113A-2; 113A-54; 113A-54.1; 113A-60(a); 113A-61(b); 113A-61(c); 150B, Article 3; 150B-23; Eff. 15A NCAC 04B .0119 COMPLIANCE WITH PLAN REQUIREMENT

History Note: Authority G.S. 113A-54(b); Eff. February 1, 1976; Amended Eff. November 1, 1984; Repealed Eff. August 1, 1988.

15A NCAC 04B .0120 INSPECTIONS AND INVESTIGATIONS

Black type: Existing rule language, Black type: Removed language, Underlined type: Replacement language
(a) The Commission, Department of Environment, Health, and Natural Resources, or local government may require written statements, or the filing of reports under oath, concerning land-disturbing activity.
(b) Inspection of sites shall be carried out by the staff of Department of Environment, Health, and Natural Resources or other qualified persons authorized by the Commission or Department of Environment, Health, and Natural Resources as necessary to carry out its duties under the Act.
(c) No person shall refuse entry or access to any representative of the Commission or any representative of a local government who requests entry for purposes of inspection.
(b) When deemed necessary by the approving authority, a preconstruction conference may be required and shall be specified on the plans. (moved from 04B. 0106)

Note: Paragraphs (b) and (c) of 04B.0120 are in the statute and do not need to be repeated here.

History Note: Authority G.S. 113A-54(b); 113A-58; 113A-61.1; Eff. February 1, 1976; Amended Eff. October 1, 1995; May 1, 1990; November 1, 1984.

15A NCAC 04B .0121 PENALTIES
History Note: Authority G.S. 113A-54; 113A-64; Eff. February 1, 1976; Repealed Eff. November 1, 1984.

15A NCAC 04B .0122 SEVERABILITY CLAUSE
If any of these provisions are held invalid or unenforceable, all of the other provisions shall nevertheless continue in full force and effect.

History Note: Authority G.S. 113A-54; Eff. February 1, 1976; Amended Eff. November 1, 1984; Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04B .0123 EFFECTIVE DATE
History Note: Authority G.S. 113A-54(b); Eff. February 1, 1976; Amended Eff. November 1, 1984; November 15, 1976; Repealed Eff. August 1, 1988.

15A NCAC 04B .0124 DESIGN STANDARDS IN SENSITIVE WATERSHEDS
(a) Uncovered areas in HQW zones shall be limited at any time to a maximum total area within the boundaries of the tract of 20 acres. Only the portion of the land-disturbing activity within a HQW zone shall be governed by this Rule. Larger areas may be uncovered within the boundaries of the tract with the written approval of the Director upon providing adequate engineering justification with a specific construction sequence that addresses phasing, limited exposure, weekly submitted self-inspection reports and/or more conservative design than the 25 year storm. The Director may also include other conditions as necessary based on specific site conditions.

(b) Erosion and sedimentation control measures, structures, and devices within HQW zones shall be so planned, designed and constructed to provide protection from the runoff of the 25-year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture, Natural Resources Conservation Service's "National Engineering Field Handbook 630 for Conservation Practices" which is herein incorporated by reference including subsequent amendments and editions, and may be accessed at no cost at https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/water/manage/hydrology/?cid=stelprdb1043063 or according to procedures adopted by any other agency of this state or the United States or any generally recognized organization or association.
(c) Sediment basins within HQW zones shall be designed and constructed such that the basin will have a settling efficiency of at least 70 percent for the 40 micron (0.04mm) size soil particle transported into the basin by the runoff of that two-year storm which produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture Soil Conservation Services “National Engineering Field Manual for Conservation Practices” or according to procedures adopted by any other agency of this state or the United States or any generally recognized organization or association.

(c) In order to provide for water quality protection in High Quality Water Zones, sediment basins that discharge to those areas shall be designed and constructed to meet the following criteria:

1. Use a surface withdrawal mechanism except when the basin drainage area is less than 1.0 acre;
2. Have a minimum of 1800 cubic feet per of storage area per acre of disturbed area;
3. Have a minimum surface area of 325 square feet per cfs of Q25 peak inflow;
4. Have a minimum dewatering time of 48 hours and,
5. Incorporate three baffles unless the basin is less than 20 feet in length, in which case two baffles are sufficient.

(d) If it is determined by the Director that meeting each of the basin design conditions in item (c) will result in design and operational hardships, alternative control measures shall be allowed as a substitute if it can be shown that use of the alternate practices are expected to result in an equal or better sediment discharge reduction from the site. For example, quicker application of ground cover or use of sediment flocculants have been demonstrated to achieve substantial reductions in sediment discharge from a site.

