RE: Phase I Site Assessment Plan, Response to Phase I Site Assessment Plan  
Comments, CTS, Mills Gap Road Site, Mills Gap Road, Skyland,  
Buncombe County, North Carolina

Dear Mr. Gobles:

We have reviewed the above referenced reports as received in the Winston-Salem Regional Office (WSRO) on March 3 and May 7, 2008, respectively.

We feel that the responses from CTS to the Phase I Site Assessment Comments are appropriate for this first phase of the assessment. The Phase I Assessment activities described in both the Phase I Site Assessment Plan and the Response to the Phase I Site Assessment Plan Comments, should be implemented as soon as logistically possible. Please be aware that additional soil, groundwater, surface water, and vapor intrusion assessment will be required in future work phases in accordance with the regulations and guidelines of the Inactive Hazardous Sites Branch.

Please do not hesitate to contact me at the information below should questions or concerns arise.

Sincerely,

Bonnie S. Ware  
Hydrogeologist
