Dear Ms. Thomas,

I support Hallie Turner, Emily Liu, and Arya Pontula's petition asking the Environmental Management Commission to issue a rule reducing North Carolina's in-state emissions of carbon dioxide to zero by 2050.

By issuing this rule, the Environmental Management Commission can cement North Carolina's place as a leader in the clean energy economy. It can protect North Carolina's people, economy, and environment from the major risks associated with climate change. Delay is not an option.

I ask the Commission to take the necessary action to protect our future and eliminate in-state CO2 emissions by 2050.

Dear Ms. Thomas,

I support Hallie Turner, Emily Liu, and Arya Pontula's petition asking the Environmental Management Commission to issue a rule reducing North Carolina's in-state emissions of carbon dioxide to zero by 2050.

By issuing this rule, the Environmental Management Commission can cement North Carolina's place as a leader in the clean energy economy. It can protect North Carolina's people, economy, and environment from the major risks associated with climate change. Delay is not an option.

I ask the Commission to take the necessary action to protect our future and eliminate in-state CO2 emissions by 2050.

Dear Ms. Thomas,

I support Hallie Turner, Emily Liu, and Arya Pontula's petition asking the Environmental Management Commission to issue a rule reducing North Carolina's in-state emissions of carbon dioxide to zero by 2050.

By issuing this rule, the Environmental Management Commission can actualize North Carolina's place as a leader in our nation's clean energy economy. This will help protect North Carolina's people, economy, and environment from the major risks associated with climate change. In our present dire circumstances, delay of action is not an acceptable option.

I ask the Commission to promptly - and with a seriousness of purpose appropriate to the urgency of the climate crisis - attend to this essential necessity.