(e) Newly constructed open channels in HQW zones shall be designed and constructed with side slopes no steeper than two horizontal to one vertical if a vegetative cover is used for stabilization unless soil conditions permit a steeper slope or where the slopes are stabilized by using mechanical devices, structural devices or other acceptable ditch liners. In any event, the angle for side slopes shall be sufficient to restrain accelerated erosion.

(f) Pursuant to G.S. 113A-57(3) provisions for a ground cover sufficient to restrain erosion must be provided for any portion of a land disturbing activity in a HQW zone within 15 working days or 60 calendar days following completion of construction or development, whichever period is shorter. For portions of projects permitted under the NPDES Construction General Permit (NCG 010000) that are within the HQW zone, stabilization with ground cover shall be achieved as soon as practicable but in any event within 7 calendar days from the last land-disturbing act.

History Note: Authority G.S. 113A-54(b); 113A-54(c)(1); Eff. May 1, 1990.

15A NCAC 04B .0125 BUFFER ZONE REQUIREMENTS

(a) Unless otherwise provided, the width of a buffer zone is measured from the edge of the water to the nearest edge of the disturbed area, with the 25 percent of the strip nearer the land-disturbing activity containing natural or artificial means of confining visible siltation.

(b) The 25-foot minimum width for an undisturbed buffer zone adjacent to designated trout waters shall be measured horizontally from the top of the bank.

(c) Where a temporary and minimal disturbance is permitted as an exception by G.S. 113A-57(1), land-disturbing activities in the buffer zone adjacent to designated trout waters shall be limited to a maximum of ten percent of the total length of the buffer zone within the tract to be distributed such that there is not more than 100 linear feet of disturbance in each 1000 linear feet of buffer zone. Larger areas may be disturbed with the written approval of the Director.

(d) No land-disturbing activity shall be undertaken within a buffer zone adjacent to designated trout waters that will cause adverse temperature fluctuations, as set forth in 15A NCAC 2B .0211 "Fresh Surface Water Classification and Standards", in these waters.
**History Note:** Authority G.S. 113A-54(b); 113A-54(c)(1); 113A-57(1); Eff. May 1, 1990; Amended Eff. February 1, 1992.

**15A NCAC 04B .0126 PLAN REVIEW FEE**

(a) The nonrefundable plan review processing fee, in the amount stated in Paragraph (e) of this Rule, shall be paid when an erosion and sedimentation control plan is filed in accordance with 15A NCAC 04B .0118.

(b) Each plan shall be deemed incomplete until the plan review processing fee is paid.

(c) The plan review processing fee shall be based on the number of acres, or any part of an acre, of disturbed land shown on the plan.

(d) No plan review processing fee shall be charged for review of a revised plan unless the revised plan contains an increase in the number of acres to be disturbed. If the revised plan contains an increase in the number of acres to be disturbed, the plan review processing fee to be charged shall be the amount stated in Paragraph (e) of the Rule specified in G.S. 113A-54.2 for each additional acre (or any part thereof) disturbed.

(e) The nonrefundable plan review processing fee shall be fifty dollars ($50.00) for each acre or part of any acre of disturbed land.

(f) Payment of the plan review processing fee may be by check or money order made payable to the "N.C. Department of Environmental Quality Environmental and Natural Resources" or by any other method approved by the Director. The payment shall refer to the erosion and sedimentation control plan.

**History Note:** Authority G.S. 113A-54; 113A-54.2; Filed as a Temporary Rule Eff. November 1, 1990, for a period of 180 days to expire on April 29, 1991; AARC Objection Lodged November 14, 1990; AARC Objection Removed December 20, 1990; Eff. January 1, 1991; Amended Eff. August 1, 2002; July 1, 2000.

**15A NCAC 04B .0127 PLAN APPROVAL CERTIFICATE**

(a) Approval of a sedimentation and erosion control plan will be contained in a document called "Certificate of Plan Approval" (Certificate) to be issued by the Commission.

(b) The Certificate, or similar, written documentation of approval, shall be provided to the applicant by hard copy or electronic submittal. The Certificate of plan approval documentation must be posted at the primary entrance of the job site or other, easily-observable location on the project before construction begins.

