RE: Extension of Deadline for TOF Method

This letter is in regard to your request that the deadline for final development of the total organic fluorine method of December 31, 2020 as referenced in Paragraph 27 of the Consent Order be extended until March 31, 2021. Chemours timely submitted its plan to develop the total organic fluorine method on May 6, 2019. Due in part to DEQ's efforts to seek input from experts outside of the agency, DEQ did not approve that plan until October 2, 2019. Because the length of this review period was not within the reasonable control of Chemours, DEQ views submission of the total organic fluorine method by March 31, 2021 as a timely submission under the Consent Order.

Sincerely,

A handwritten signature in blue ink that reads "Sheila C. Holman".

Sheila C. Holman
