Re: Monthly Emissions Report Pursuant to Consent Order Paragraph 8

Dear Mr. Abraczinskas,

Pursuant to Paragraph 8.d of the Consent Order, please find enclosed the September monthly emissions report for GenX Compounds from Fayetteville Works, prepared with support from our consultant, ERM NC, Inc. ("ERM"). The report shows the estimated GenX Compounds emissions through August, the projected emissions for the rest of the year, and the assumptions that underlie the estimates. Based on the identified assumptions, ERM's calculations continue to show that the facility will meet the Consent Order's 82% and 92% requirements for plant-wide interim reductions of emissions of GenX Compounds.

As with the prior monthly emissions reports, the spreadsheet file with the calculations underlying the enclosed report contains confidential business information of Chemours, so we will send that spreadsheet file under separate cover directly to you, and the spreadsheet file will not be further distributed or posted on Chemours' website.

If you have any questions, please contact me at Brian.D.Long@chemours.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian D. Long', written in a cursive style.

Handwritten initials 'for' in black ink, positioned to the left of the typed name.

Brian D. Long
