

NC DAQ Background PFAS Rainwater Network

- Network of seven background sites generally oriented near our regional offices
 - Raleigh – start 4/24/18
 - Fayetteville (Candor) – start 10/24/18
 - Asheville – start 11/20/18
 - Wilmington – start 1/8/19
 - Washington – start 2/12/19
 - Mooresville – start 3/12/19
 - Winston Salem – start – 3/26/18

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

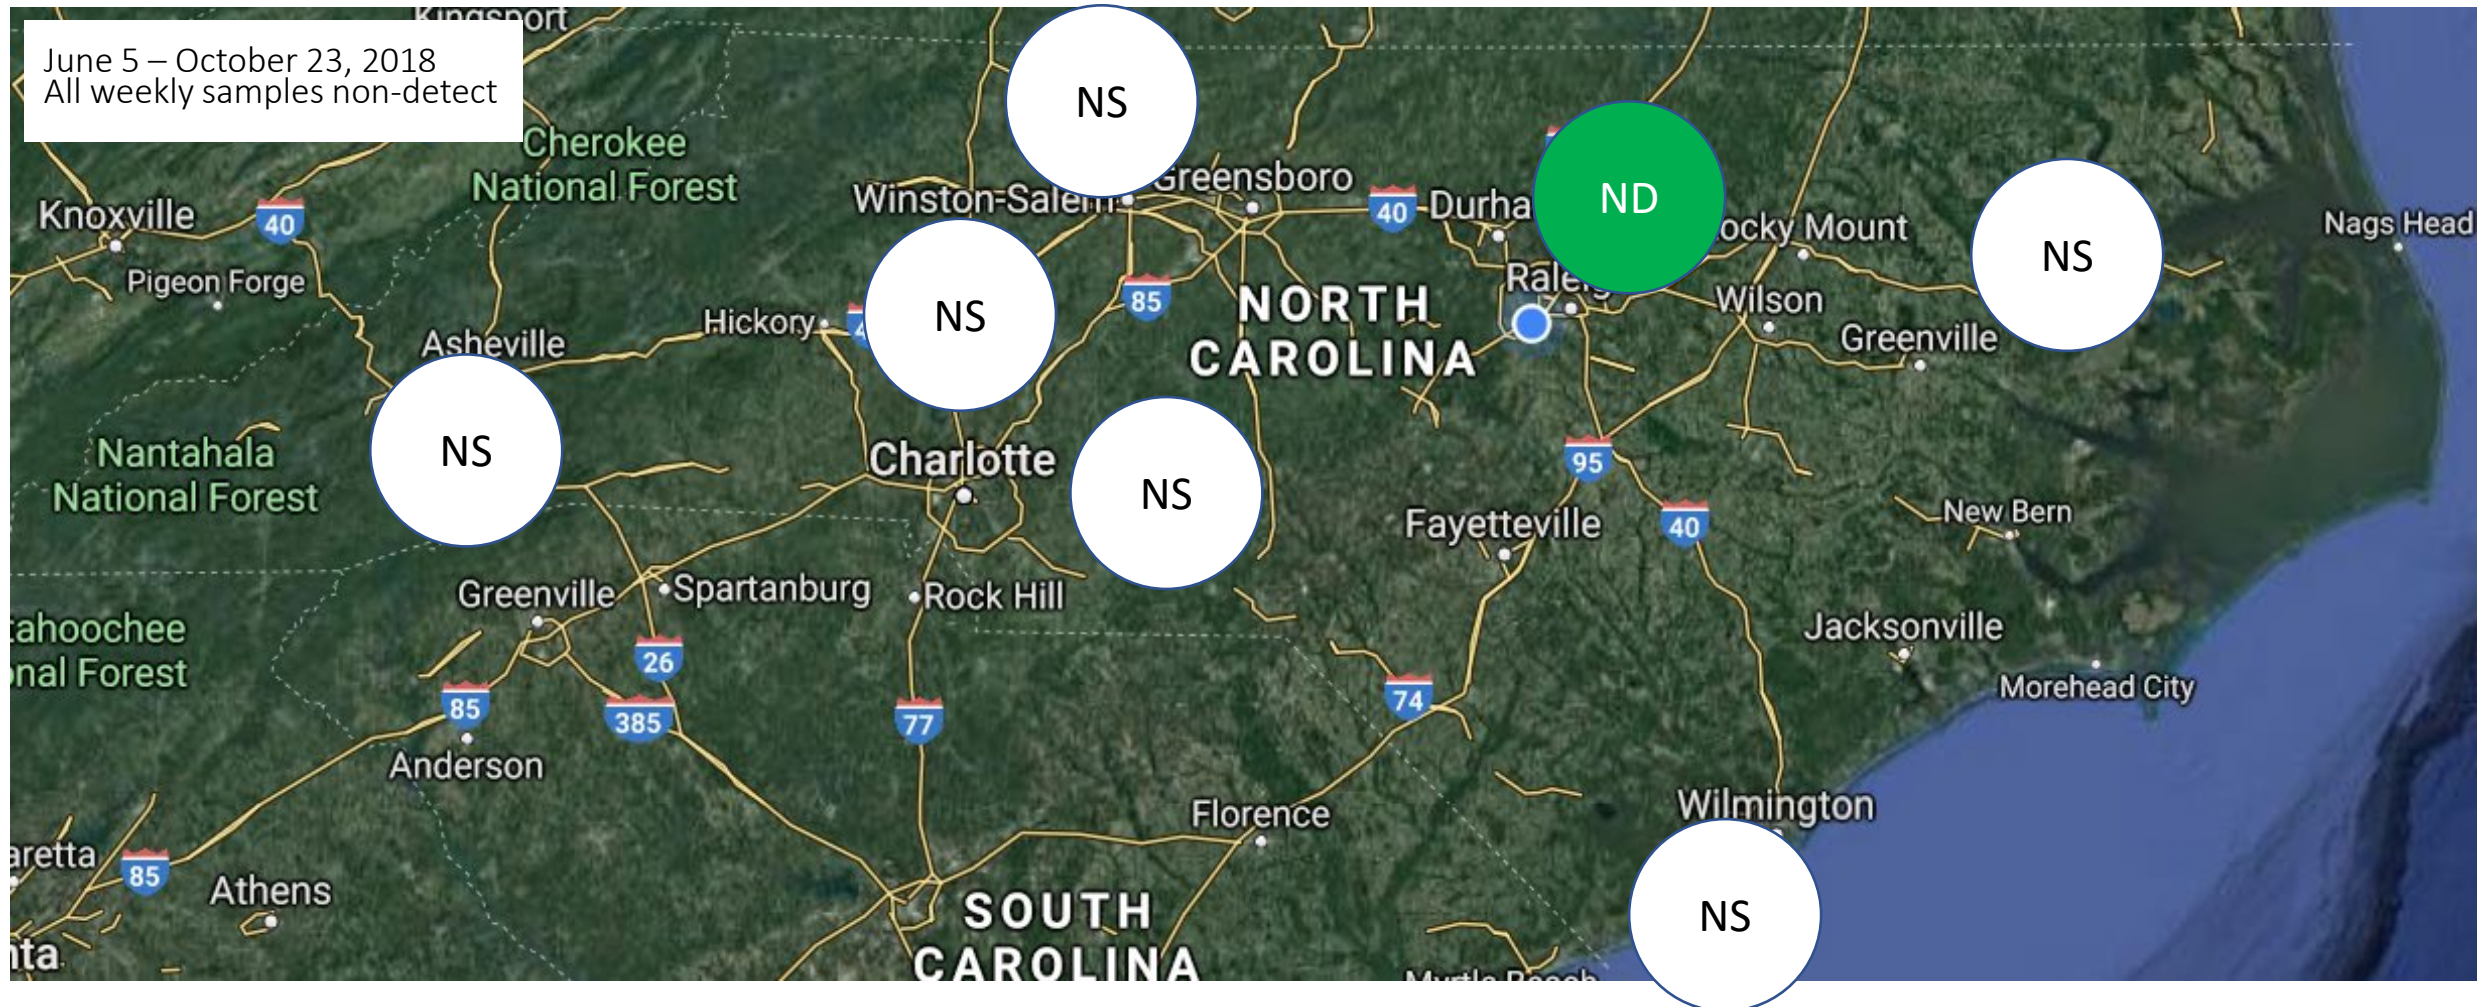

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

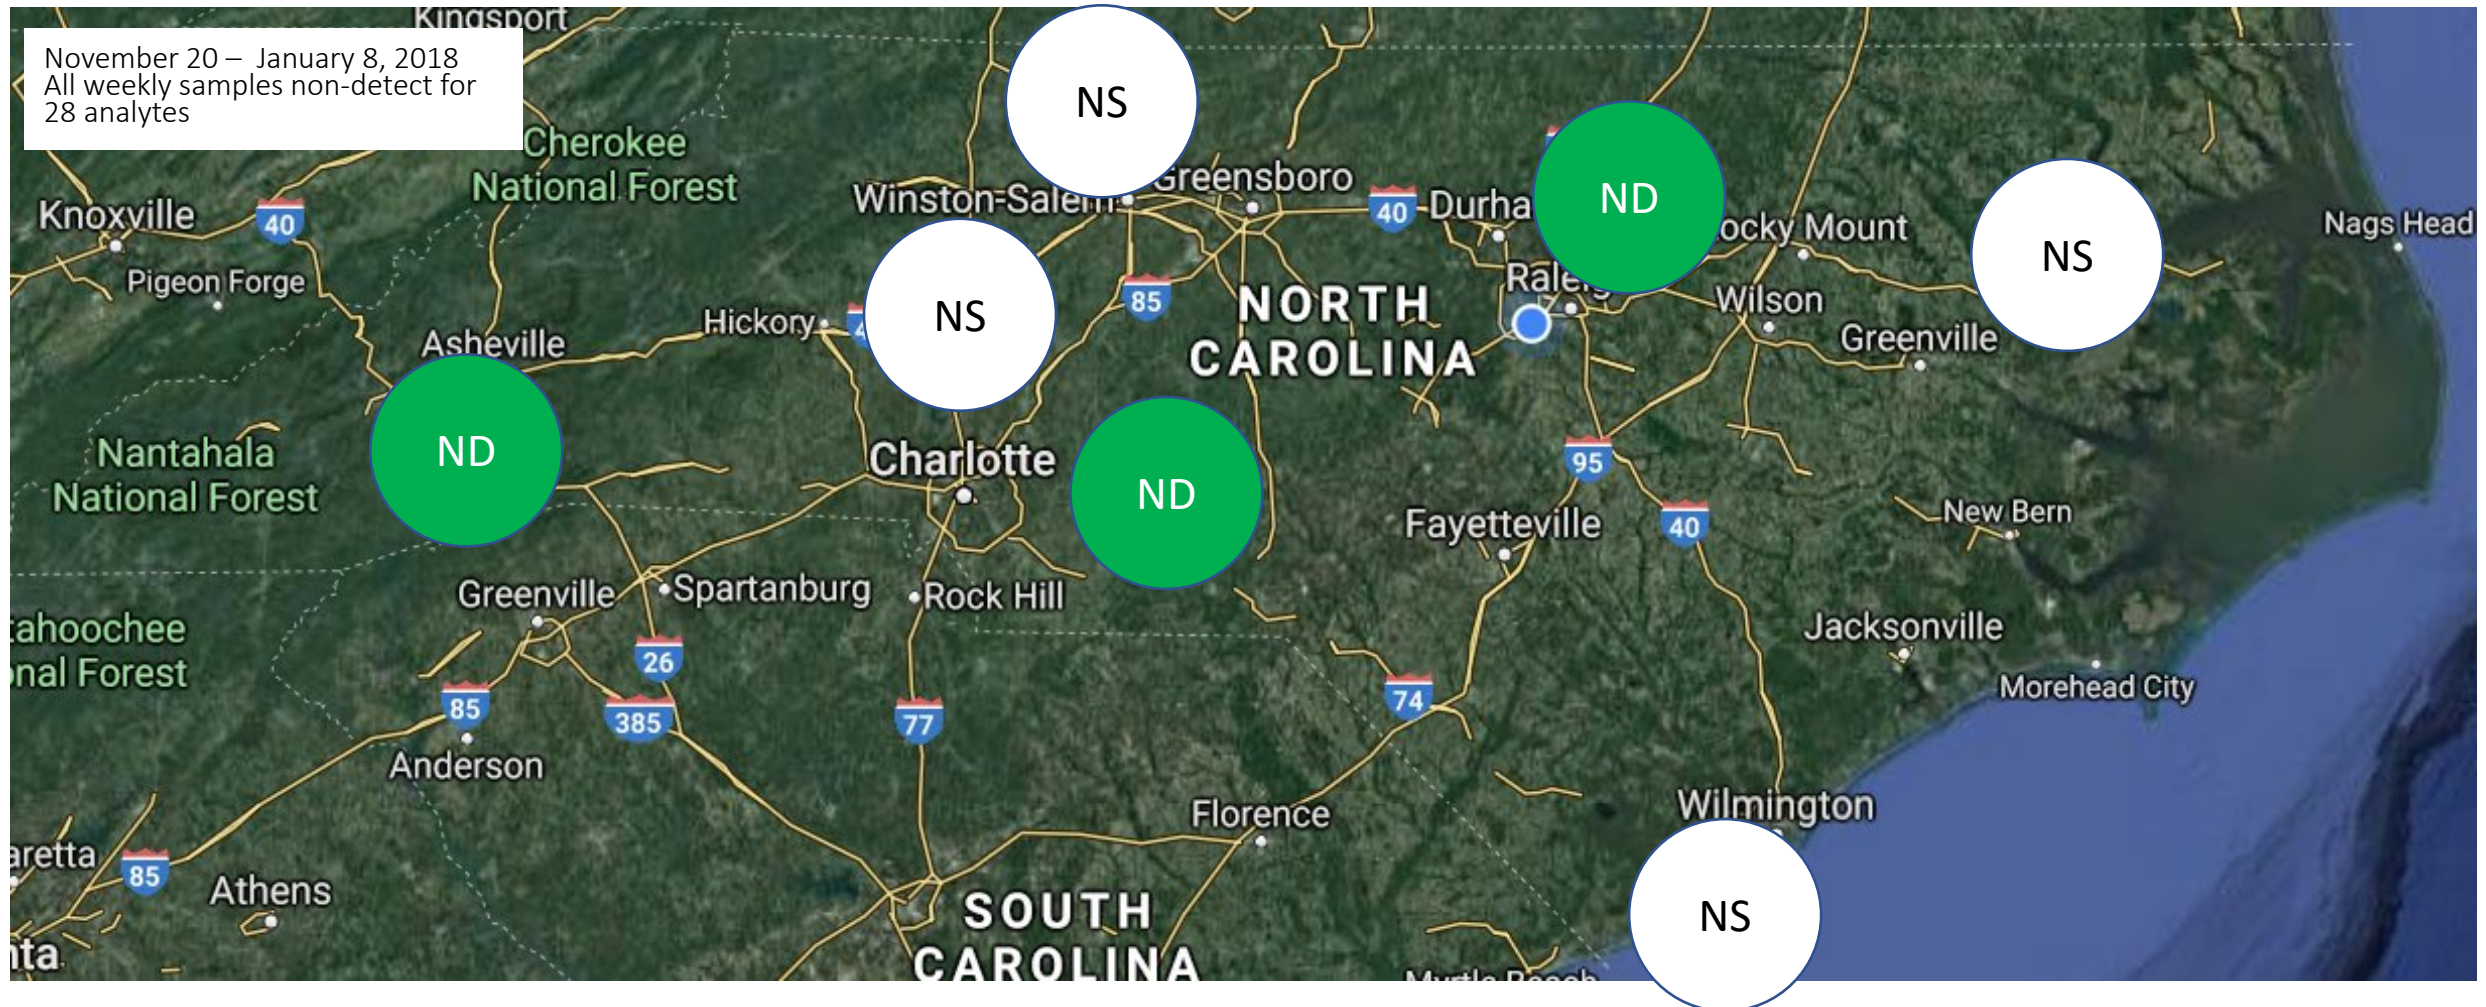

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

