303(d)/Impaired Waters List

The most current version of the 2008 303(d) list can be found on the DWQ, Modeling and TMDL Units webpage (http://h2o.enr.state.nc.us/tmdl/General_303d.htm).

This basin plan was written based on the Draft April 2008 303(d) list submitted to the USEPA (Integrated Report Category 5 Version 20080107).

Once approved by the USEPA, this section will be updated with the final 2008 303(d) impaired waters list. Any modifications to this list will not be reflected in the written portion of this basin plan. It is important to verify all impairment status with the most current EPA approved 303(d) impaired waters list.
