DSCA Site Status Definitions

Petitioned - The DSCA Program is in the process of reviewing an application to certify the site.

Certified - The DSCA Program has entered into an agreement with a petitioner and is in the process of assigning a state-hired, independent environmental contractor to conduct a prioritization assessment.

Assessment - The DSCA Program's independent environmental contractor is currently determining the extent of soil and groundwater contamination at the site.

Monitoring - The DSCA Program's independent environmental contractor is currently monitoring the levels of contaminants in the groundwater.

Remediation - The DSCA Program's independent environmental contractor is currently performing cleanup at the site.

Interim Action - Site conditions are favorable for source removal or conducting a pilot study for remediation.

Emergency - The DSCA Program has determined there is an immediate need for corrective action to abate a potential hazard to human health or the environment.

On Hold - Please contact the site's project manager for more details.

Closure - The extent of contamination has been defined and is considered stable. The DSCA Program is in the process of developing and implementing a risk management plan to protect human health and the environment from remaining contamination.

NFA - No Further Action Required.

Site Ineligible - The site is not eligible because there was no contamination discovered above regulatory levels or the contamination was determined not to be related to this facility site.

This is a list of DSCA sites that have petitioned for certification or have been certified. The order is alphabetical by county then city.

For additional information please contact the project manager or branch supervisor Peter Doorn at 919.707.8369