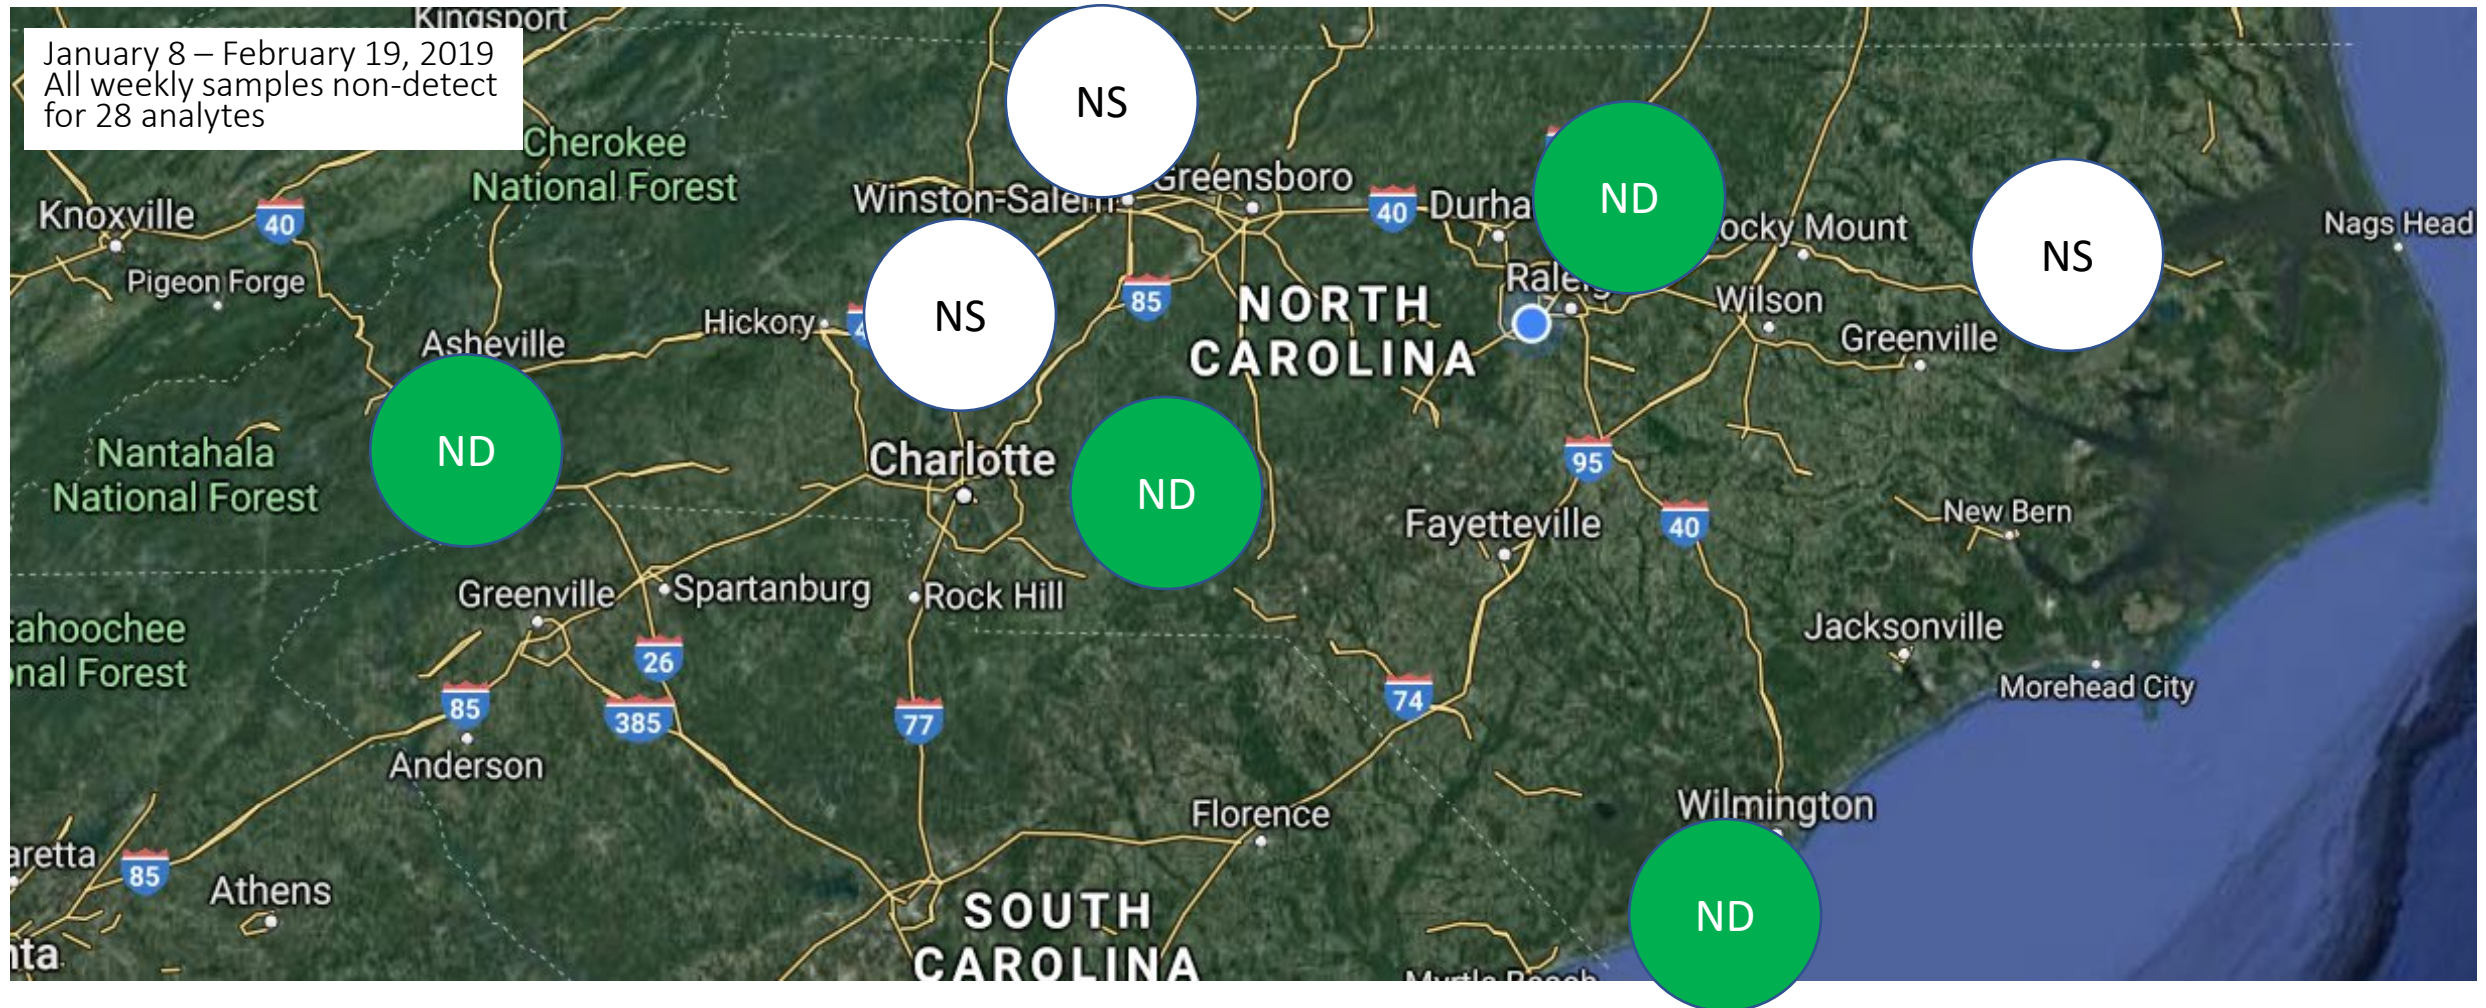

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

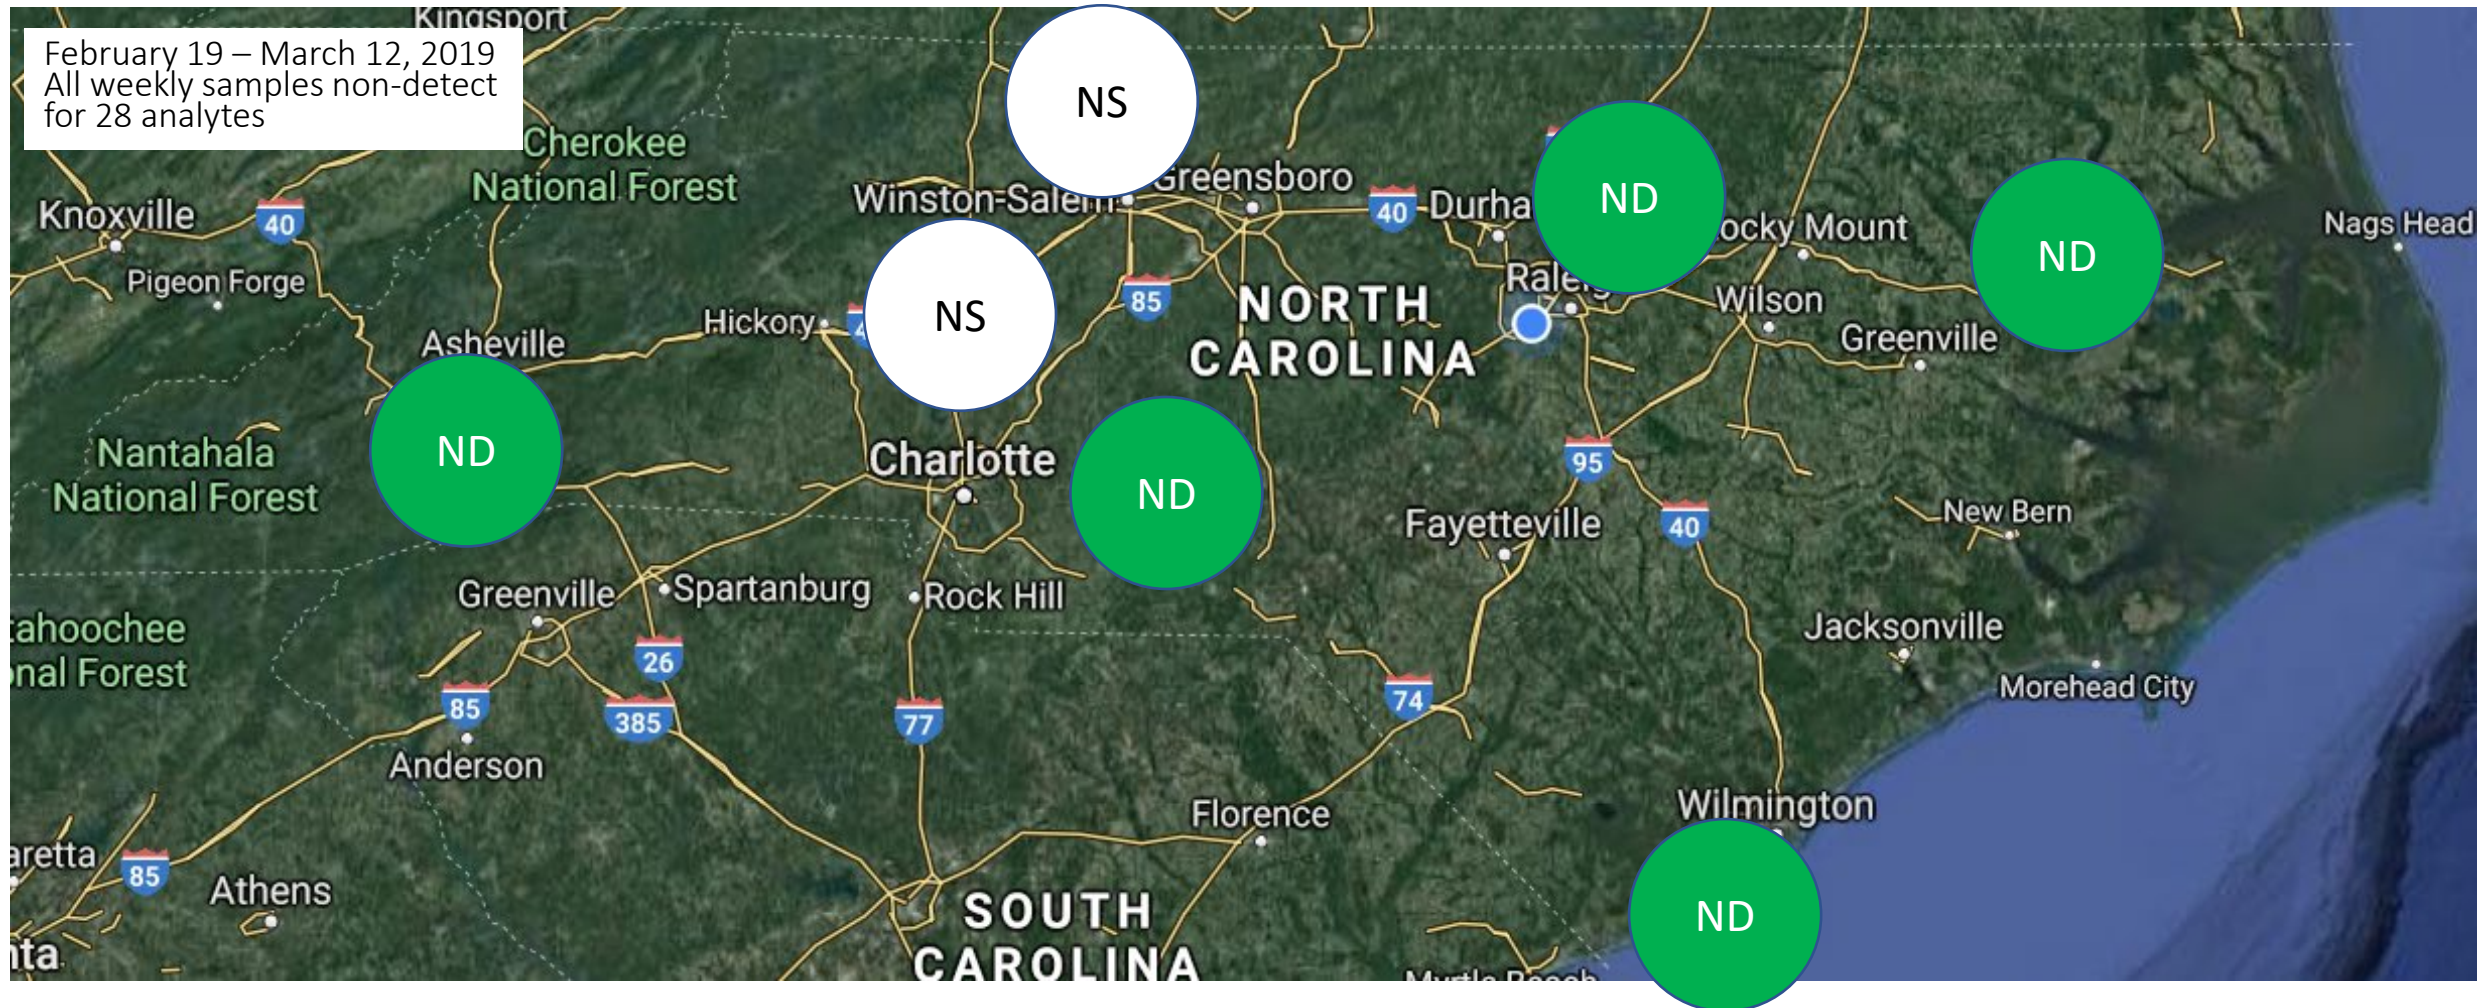

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