(c) No person may initiate a land-disturbing activity until notifying the agency that issued the Plan Approval plan approval of the date that the land-disturbing activity will begin.

**History Note:** Filed as a Temporary Rule Eff. November 1, 1990, for a period of 180 days to expire on April 29, 1991; Authority G.S. 113A-54(b); AARC Objection Lodged November 14, 1990; AARC Objection Removed December 20, 1990; Eff. January 1, 1991; Amended Eff. August 1, 2002; July 1, 2000.

**15A NCAC 04B .0128 RAILROAD COMPANIES**

**History Note:** Authority G.S. 113A-52(6); 113A-54(b); 113A-54(c); 113A-54(d)(4); 113A-57(1); Eff. August 1, 1995; Expired Eff. March 1, 2016 pursuant to G.S. 150B-21.3A.

**15A NCAC 04B .0129 EROSION CONTROL PLAN EXPIRATION DATE**
An erosion control plan shall expire three years following the date of approval, if no land-disturbing activity has been undertaken on a site, an erosion control plan shall expire three years following the date of approval.

History Note: Authority G.S. 113A-54.1(a); Eff. October 1, 1995.

15A NCAC 04B .0130 EMERGENCIES
Any person who conducts an emergency repair essential to protect human life, that constitutes a land-disturbing activity within the meaning of G.S. 113A-52(6) and these Rules:

(1) shall notify the Commission of such repair as soon as reasonably possible, but in no event later than five working days after the emergency ends; and

(2) shall take all reasonable measures to protect all public and private property from damage caused by such repair as soon as reasonably possible, but in no event later than 15 working days after the emergency repair ends.

History Note: Authority G.S. 113A-52.01(4); 113A-54(b); Eff. October 1, 1995.

15A NCAC 04B .0131 SELF-INSPECTIONS
Where inspections are required by G.S. 113A-54.1(c), the following apply:

(1) The person who performs the inspection shall make a record of the site inspection by documenting the following items:

(a) all of the erosion and sedimentation control measures, practices and devices, as called for in a construction sequence consistent with the approved erosion and sedimentation control plan, including but not limited to sedimentation control basins, sedimentation ponds, rock dams, temporary diversions, temporary slope drains, rock check dams, sediment fence or barriers, all forms of inlet protection, storm drainage facilities, energy dissipaters, and stabilization methods of open channels, have initially been installed and do not significantly deviate (as defined in Sub-item (1)(e) of this Rule) from the locations, dimensions and relative elevations shown on the approved erosion and sedimentation plan. Such documentation shall be accomplished by initialing and dating a copy of the approved erosion and sedimentation control plan or by completing, dating and signing an inspection report that lists each measure, practice or device shown on the approved erosion and sedimentation control plan. This documentation is required only upon the initial installation of the erosion and sedimentation control measures, practices and devices as set forth by the approved erosion and sedimentation control plan or if the measures, practices and devices are modified after initial installation;

(b) the completion of any phase of grading for all graded slopes and fills shown on the approved erosion and sedimentation control plan, specifically noting the location and condition of the graded slopes and fills. Such documentation shall be accomplished by initialing and dating a copy of the approved erosion and sedimentation control plan or by completing, dating and signing an inspection report;

(c) the location of temporary or permanent ground cover, and that the installation of the ground cover does not significantly deviate (as defined in Sub-item (1)(e) of this Rule) from the approved erosion and sedimentation control plan. Such documentation shall be accomplished by initialing and dating a copy of the approved erosion and sedimentation control plan or by completing, dating and signing an inspection report;

(d) that maintenance and repair requirements for all temporary and permanent erosion and sedimentation control measures, practices and devices have been performed. Such documentation shall be accomplished by completing, dating and signing an inspection report (the general storm water permit monitoring form may be used to verify the maintenance and repair requirements); and

(e) any significant deviations from the approved erosion and sedimentation control plan, corrective actions required to correct the deviation and completion of the corrective actions.

Black type: Existing rule language, Black type: Removed language, Underlined type: Replacement language
Such documentation shall be accomplished by initialing and dating a copy of the approved erosion and sedimentation control plan or by completing, dating and signing an inspection report. A significant deviation means an omission, alteration or relocation of an erosion or sedimentation control measure that prevents the measure from performing as intended.

(2) The documentation, whether on a copy of the approved erosion and sedimentation control plan or an inspection report, shall include the name, address, affiliation, telephone number, and signature of the person conducting the inspection and the date of the inspection. Any relevant licenses and certifications may also be included. Any documentation of inspections that occur on a copy of the approved erosion and sedimentation control plan shall occur on a single copy of the plan and that plan shall be made available on the site. Any inspection reports shall also be made available on the site.

