Re: Request for 3-month extension of deadline

Dear Ms. Holman,

I would like to request a 3-month extension of the deadline for our project, 'Development of a Total Organic Fluorine (TOF) Method for the Analysis of Process Wastewater Streams and Air from Fayetteville Works (NC)', to June 30, 2021. This request is due to the partial shutdown of my university due to the COVID-19 pandemic. We have not been able to operate at normal capacity during the last 3 months and need this time for the successful completion of our TOF method. In addition, we are currently under a gradual Phase 1 / Phase 2 reopening, where we will still not be at full capacity until sometime in July or August of this year.

Sincerely,

A handwritten signature in cursive script that reads "Susan D. Richardson".

Susan D. Richardson, Ph.D.
