Backyard Composting Grant

FINAL REPORT GUIDELINES

NC Department of Environmental Quality
Division of Environmental Assistance and Customer Service

Requirement
As a condition set forth in the Backyard Composting Grant Request for Proposals, any North Carolina municipality, county, council of governments, or solid waste authority that receives a reimbursement grant shall submit a Final Report to the N.C. Department of Environmental Quality (NC DEQ) prior to the end of the grant contract.

Procedures
Grantees should review these Final Report Guidelines several months before the grant period end date to determine the data and information that will be required to complete the Final Report. Grantees should plan to prepare and submit a draft Final Report to their Division of Environmental Assistance and Customer Service (DEACS) grant administrator roughly one month prior to the end of the grant contract. The DEACS grant administrator will review the draft report, note necessary changes or additions, and return it to the grantee for modification and finalization.

An approved Final Report must be received before the end of your grant contract term. Expenditures made after the end of the contract term will not be reimbursed.

Final Report Format
The following information outlines the required components of the Final Report. Follow the format described below when preparing your Final Report.

1. Grant Information and Local Contact
   - Name of Grantee, Grant Cycle, and Grant Contract Number (please follow example below)
     
     Alexander County, Backyard Composting Grant, Contract # CW25274
   - Contract Term: Beginning and end dates of grant contract;
   - Contact Information, including contact name, title, address, phone number and email address.

2. Description of Project as Implemented
   Provide a brief summary of the grant project and the associated accomplishments. Describe the implementation process and highlight items that were purchased with grant funds along with the key dates from the project implementation.

3. Assessment of Adherence to Scope of Work
   Explain whether the project was implemented as originally contemplated in your grant proposal. Highlight any differences between the scope of work in your proposal and the actual implementation. If the project was amended, extended, or changed in any way please describe those changes and the reason(s) that the changes were necessary.

4. Evaluation of Project Success
   Describe / explain whether the grant project met its goals. Did the grant project promote and develop food waste reduction through backyard composting? Consider and describe the factors that impacted the project positively or negatively and please offer thoughts or recommendations for communities contemplating similar projects.
5. **Description of Unanticipated Events**
   Describe whether any unanticipated events were encountered while implementing / conducting the grant project and describe the impact that those events had on the project. Please be sure to consider and describe any unanticipated factors that had a **negative or positive** impact on the project.

6. **Description of Lessons Learned and Planned Improvements or Changes**
   Reflect on the lessons learned during the implementation of this project and describe what would be done differently if the project was to be repeated. This information is particularly important for other communities considering the implementation of similar projects. Also, please describe any planned improvements, changes, or expansions you are considering to the project going forward and how those changes will impact the project. If no changes or improvements are planned, please so indicate.

7. **Description of Participation and Impact**
   Describe how the grant project impacts your community. List the number of households or citizens that have access to or are impacted by the grant project, and if possible estimate the number of households that are participating in or utilizing the service or program created with state grant funding.

8. **Description of Waste Reduction Impact**
   Please provide information on the amount of material that has been diverted as a result of the grant project. List actual weights of materials diverted/recovered if possible (specify pounds or tons). Please be specific about the amount of diversion that can properly be attributed to the grant project. If the project was an enhancement to an existing program or service, is it possible to measure or to estimate the impact of the grant investment on the amount of material diverted? In addition to providing actual program data, please project how many tons of permanent annual diversion of materials from disposal will take place as a result of the grant project.

9. **Description of Cost Savings**
   Please describe any cost savings or efficiency gains realized as a result of the grant project. If direct financial savings can be quantified, please provide a projection of the annual savings expected. If the project resulted in more efficient operations for public staff and equipment, a projection of the annual savings in staff hours may be used as a surrogate for dollar savings.

10. **Longevity of Project Impact / Life of Investment**
    Briefly describe how long you anticipate the impact of the grant project will last. What is the anticipated service life of the items purchased?

11. **Description of Materials Developed and Pictures of Final Project**
    Please list or describe any materials developed as a result of the project (e.g., brochures, fact sheets, promotional materials, or other documents). Please attach copies of the materials and copies of any press or publicity articles related to the grant project.

    If the grant project involved the purchase of equipment and/or the creation of a sign or other items please provide digital photographs of the equipment or the final product. Photographs can be embedded into the final report document or submitted as separate attachments along with the final report document.

12. **Final Fiscal Report**
    This section of the Final Report should consist of two tables. Please follow the sample tables provided when preparing Final Fiscal Report.
Table 1 – Project Funds by Source – this table should summarize the sources of funds for the project.

<table>
<thead>
<tr>
<th>Project Funds by Source</th>
<th>Dollar Amount Contributed</th>
</tr>
</thead>
<tbody>
<tr>
<td>State Grant Funds</td>
<td></td>
</tr>
<tr>
<td>Grantee Funds</td>
<td></td>
</tr>
<tr>
<td>Other Funds (if applicable)</td>
<td></td>
</tr>
<tr>
<td><strong>Total Project Funds</strong></td>
<td></td>
</tr>
</tbody>
</table>

Table 2 – Project Expenditures – this table should provide an itemized list of project expenditures. The Total Project Expenditure row should include the dollar amounts assigned to state funds, grantee matching funds, and other funds (if applicable). The amount shown as “Total Project Funds” in Table 1 and “Total Project Expenditures” in Table 2 should match exactly.

<table>
<thead>
<tr>
<th>Project Expenditures</th>
<th>State Grant Funds</th>
<th>Grantee Funds</th>
<th>Other Funds</th>
<th>Total Expenditure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Item Description and Quantity</td>
<td></td>
<td></td>
<td></td>
<td>$</td>
</tr>
<tr>
<td>Item Description and Quantity</td>
<td></td>
<td></td>
<td></td>
<td>$</td>
</tr>
<tr>
<td><strong>Total Project Expenditures</strong></td>
<td></td>
<td></td>
<td></td>
<td>$</td>
</tr>
</tbody>
</table>

**NOTE:** Any expenses incurred before a contract is signed by both DEQ and the grant recipient may not be considered as Grantee Matching Funds and are not reimbursable.

**How to Submit Final Reports**

Please submit all documents related to your Final Report electronically via email to your grant administrator. If you are not able to submit electronic documents, please ask your grant administrator for information on how to submit hard copies.