(3) The inspection shall be performed during or after each of the following phases of a plan:
(a) installation of perimeter erosion and sediment control measures;
(b) clearing and grubbing of existing ground cover;
(c) completion of any phase of grading of slopes or fills that requires provision of temporary or permanent ground cover pursuant to G.S. 113A-57(2);
(d) completion of storm drainage facilities;
(e) completion of construction or development; and
(f) quarterly until the establishment of permanent ground cover sufficient to restrain erosion or until the financially responsible party has conveyed ownership or control of the tract of land for which the erosion and sedimentation control plan has been approved and the agency that approved the plan has been notified. If the financially responsible party has conveyed ownership or control of the tract of land for which the erosion and sedimentation control plan has been approved, the new owner or person in control shall conduct and document inspections quarterly until the establishment of permanent ground cover sufficient to restrain erosion.

History Note: Authority G.S. 113A-54; 113A-54.1(e); Eff. October 1, 2010.

15A NCAC 04B .0131 SELF-INSPECTIONS
All land-disturbing activities required to have an approved erosion and sedimentation control plan under G.S. 113A-54.1 shall conduct self-inspections for initial installation or modification of any controls described in an approved plan. In addition, periodic and rain-event self-inspections are required by the federal NCG 010000 Stormwater Discharge permit. Items (1) and (2) of this rule apply to the self-inspections required by G.S. 113A-54.1(e) while item (3) applies to self-inspections required by the NCG 010000 permit.

(1) For inspections required under G.S. 113A-54.1, the inspection shall be performed after the implementation of each of the following components of a project plan:
(a) installation of land-disturbance, perimeter erosion and sediment control measures;
(b) clearing and grubbing of existing ground cover;
(c) installation of temporary or permanent sediment and erosion control measures to include ground cover pursuant to G.S. 113A-57(2);
(d) completion of storm drainage facilities;
(e) completion of all land-disturbing activity, construction or development, including permanent ground cover establishment and removal of all temporary measures by the owner/developer or other financially responsible party;
(f) transfer of ownership or control of the tract of land for which the erosion and sedimentation control plan has been approved and work has begun. The new owner or person in control shall conduct and document inspections until the project is permanently stabilized as in Sub-item (1)(c) of this Rule.

(2) Documentation of inspections performed under item (1) shall include:
(a) Verification of all erosion and sedimentation control measures, practices and devices, as called for in the approved construction sequence and the erosion and sedimentation control plan.
(b) A record of the required information on a copy of the approved erosion and sedimentation control plan or by completing, dating and signing an inspection report that lists each measure, practice or device shown on the approved plan.

(c) A record of significant deviations from the approved erosion and sedimentation control plan, and a description of how those deviations will enhance the approved plan, or comply with the plan after appropriate corrective actions. A significant deviation means an omission, alteration, addition or relocation of an erosion or sedimentation control measure that is expected to meet or enhance the intended performance of the measure.

(d) The name, address, affiliation, telephone number, and signature of the person conducting the inspection and the date of the inspection shall be included, whether on a copy of the approved erosion and sedimentation control plan or an inspection report. Any relevant licenses and certifications may also be included. Any documentation of inspections that occur on a copy of the approved erosion and sedimentation control plan shall occur on a single copy of the plan and that plan shall be made available on the site. All inspection documentation shall be made available on the site for at least 30 calendar days and maintained until permanent ground cover has been established.

(3) When sites are also covered under the NPDES Construction General Permit (NCG 010000), that permit requires self-inspections on a minimum 7-day basis and after certain rain events along with different specifications for maintenance of those records.

History Note:  Authority G.S. 113A-54; 113A-54.1(e);

15A NCAC 04B .0132  DESIGN STANDARDS FOR THE UPPER NEUSE RIVER BASIN (FALLS LAKE WATERSHED)
In addition to any other requirements of State, federal, and local law, land-disturbing activity in the watershed of the drinking water supply reservoir that meets the applicability requirements of Session Law 2009-486, Section 3.(a), shall meet all of the following design standards for sedimentation and erosion control:

(1) Erosion and sedimentation control measures, structures, and devices shall be planned, designed, and constructed to provide protection from the runoff of the 25-year storm that produces the maximum peak rate of runoff as calculated according to procedures set out in the United States Department of Agriculture, Natural Resources Soil Conservation Service's "National Engineering Field Manual Handbook 630 for Conservation Practices" which is herein incorporated by reference including subsequent amendments and editions, and may be accessed at no cost at https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/water/manage/hydrology/?cid=stelprdb1043063 or according to procedures adopted by any other agency of the State or the United States.