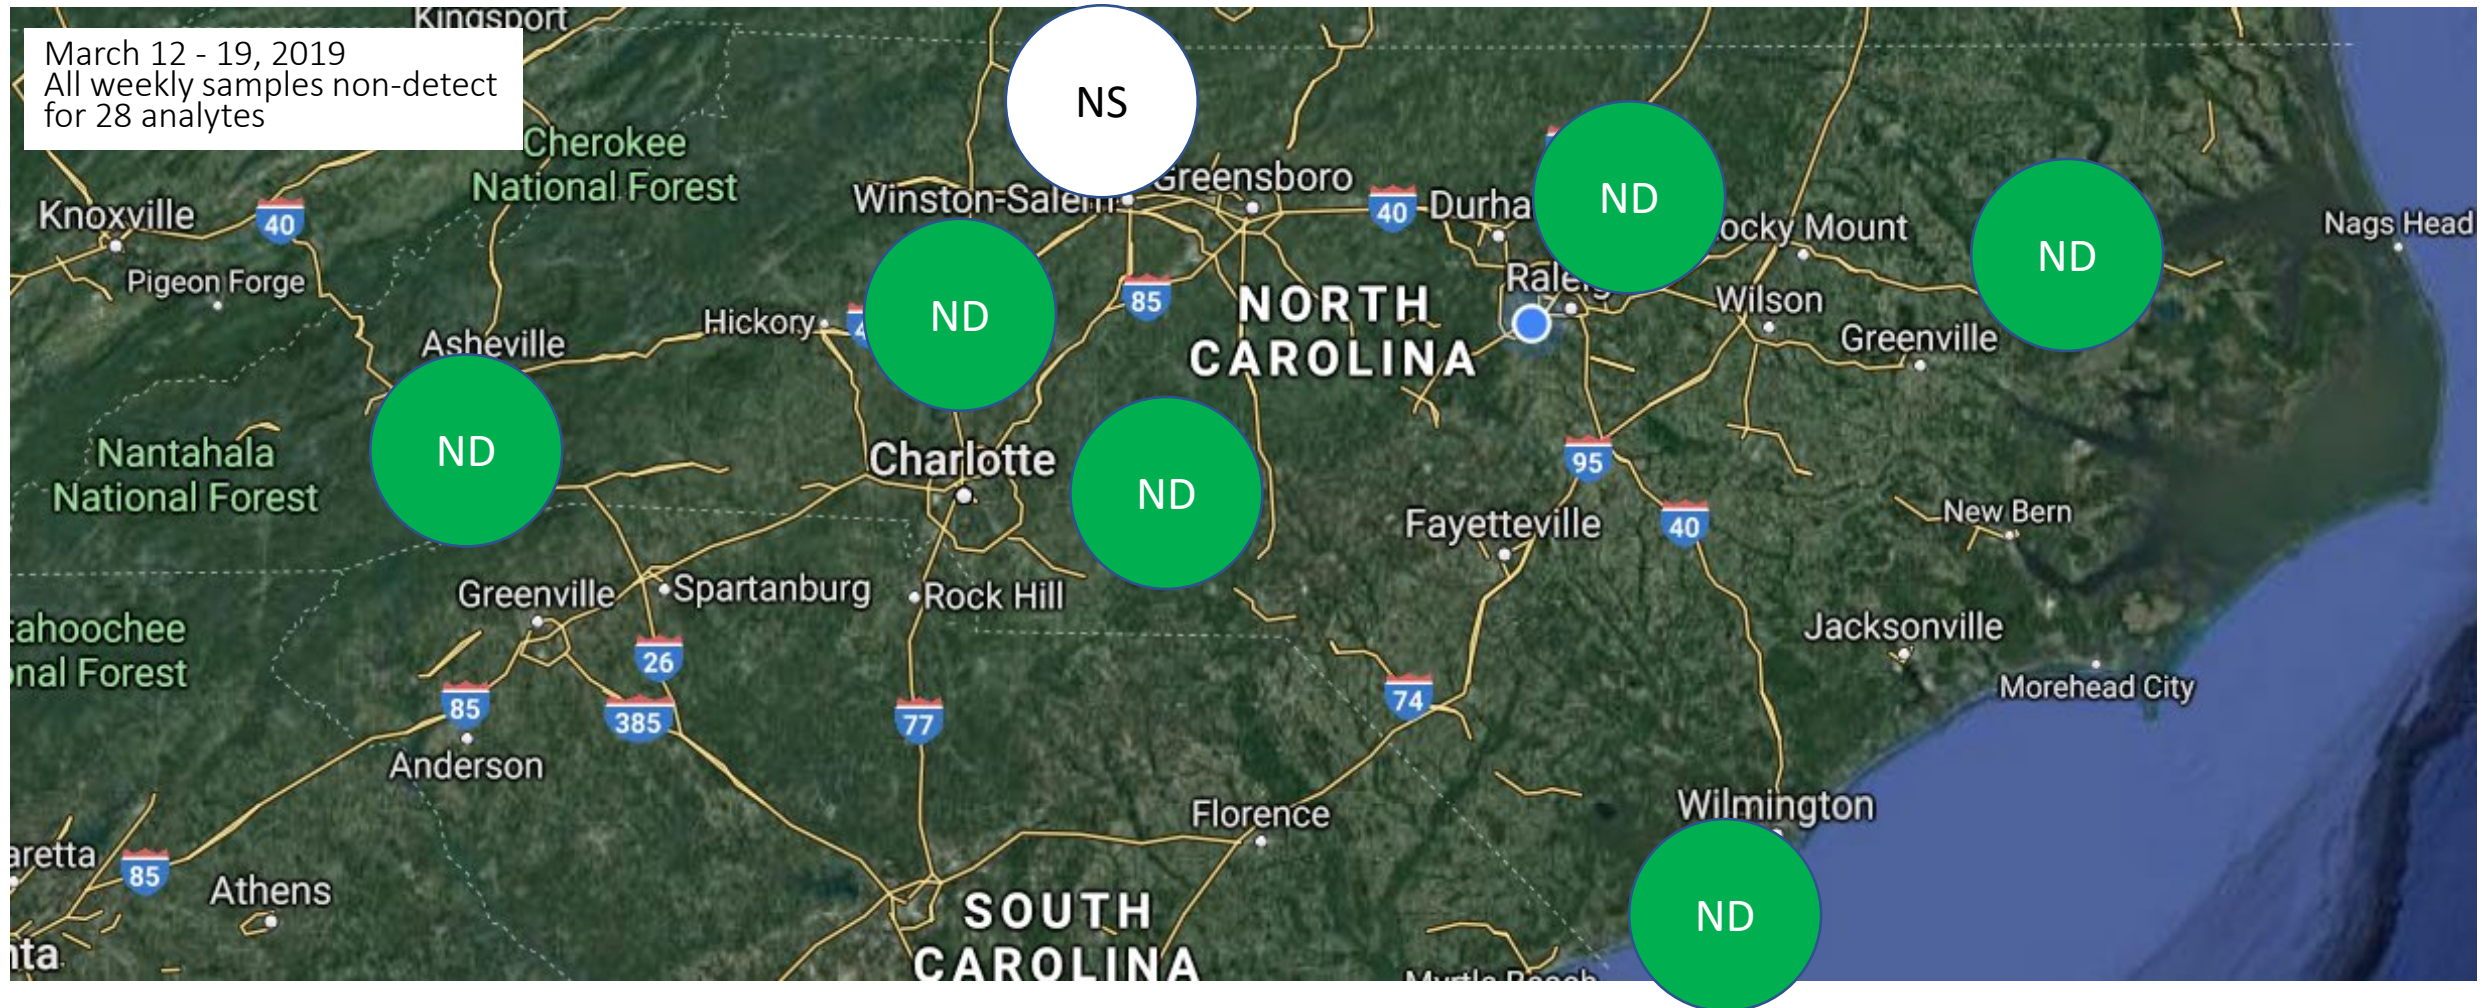

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

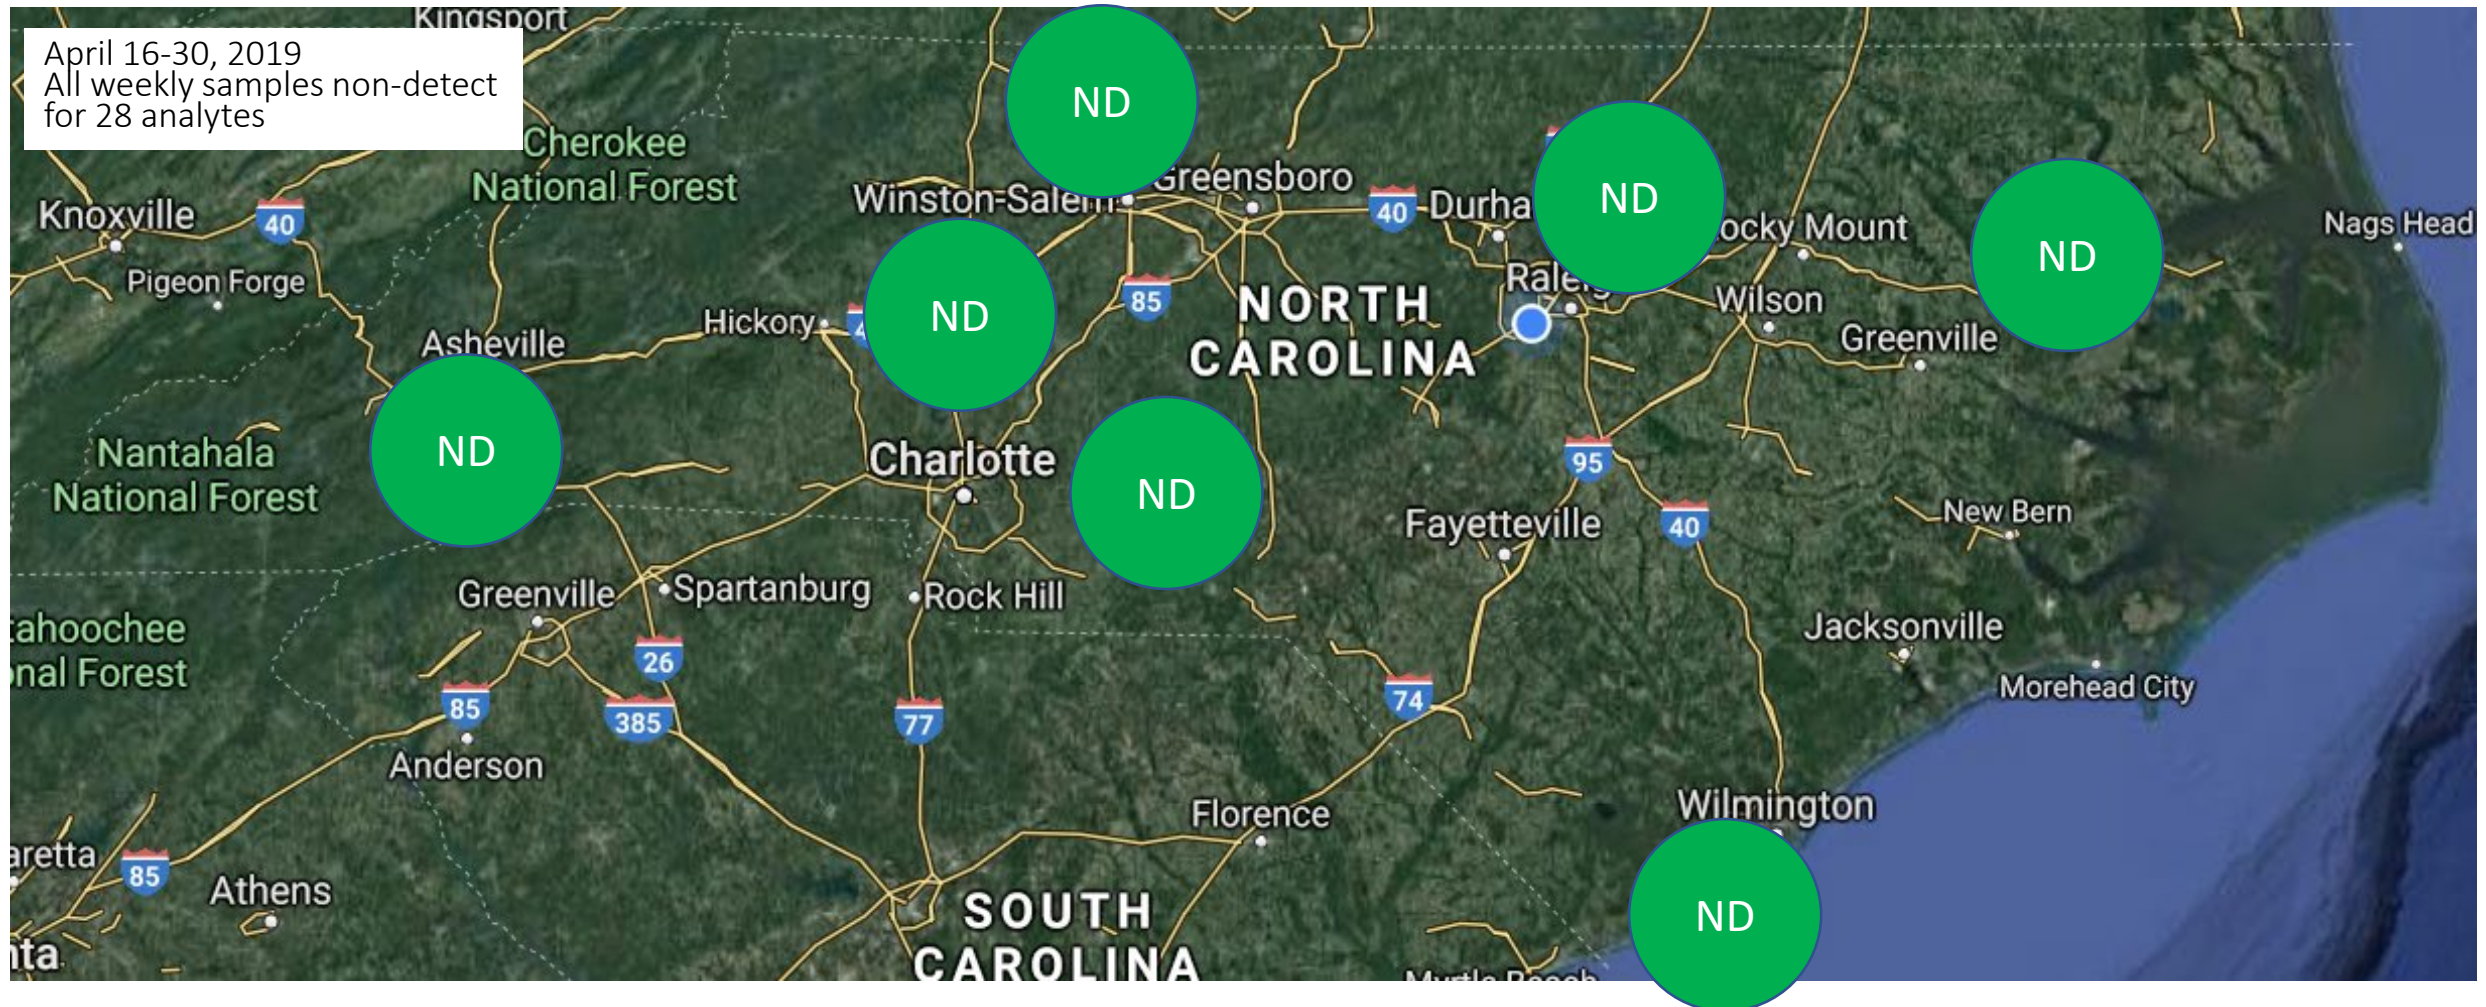

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

