

Figure 9. Commercial and recreational length frequency distribution from cobia harvested in 2020.

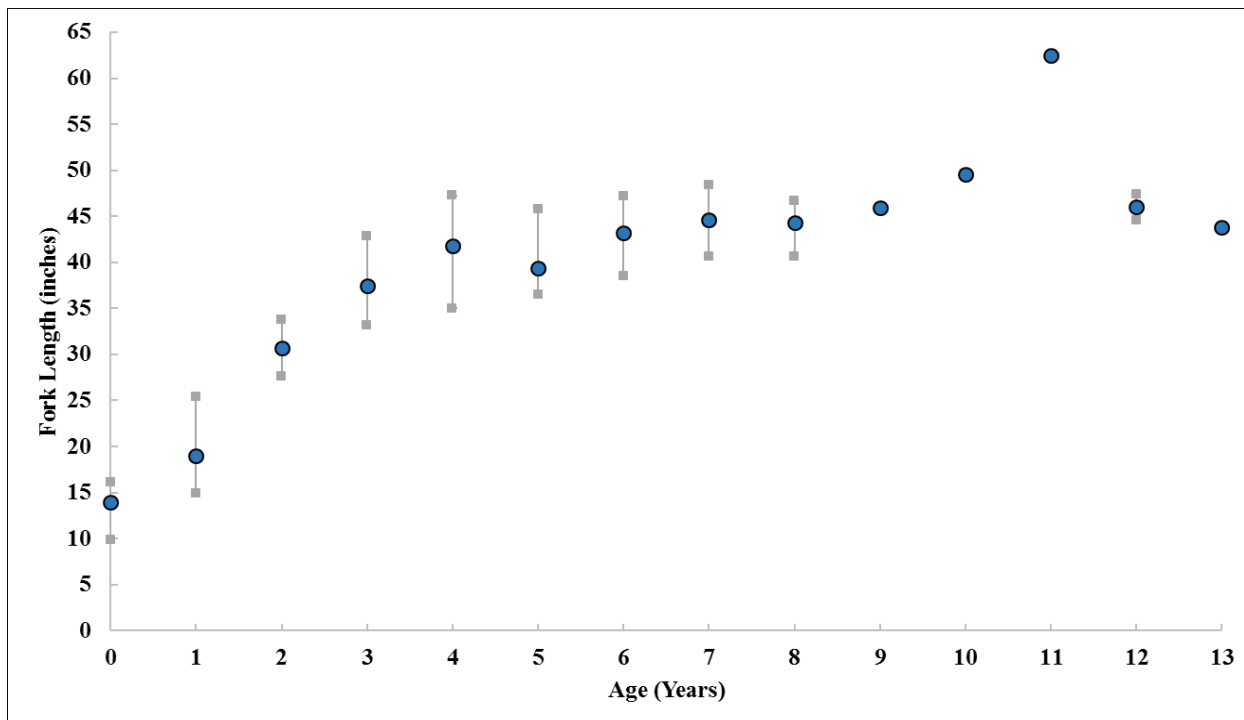

Figure 10. Cobia length at age based on all age samples collected from 2008 to 2017. Blue circles represent the mean size at a given age while the grey squares represent the minimum and maximum observed size for each age. Otoliths from 2018-2020 are not included in this figure as they have not yet been aged.