(2) Sediment basins shall be planned, designed, and constructed so that the basin will have a settling efficiency of at least 70 percent for the 40-micron size soil particle transported into the basin by the runoff of the two-year storm that produces the maximum peak rate of runoff as calculated according to procedures in the United States Department of Agriculture, Natural Resources Soil Conservation Service's "National Engineering Field Manual Handbook 630 for Conservation Practices" which is herein incorporated by reference including subsequent amendments and editions, and may be accessed at no cost at https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/water/manage/hydrology/?cid=stelprdb1043063 or according to procedures adopted by any other agency of the State or the United States.

(3) Newly constructed open channels shall be planned, designed, and constructed with side slopes no steeper than two horizontal to one vertical if a vegetative cover is used for stabilization unless soil conditions permit steeper side slopes or where the side slopes are stabilized by using mechanical devices, structural devices, or other ditch liners sufficient to restrain accelerated erosion. The angle for side slopes shall be sufficient to restrain accelerated erosion.
For an area of land-disturbing activity where grading activities have been completed, temporary or permanent ground cover sufficient to restrain erosion shall be provided as soon as practicable, but in no case later than seven days after completion of grading. For an area of land-disturbing activity where grading activities have not been completed, temporary ground cover shall be provided as follows:

(a) For an area with no slope, temporary ground cover shall be provided for the area if it has not been disturbed for a period of 14 days.

(b) For an area of moderate slope, temporary ground cover shall be provided for the area if it has not been disturbed for a period of 10 days. For purposes of this Item, "moderate slope" means an inclined area, the inclination of which is less than or equal to three units of horizontal distance to one unit of vertical distance.

(c) For an area of steep slope, temporary ground cover shall be provided for the area if it has not been disturbed for a period of seven days. For purposes of this Item, "steep slope" means an inclined area, the inclination of which is greater than three units of horizontal distance to one unit of vertical distance.

History Note: Authority S.L. 2009-486; Eff. February 1, 2012.

SUBCHAPTER 4C - SEDIMENTATION CONTROL CIVIL PENALTIES

15A NCAC 04C .0101 PURPOSE AND SCOPE

History Note: Authority G.S. 113A-54(b); 113A-64(a);
Eff. February 1, 1976;
Amended Eff. November 1, 1984; October 5, 1980;

15A NCAC 04C .0102 DEFINITIONS

History Note: Authority G.S. 143B-10;
Eff. February 1, 1976;
Amended Eff. January 31, 1979; September 3, 1976;

15A NCAC 04C .0103 WHO MAY ASSESS

The director may assess civil penalties against any person responsible for a violation.

History Note: Authority G.S. 113A-55; 113A-64; 143B-10;
Eff. February 1, 1976;

15A NCAC 04C .0104 WHEN ASSESSABLE

History Note: Authority G.S. 113A-64;
Eff. February 1, 1976;
Amended Eff. November 1, 1984;

15A NCAC 04C .0105 AMOUNT OF ASSESSMENT

History Note: Authority G.S. 113A-64;
Eff. February 1, 1976;

15A NCAC 04C .0106 CRITERIA

In determining the amount of the civil penalty assessment, the director shall consider the following criteria:
(1) severity of the violation,
(2) degree and extent of the harm,
(3) type of violation,
(4) duration,
(5) cause,
(6) extent of any off-site damage which may have resulted,
(7) effectiveness of action taken by violator,
(8) adherence to plan submitted by violator,
(9) effectiveness of plan submitted by violator,
(10) cost of rectifying any damage,
(11) the violator's previous record in complying with rules of the Commission,
(12) estimated cost of installing and/or maintaining corrective sediment control measures, and
(13) staff investigative costs.

History Note: Authority G.S. 113A-54(b); 113A-55; 113A-64(a); Eff. February 1, 1976; Amended Eff. November 1, 1984; April 1, 1978.