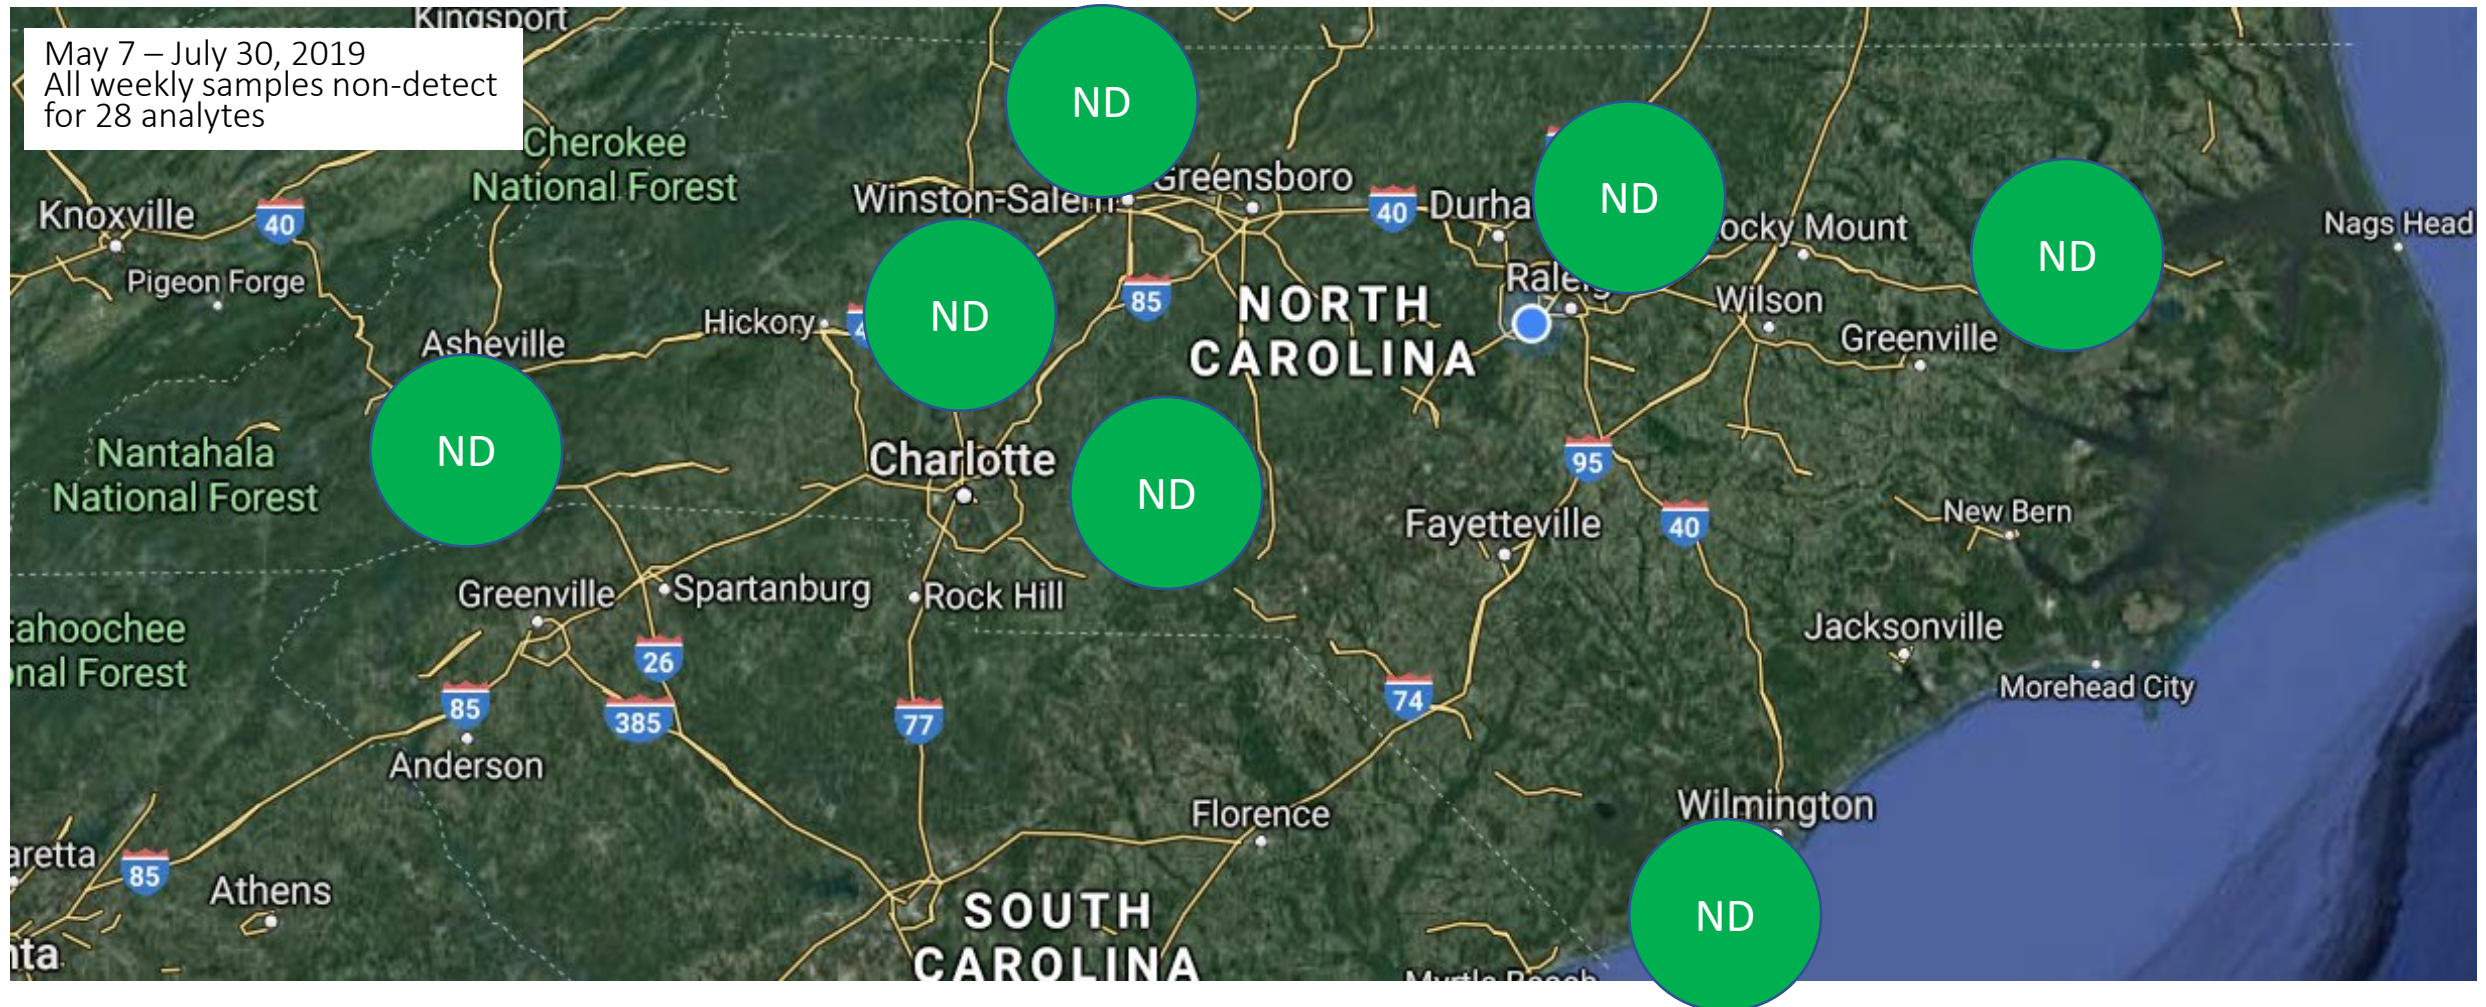

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

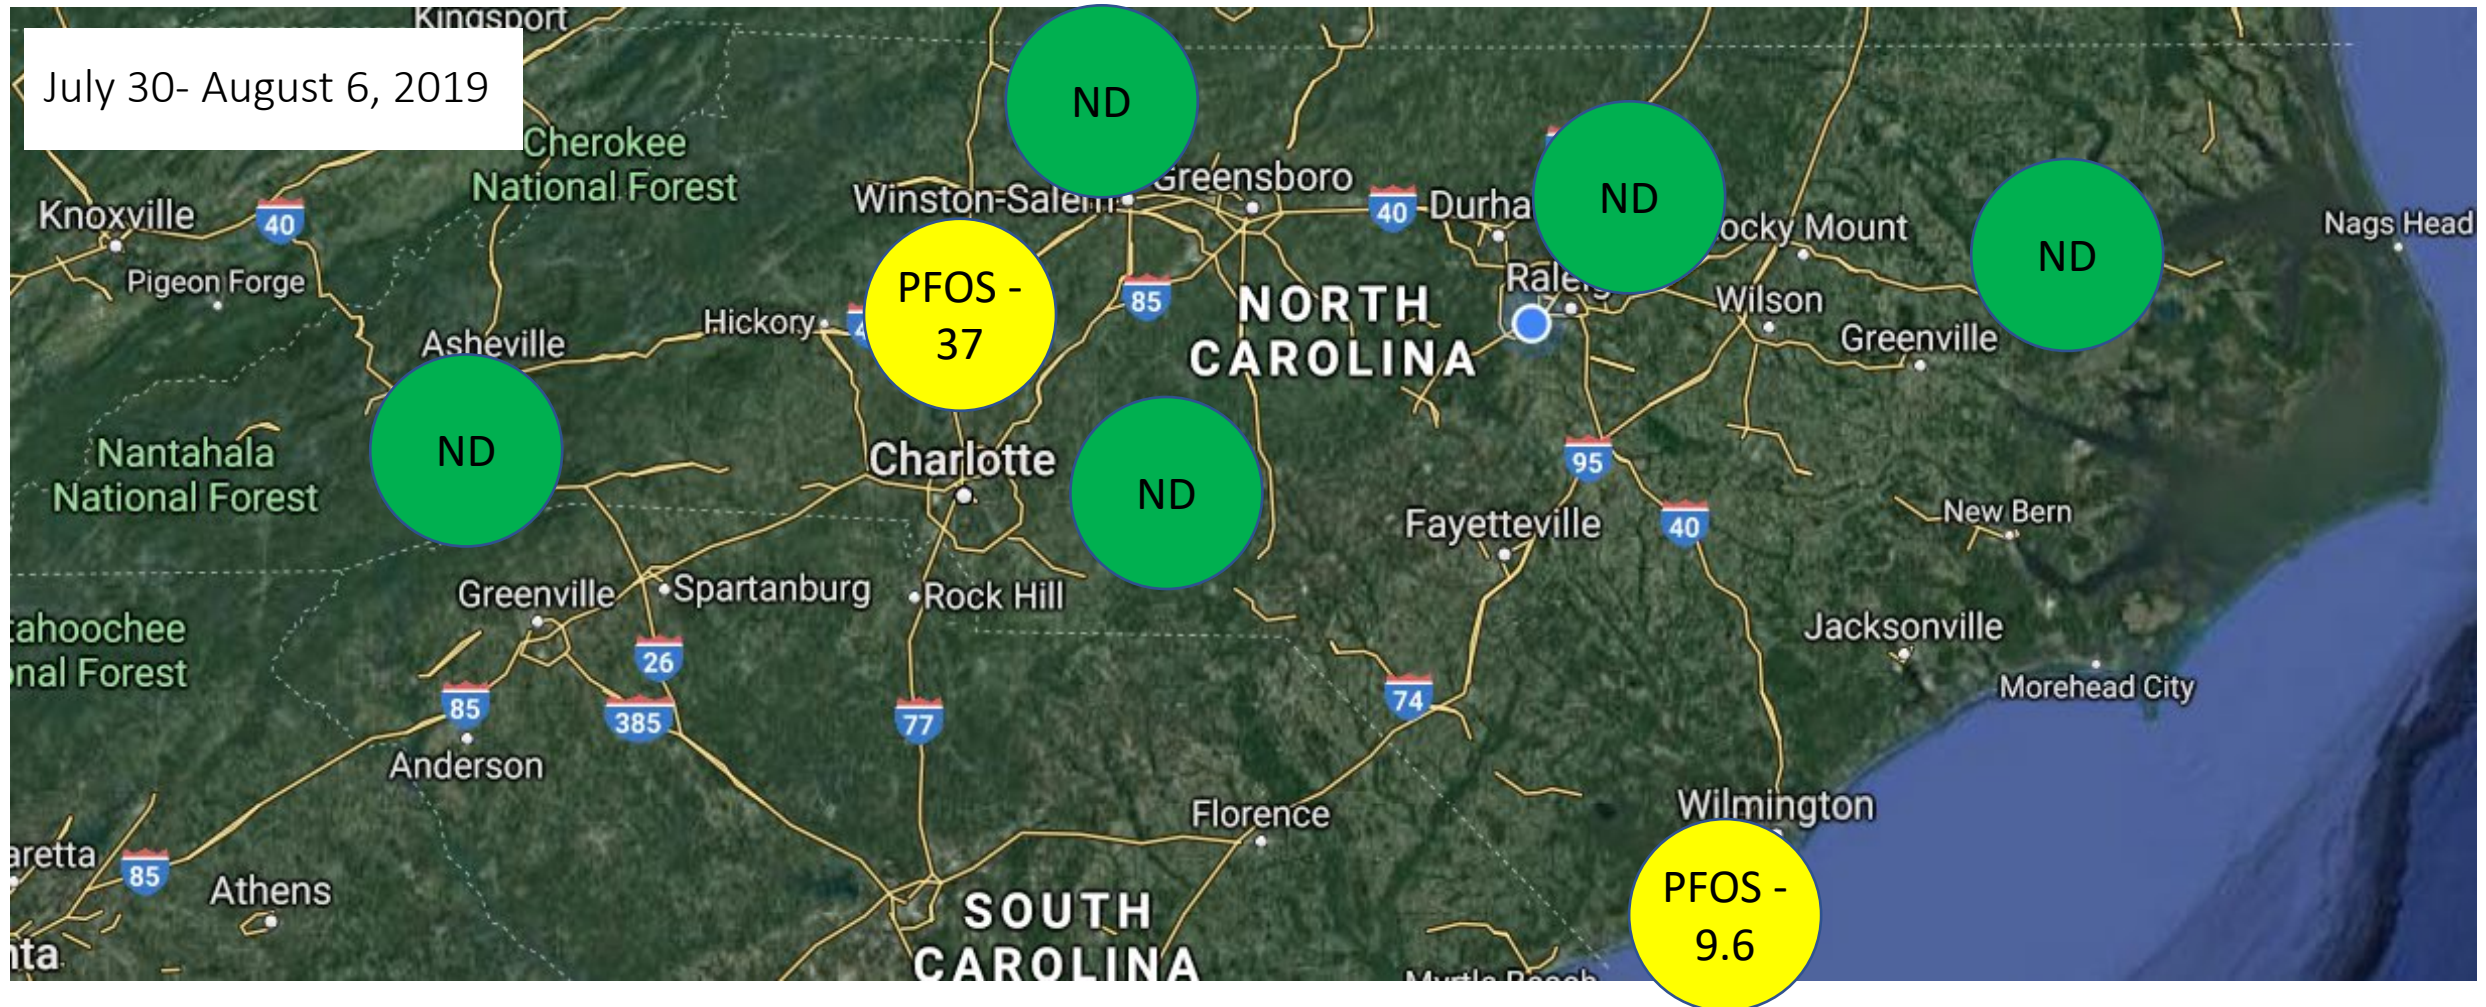

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

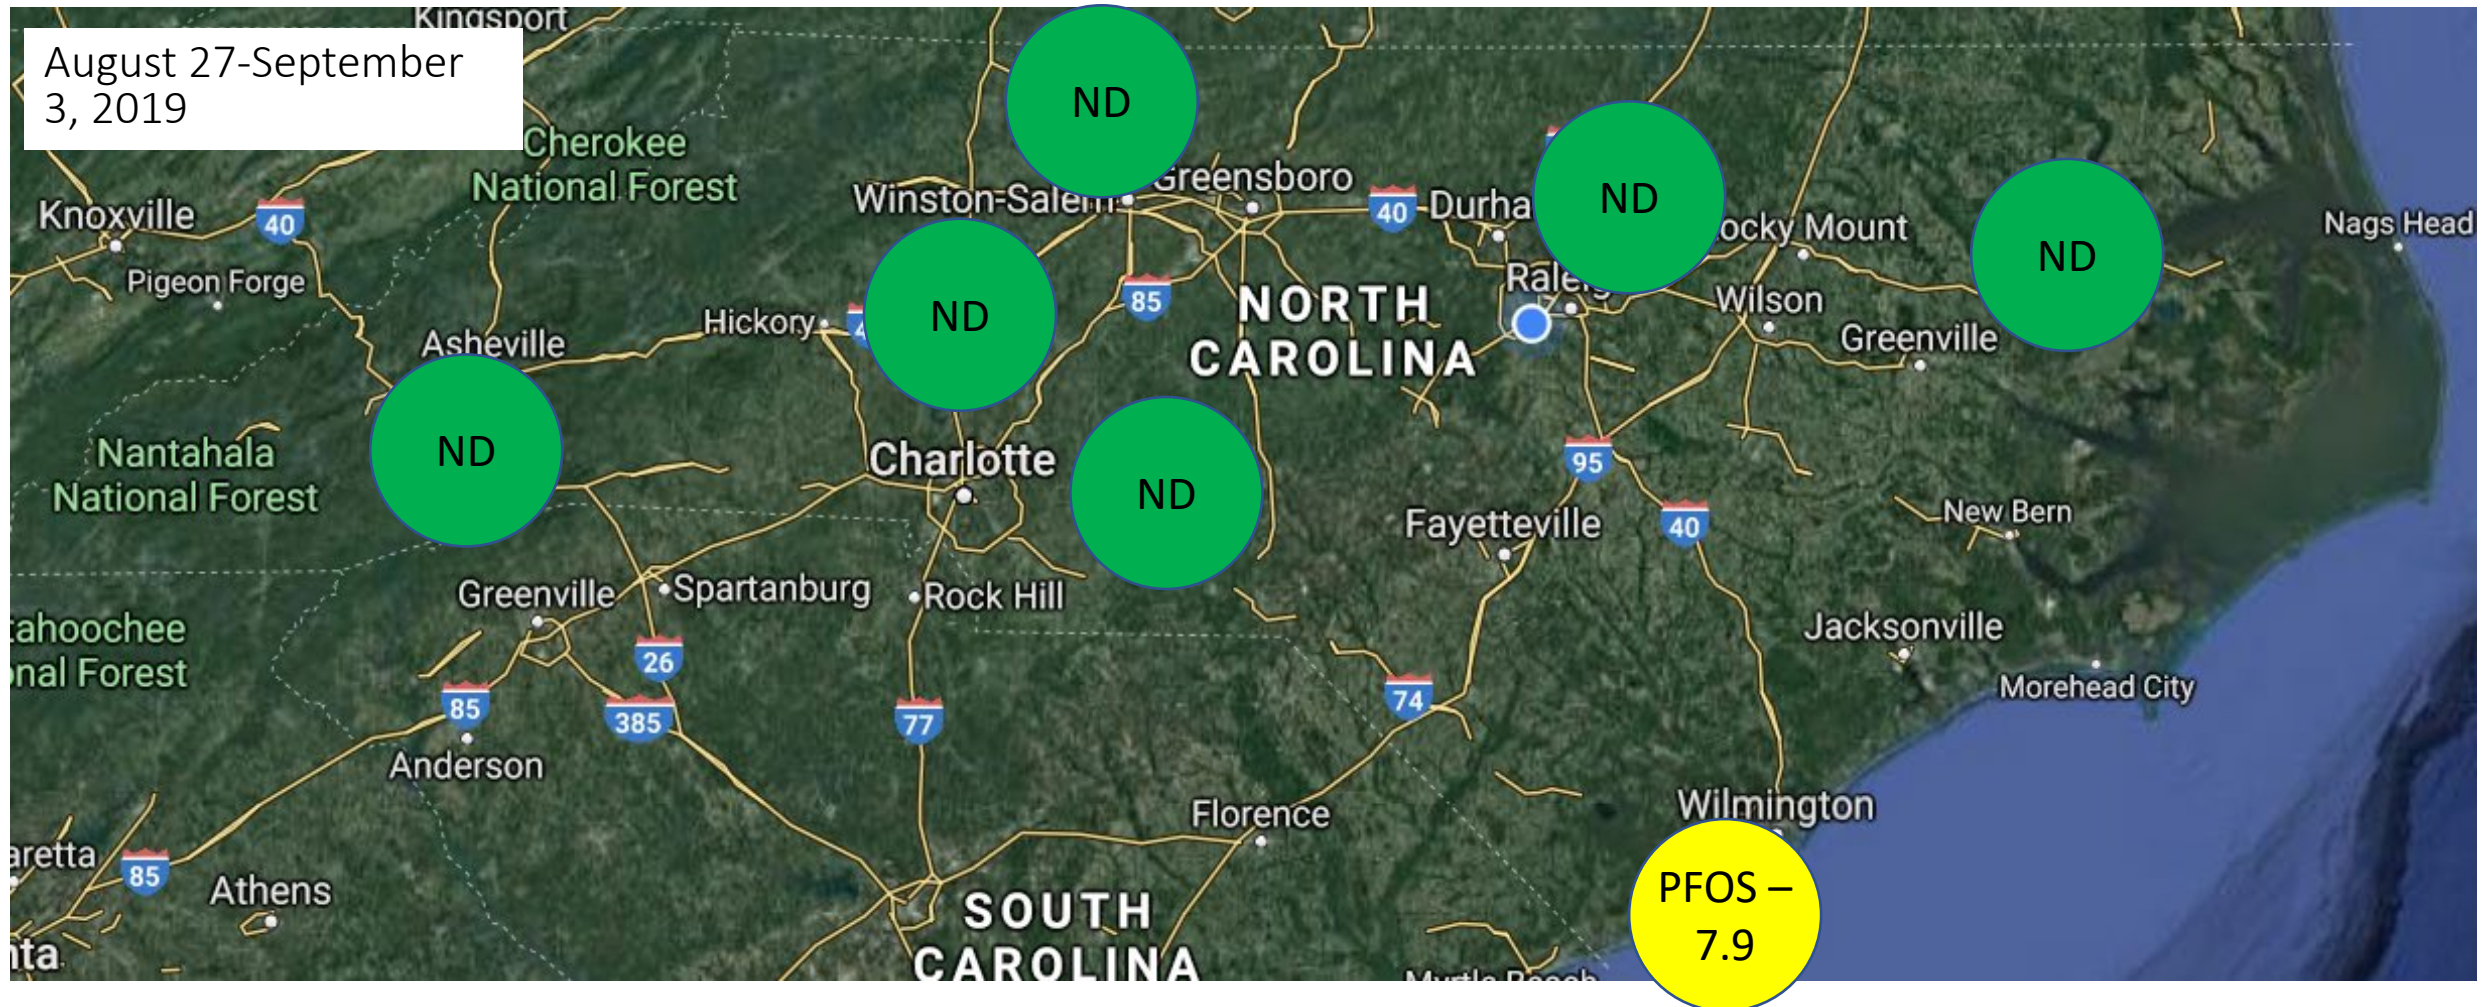

