Dear Mr. Long,

The Division has reviewed Chemours' responses to Comments on the PFAS Mass Loading Plan Pursuant to Paragraph 12 of the Consent Order submitted on May 31, 2019. The revisions addressed our concerns and the Division finds the plan acceptable. DWR requests that when Geosyntec provides the Division with the excel file used to prepare the modeling analysis (answer to DEQ question #2; Comment ID 7) we ask that all the data used in the model be supplied along with the dates samples were collected and the groups responsible for collecting and analyzing them.

Sincerely,