15A NCAC 04C .0107 PROCEDURES: NOTICES
(a) The notice of violation shall describe the violation with reasonable particularity, request that all illegal activity cease, and inform the violator that a civil penalty may be assessed pursuant to G.S. 113A-64. If particular actions need to be taken to comply with the Sedimentation Pollution Control Act, the notice shall specify the actions to be taken, shall specify a time period for compliance, and shall state that upon failure to comply within the allotted time the person shall become subject to the assessment of a civil penalty for each day of the continuing violation beginning with the date of the violation.
(b) The stop work order provided in G.S. 113A-65.1 shall serve as the notice of violation for purposes of the assessment of a civil penalty pursuant to G.S. 113A-64(a)(1). Copies of the stop work order shall be served upon persons the Department has reason to believe may be responsible for the violation by any means authorized under G.S. 1A-1, Rule 4.

History Note: Filed as a Temporary Amendment Eff. January 14, 1992 for a period of 180 days to expire on July 11, 1992; Authority G.S. 113A-54; 113A-61.1; 113A-64; 113A-65.1; 143B-10; 113A-61.1 Eff. SUBCHAPTER 04E - RULEMAKING PROCEDURES

SECTION .0100 - GENERAL PROVISIONS

15A NCAC 04E .0101  GENERAL PURPOSE
Rules at 15A NCAC 1B .0100 are adopted by reference and with the rules of this Subchapter shall govern rule-making hearings conducted under the purview of the commission.

Based on legal counsel guidance, the Workgroup recommended repeal of this rule

History Note: Authority G.S. 113A-54; 113A-55; 150B;
Eff. March 14, 1980;
Amended Eff. November 1, 1984;
Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04E .0102  DEFINITIONS
As used in this Subchapter:

(1) "Commission" means the North Carolina Sedimentation Control Commission.

(2) "Director" means the Director of the Division of Energy, Mineral, and Land Resources of the Department of Environment, Health, and Natural Resources.

Note: The definition of "Director" is included in 04A .0105(26) and not needed here. Recommend moving the definition of "Commission" to 2B .0105."

History Note: Authority G.S. 113A-54; 113A-55;
Eff. March 14, 1980;
Amended Eff. August 1, 2012 (see S.L. 2012-143, s.1.(f)); May 1, 1990;
Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04E .0103  ADDRESS
History Note: Authority G.S. 113A-54;
Eff. March 14, 1980;

15A NCAC 04E .0104  COPIES OF RULES: INSPECTION
(a) Anyone desiring to obtain a copy of any or all of the rules of the commission may do so by requesting such from the director at the address of the commission as set forth at Rule .0101 of Subchapter A of this Chapter. The request must specify the rules requested, for example, 15A NCAC 04, Sedimentation Control, or 15A NCAC 04E, Rulemaking Procedures. The director may charge reasonable fees to recover mailing and duplication costs for requests of more than one copy of the same rule(s).

(b) The rules of the commission (15A NCAC 4) and other documents specified in G.S. 150B-11 are available for public inspection at the Office of the Director (P.O. Box 27687, 512 N. Salisbury Street, Raleigh, N.C. 27611) during regular office hours.

History Note: Authority G.S. 113A-54; 113A-55; 150B-11; (Note: Statute repealed 1991. Remove reference.)
Eff. March 14, 1980;
Amended Eff. August 1, 1988; November 1, 1984;
Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04E .0105  DELEGATIONS OF AUTHORITY TO THE DIRECTOR

SECTION .0200 - PETITIONS FOR RULEMAKING

15A NCAC 04E .0201  PETITION FOR RULEMAKING HEARINGS
Any person wishing to submit a petition requesting the adoption, amendment, or repeal of a rule by the commission shall forward the petition to the director at the address of the commission in Rule .004 .0101 of Subchapter A of this Chapter. The first page of the petition should clearly bear the notation: RULEMAKING PETITION RE and then the subject area (for example, RE PLAN REQUIREMENTS, RE PENALTIES, RE INSPECTIONS) or an indication of any other area over which the commission may have rulemaking authority.

Eff. March 14, 1980;

15A NCAC 04E .0203  DISPOSITION OF PETITIONS

Based on legal counsel guidance, the Workgroup recommended repeal of this rule.

(a) The director will determine whether the petition contains sufficient information for the commission to determine whether the public interest will be served by granting the request. The director may request additional information from the petitioner(s), he may contact interested persons or persons likely to be affected by the proposed rule and request comments, and he may use any other appropriate method for obtaining additional information.