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

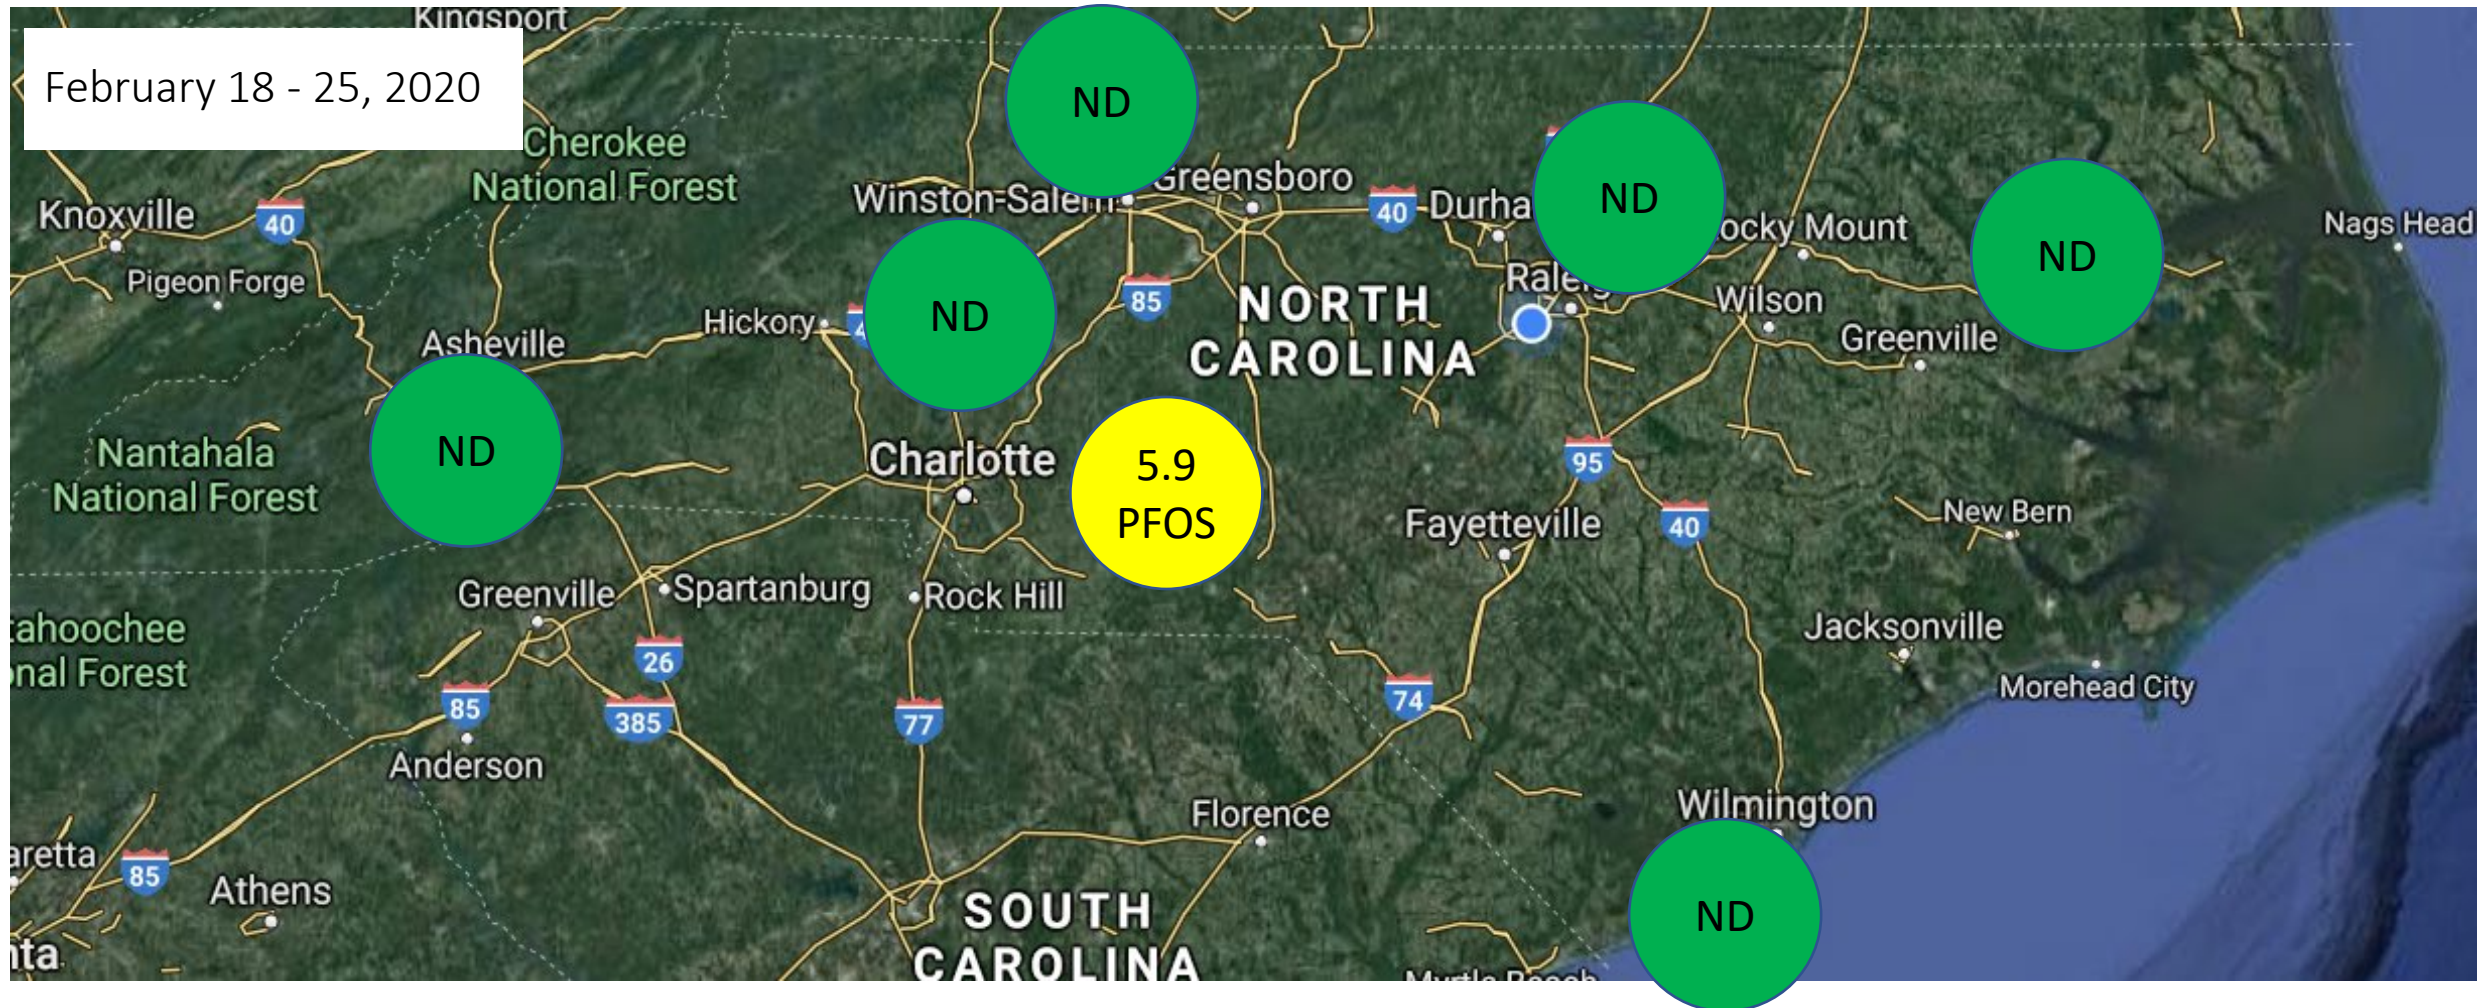

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

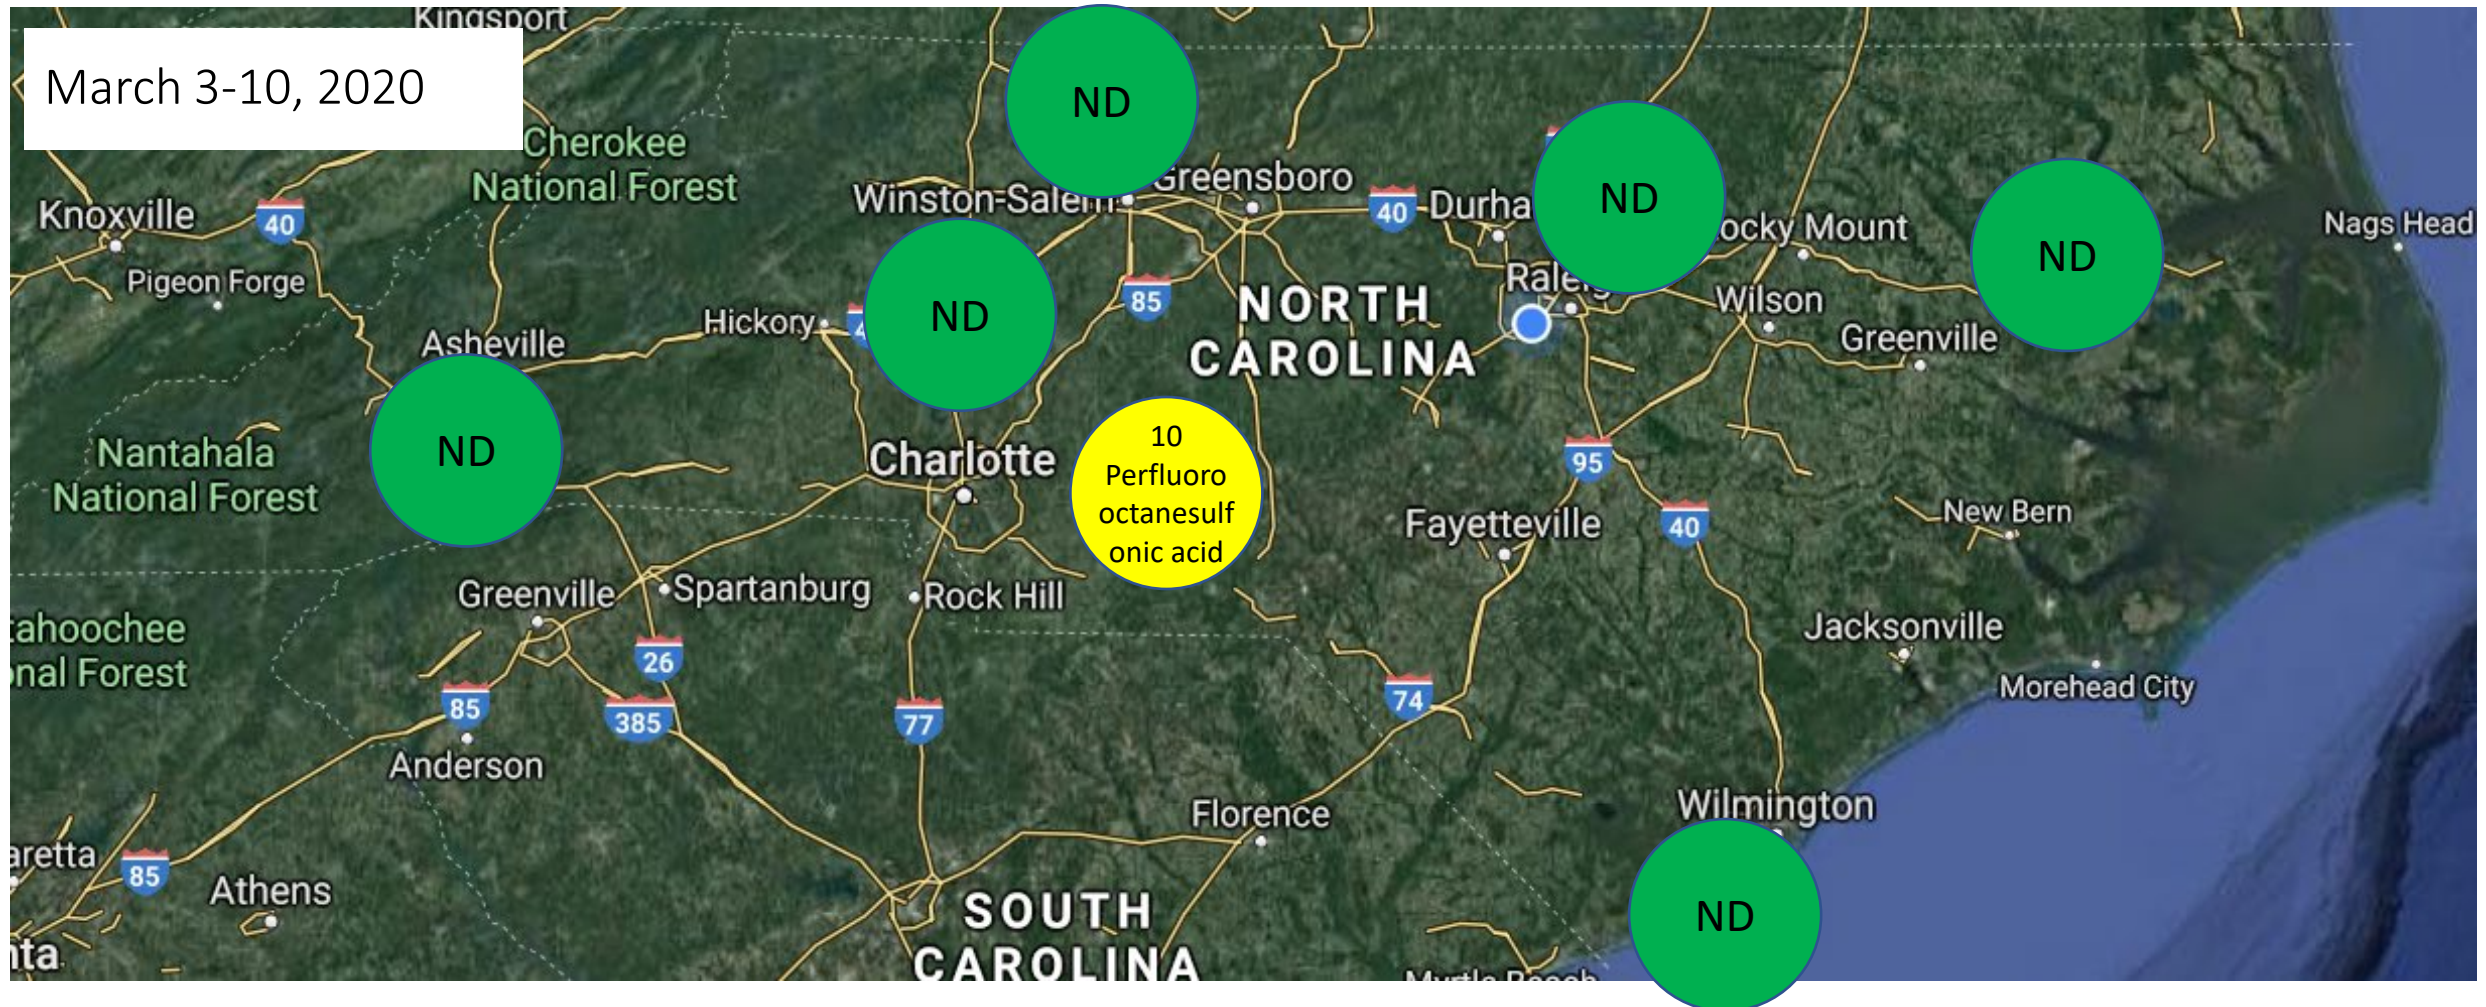

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period

North Carolina: Background Rainwater PFAS Concentrations

Measured in ppt; ND = Not detected; NS = No sample for the time period
