

STATE OF NORTH CAROLINA

DEPARTMENT OF ENVIRONMENTAL QUALITY

DIVISION OF WATER RESOURCES

WASTEWATER/GROUNDWATER LABORATORY CERTIFICATION

Form #100-app

Application for Initial Environmental Laboratory Certification

07/16/2020

INSTRUCTIONS: This application is only one part of the Certification process; completing and submitting an application does not constitute Certification. Upon review of the completed application, additional clarifications and documentation may be required. Clarifications and additional requested information received in a timely manner will expedite your application process. Please complete all applicable parts of this form using a computer or print legibly in ink.

To apply for Certification, return a single electronic copy of this form to your assigned auditor or, a single hard copy may be mailed to:

**DEQ/DWR Water Sciences Section
Laboratory Certification Branch
1623 Mail Service Center
Raleigh, NC 27699-1623**

For additional information, contact the Laboratory Certification program office:

Telephone: 919-733-3908

Fax: 919-733-6241

Program Homepage: <https://deq.nc.gov/about/divisions/water-resources/water-resources-data/water-sciences-home-page/laboratory-certification-branch>

APPLICATION FEES: An applicant for *Initial Certification* must submit to the Department of Environmental Quality, Water Sciences Section, a non-refundable fee of three hundred dollars (\$300.00) for the evaluation and processing of each application. Please make your check payable to: DEQ/DWR Water Sciences Section. If you wish to pay electronically by check, credit or debit card, contact the Laboratory Certification program office.

ANNUAL FEES: Annual Certification Fees will be calculated in accordance with 15A NCAC 2H .0800. An annual minimum fee of \$1750.00 will be assessed to all Municipal, Industrial, and Other laboratories. Commercial laboratories must pay an annual minimum fee of \$3,500.00. Initial certification fees shall be prorated on a quarterly basis. ***Do not submit annual fees until you are issued an invoice. Invoices will be issued after completion of the application process.***

RECIPROCITY: For reciprocal Certification, submit a copy of the current certificate, a list of accredited Fields of Testing, proficiency testing results for samples analyzed within the six months prior to this application, the most recent on-site inspection report and corrective actions response. Reciprocity is not guaranteed. In some cases, submitted documentation may be insufficient to grant Certification by reciprocity and an on-site inspection will be performed.

Section A: Facility and Contact Information

Facility Name: _____

EPA Lab Code: _____

Contact Person*: **Mr. Ms. Dr. (circle one)** Telephone #, ext. _____

Contact Person E-Mail Address: _____

Laboratory Manager **: **Mr. Ms. Dr. (circle one)** Telephone #, ext. _____

Laboratory Manager E-Mail Address: _____

Laboratory Supervisor: **Mr. Ms. Dr. (circle one)** Telephone #, ext. _____

Laboratory Supervisor E-Mail Address: _____

Quality Assurance Officer (if applicable): **Mr. Ms. Dr. (circle one)** Telephone #, ext. _____

Quality Assurance Officer E-Mail address: _____

Facility Address: _____ City _____ State _____ Zip _____

Mailing Address: _____ City _____ State _____ Zip _____

County (NC applicant only): _____ Fax Number: _____

Billing Address: _____ City _____ State _____ Zip _____

Billing Contact Person*: **Mr. Ms. Dr. (circle one)** Telephone #, ext. _____

Billing Contact Person E-Mail Address: _____

* For North Carolina Wastewater/Groundwater Laboratory Certification (NC WW/GW LC) purposes, the Contact Person may also be either the Laboratory Supervisor or the Laboratory Manager.

** For NC WW/GW LC purposes, the Laboratory Manager shall be administratively above the Laboratory Supervisor (they cannot be the same person except at commercial laboratories where the owner is the laboratory supervisor and there is no one administratively above the laboratory supervisor).

Section B: Laboratory Supervisor Information NOTE: An attached resume may be substituted for this section.
--

1. Education: List the College(s), University(ies), or Technical Institute(s) attended, dates of attendance and degree received.

2. Experience: List work-related experience, indicating the employer, years of employment, and basic job description. Also list pertinent licenses, Operator Certification and grade, etc.

3. References: List three people familiar with your professional competency, provide contact information for each in the form of a telephone number or e-mail address.

Section D: Quality Assurance

Proficiency Testing (PT) - Prior to issuance of Certification, this office **must receive acceptable PT sample results** from a NELAC approved provider for each of the requested parameter methods for which Certification is requested and for which PT samples are available (refer to the NC WW/GW LC website for required PTs). All testing rounds must have occurred within the six months prior to the date of application. For multi-analyte parameters (e.g., Purgeable Organics), results for all spiked components from the primary list of the target group must be reported. Alternatively, the laboratory may appeal to report an abbreviated list if they can demonstrate that the abbreviated list will be a routine reporting scheme for North Carolina client data reporting.

Are PT samples for each of the requested analytical parameter methods being sent to the NC WW/GW Laboratory Certification program?

Yes ____ No ____ If not supplied, are they on order? Yes ____ No ____ Anticipated Completion Date _____

Results are not supplied for the following parameter methods: _____

Submit one copy of the Laboratory's Quality Assurance Manual, which must include the established quality control limits (where appropriate to the method) for all requested parameters. The Quality Assurance manual may also contain Standard Operating Procedures (SOPs) for each method that Certification is requested. If not, the laboratory must also submit SOPs for each parameter method requested. The Quality Assurance manual must provide a listing of major equipment used in the analytical testing process.

When applicable, submit calculated Minimum Detection Limits (MDLs) and Initial Demonstration of Capability (IDOCs) studies along with the associated raw data. MDL studies must be performed as specified by 40 CFR Part 136, Appendix B.

Section E: Analytical Methods

Parameter methods for which Certification may be requested are listed below. **This list is not all inclusive but represents the parameter methods most often requested. Submit a request for additional parameter methods by writing the reference and method number in the “Other” column next to the appropriate parameter.**

Method Selection: Please circle each method for which you are requesting Certification and specify the lower reporting limit. If the method does not appear, you may write it in the “Other” column. Be sure to include the complete method reference and specify the desired matrix as described below. Note: For all organic analytical categories, please attach a typed list of analyte-specific lower reporting limits. Note: DO NOT provide us with the laboratory method detection limit, unless the lower reporting limit and method detection limit are the same.

Matrix Specification: Methods highlighted in blue are only applicable to aqueous samples. Methods highlighted in brown are only applicable to non-aqueous samples. Simply circling the appropriate method will specify the matrix. Methods highlighted in green are applicable to both aqueous and non-aqueous samples.

NOTE: POLYCHLORINATED BIPHENYLS (PCBs) by SW-846 8082 A is also available in an OIL matrix. If you want that, write “Oil” next to the matrix selection number.

When selecting green highlighted methods, indicate the desired matrix in the space to the right using the following number scheme;

1 = Aqueous

2 = Non-Aqueous

3 = Both Aqueous and Non-Aqueous