(b) The commission will render a decision within 30 days after the petition is submitted. If the decision is to grant the petition, the director, within 30 days of submission, will initiate a rulemaking proceeding. If the decision is to deny the petition, the director will notify the petitioner(s) in writing, stating the reasons therefor.

(c) If the commission is not scheduled to meet within 30 days of submission of a petition the director may either:

1. accept the petition and initiate a rulemaking proceeding; or
2. Ask the chairman of the commission to call a special meeting of the commission so that a decision can be made by the commission within the 30 day time period required by 150B-16 and in accordance with the procedures set out in (b) of this Rule.

---

**15A NCAC 04E .0403 WRITTEN SUBMISSIONS**

Based on legal counsel guidance, the Workgroup recommended repeal of this rule.

(a) Any person may file a written submission containing data, comments, or arguments after distribution or publication of a rulemaking notice until the day of the hearing, unless a longer period has been prescribed in the notice or granted upon request. These written comments should be sent to the director at the address of the commission.

(b) The first page of any written submission shall clearly identify the rulemaking proceeding or proposed rule to which the comments are addressed and include a statement of the position of the person making the submission (for example, "In support of adopting proposed Rule .0000," "In opposition to adopting proposed Rule .0000").

(c) Upon receipt of written comments, acknowledgment will be made with an assurance that the comments therein will be considered fully by the commission.

**15A NCAC 04E .0405 STATEMENT OF REASONS FOR DECISION**

Based on legal counsel guidance, the Workgroup recommended repeal of this rule.

(a) Any interested person desiring a concise statement of the principal reasons for and against the adoption of a rule by the commission and the factors that led to overruling the considerations urged for or against its adoption may submit a request to the director of the address of the commission.

(b) The request must be made in writing and submitted prior to adoption of the rule or within 30 days thereafter.

**History Note:** Authority G.S. 113A-54; 150B-12(e); Eff. March 14, 1980; Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

---

**15A NCAC 04E .0406 RECORD OF PROCEEDINGS**

Based on legal counsel guidance, the Workgroup recommended repeal of this rule.
A record of all rulemaking proceedings will be maintained by the director for as long as the rule is in effect, and for five years thereafter, following filing with the Office of Administrative Hearings. Record of rulemaking proceedings will be available for public inspection during the hours of 8:30 AM to 5:30 PM on workdays.

(Note: These details are either included in the Statutes or not required.)

SECTION .0500 - DECLARATORY RULINGS

15A NCAC 04E .0501 SUBJECTS OF DECLARATORY RULINGS
Any person aggrieved by a statute administered or rule promulgated by the commission may request a declaratory ruling as to either the manner in which a statute or rule applies to a given factual situation, if at all, or whether a particular agency rule is valid. For purposes of this Section, an aggrieved person means a person substantially affected by a statute administered by the commission or a rule promulgated by the commission.

History Note: Authority G.S. 113A-54; 150B-17;
Eff. March 14, 1980;
Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04E .0502 SUBMISSION OF REQUEST FOR RULING
All requests for declaratory rulings shall be written and mailed to the director at the address of the commission. The first page of the request for a declaratory ruling should bear the notation: REQUEST FOR DECLARATORY RULING. The request must include the following information:

(1) name and address of petitioner;
(2) statute or rule to which petition relates;
(3) concise statement of the manner in which petitioner is aggrieved by the rule or statute or its potential application to him;
(4) a statement of whether an oral hearing is desired and, if so, the reason therefor.

History Note: Authority G.S. 113A-54; 150B-17;
Eff. March 14, 1980;
Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04E .0503 DISPOSITION OF REQUESTS
(a) Upon receiving a request, the director is authorized to initiate a declaratory ruling proceeding to receive information concerning the request. A declaratory ruling proceeding may consist of written submissions, an oral hearing, or other procedures as may be appropriate in the circumstances of the particular request. If the proceeding takes the form of an oral hearing the director may direct that the proceeding take place before the commission.
(b) The director will compile the information collected in the proceeding, along with other relevant information, in a recommendation to the commission on whether to issue the ruling and what the ruling should be.
(c) A decision whether to issue the ruling will be made by the commission at the next regularly scheduled meeting of the commission within the 60 day period required by 150B-17 and after the director's recommendation is presented. If no meeting is scheduled within that time period, the director will ask the chairman of the commission to call a special meeting so that the commission can comply with the requirements of G.S. 150B-17.
(d) If the decision of the commission is to issue the ruling, the ruling will be issued by the commission with the 60 day period required by G.S. 150B-17. If necessary, the chairman of the commission will call a special meeting so that the commission can comply with this requirement.
(e) If the decision of the commission is to deny the request, the director will notify the petitioner(s) in writing stating the reasons therefor.

(f) For purposes of this Rule, the commission will ordinarily refuse to issue a declaratory ruling:

1. unless the rule is unclear on its face;
2. unless the petitioner shows that the circumstances are so changed since the adoption of the rule that such a ruling would be warranted;
3. unless the petitioner shows that the agency did not give to the factors specified in the request for a declaratory ruling a full consideration at the time the rule was issued;
4. where there has been a similar controlling factual determination in a contested case or where the factual context being raised for a declaratory ruling was specifically considered upon the adoption of the rule or directive being questioned, as evidenced by the rulemaking record;
5. where the subject matter of the request is involved in pending litigation in any state or federal court in North Carolina.

15A NCAC 04E .0503 DISPOSITION OF REQUESTS FOR DECLARATORY RULING

(a) Requests for declaratory ruling by the Commission shall be submitted in writing to the Chair of the Commission at the Division of Energy, Mineral and Land Resources, 1612 Mail Service Center, Raleigh, NC 27699-1612, with a copy to the Director by first class mail, postage prepaid with a copy sent via email to the Clerk of the Commission at sedimentation.commission.clerk@ncdemlr.gov.

(b) The Director shall post the request to the DEQ website. The post shall specify that parties may intervene by submitting to the Director within 15 days after the posting of the request, a petition in writing, setting forth a justification for intervention.

(c) Upon expiration of the 15-day period for petitions to intervene, the Commission Chair shall promptly grant or deny any timely-submitted petitions.

(d) Petitions to intervene shall not be granted unless the requestor provides in the petition, facts that show that the intervenor would be a person aggrieved, as that term is defined in G.S. 150B-2;

(e) A decision by the Commission to grant or deny a request for a declaratory ruling shall be made by the Commission Chair within 30 days of receipt of the request.

(f) If the decision of the Commission Chair is to grant the request for a declaratory ruling, the ruling shall be issued by the Commission within the 45-day period required by G.S. 150B-4 unless the Commission decides to deny the request or to take no action, which also results in a denial. The Chair of the Commission may call a special meeting in order for the Commission to comply with the 45-day requirement.

(g) The Commission shall notify the requestor(s) of actions taken on the declaratory ruling request in writing.

(h) For purposes of this Rule, the Commission Chair shall deny a request to issue a declaratory ruling, if any of the following is found:

1. the rule upon which the request seeks a ruling is clear and unambiguous on its face;
2. a declaratory ruling has previously been issued determining the validity of, or interpreting the applicability of facts to, the same rule upon which a declaratory ruling is sought, unless the petitioner shows that the circumstances applicable to the request are so changed since the issuance of the prior declaratory ruling, or the facts are so clearly distinguishable from the facts presented in the prior declaratory ruling, that such a ruling would be warranted;
3. during the rulemaking process, or in deliberation of a prior request for declaratory ruling, full consideration was given to the factors or issues raised in a request seeking to have the validity of a rule determined, as evidenced by the record of the rulemaking or declaratory ruling process;
4. a similar controlling factual determination was made in a contested case in the Office of Administrative Hearings;
5. the factual context being raised for a declaratory ruling was specifically considered upon the adoption of the rule or directive being questioned, as evidenced by the rulemaking record;
6. there is litigation pending in any state or federal court in North Carolina in which the interpretation of the rule or statute pertinent to the request is at issue in the litigation; or
(7) Evidence provided in the request did not demonstrate that the requestor is a person aggrieved.

History Note: Authority G.S. 113A-54; 113A-55; 150B-17; Eff. March 14, 1980; Amended Eff. August 1, 1988; June 5, 1981; Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.

15A NCAC 04E .0504 RECORD OF DECISION
A record of all declaratory rulemaking proceedings rulings will be maintained in the director's office for as long as the ruling is in effect and for five years thereafter. This record will contain: the petition, the notice, all written submissions filed in the request, whether filed by the petitioner or any other person, and a record or summary of oral presentations, if any. Records of declaratory rulemaking proceedings will be available for public inspection during the regular office hours of the director Director.

History Note: Authority G.S. 113A-54; 150B-11; Eff. March 14, 1980; Pursuant to G.S. 150B-21.3A, rule is necessary without substantive public interest Eff. February 2, 2016.
