White Oak River Basinwide Water Quality Plan

May 2007
Photographs provided by Frank Tursi (top right), Martin Machen (top left), and Stewards of the White Oak River Basin (bottom).
White Oak River Basinwide
Water Quality Plan

May 2007

Prepared by:
NC Department of Environment and Natural Resources
Division of Water Quality
Planning Section
1617 Mail Service Center
Raleigh, NC 27699-1617

(919) 733-5083

This document was approved and endorsed by the NC Environmental Management Commission on May 10, 2007 to be used as a guide by the NC Division of Water Quality in carrying out its Water Quality Program duties and responsibilities in the White Oak River basin. This plan is the third five-year update to the White Oak River Basinwide Water Quality Plan approved by the NC Environmental Management Commission in February 1997.
TABLE OF CONTENTS

Executive Summary .......................................................................................................................1

Introduction ..................................................................................................................................17
  What is Basinwide Water Quality Planning? ..............................................................................17
  Goals of Basinwide Water Quality Planning ............................................................................17
  Benefits of Basinwide Water Quality Planning .........................................................................18
  How You Can Get Involved .........................................................................................................18
  Division of Water Quality Functions and Locations .................................................................18
  Some Other Reference Materials ..............................................................................................20
  How to Read the Basinwide Plan ..............................................................................................20

Chapter 1 White Oak Subbasin 03-05-01 .................................................................................23
  Including: White Oak River, Queens Creek and Bear Creek .........................................................23
  1.1 Subbasin Overview ...................................................................................................23
  1.2 Use Support Assessment Summary ..........................................................................38
  1.3 Status and Recommendations for Previously and Newly Impaired Waters .............39
    1.3.1 Division of Environmental Health Growing Area D-1 ..............................................40
      Bear Creek [AU# 19-41-11a1, a2, a3, b1, and b2] .............................................................40
      Mill Creek [AU# 19-41-11-1]..........................................................................................41
      Intracoastal Waterway ICWW [AU# 19-41-(0.5)d and e, 19-41-(14.5)a, 19-
      41-(15.5)a and b].................................................................................................................41
    1.3.2 Division of Environmental Health Growing Area D-2 ..............................................41
      Bell Swamp, Dicks Creek, Goose Creek, Halls Creek, Parrot Swamp and
      Pasture Branch ..................................................................................................................43
      Queen Creek [AU# 19-41-16a, b1, b2, c and d] .................................................................43
    1.3.3 Division of Environmental Health Growing Area D-3 ..............................................43
      Bear Island [AU# 19-41-18b1] .......................................................................................45
      Boathouse Creek, Caleb Branch (City Weeks Branch), Cales Creek,
      Cartwheel Branch, Dubling Creek, Godfrey Branch, Hadnot Creek, Hampton
      Bay, Holland Mill Creek, Mill Creek (Pettiford Creek), Mullet Gut,
      Pettiford Creek Bay, Pitts Creek (Hargetts Creek), Schoolhouse Branch,
      Starkey Creek, Steep Hill Branch and Stevens Creek ......................................................45
      Pettiford Creek [AU# 20-29-1]..........................................................................................45
      White Oak River [AU# 20-(18)a1, a2, b, c1, c3, e4, c5, c6, c7, c8, d, e2 and
      e3]......................................................................................................................................45
    1.3.4 Division of Environmental Health Growing Area C-4 ..............................................46
      Browns Creek [AU# 19-41-8] .........................................................................................47
  1.4 Status and Recommendations for Waters with Noted Impacts ........................................47
    1.4.1 White Oak River [AU# 20-(1)] .................................................................................47
    1.4.2 Starkeys Creek [AU# 20-10] ..................................................................................48
    1.4.3 Caleb Creek [AU #20-15] .......................................................................................48
1.4.4 Foster Creek [AU #20-32] .................................................................48
1.4.5 Catfish and Great Lakes.................................................................48
1.4.6 Local Initiatives (for more information see Chapter 15).............49

Chapter 2 White Oak River Subbasin 03-05-02........................................51

Including: New River, Northeast Creek and ICWW ..............................51

2.1 Subbasin Overview ...........................................................................51
2.2 Use Support Assessment Summary ..................................................70
2.3 Status and Recommendations for Previously and Newly Impaired Waters ..................71
  2.3.1 Division of Environmental Health Growing Area B-9 .................72
    Goose Bay, Rogers Bay .................................................................72
  2.3.2 Division of Environmental Health Growing Area C-1 .................73
    Alligator Bay, Bignlins Creek, Bumps Creek, Chadwick Bay, Charles Creek,
    Fullard Creek (Salt Branch) and Mill Creek (Alligator Bay) .............74
    Lower New River [AU# 19-(27)a2, a3, a4, b and c] .........................75
  2.3.3 Division of Environmental Health Growing Area C-2 .................75
    Courthouse Bay [AU# 19-36b] .......................................................76
    Fannie Creek, Hell Gate Creek and Wheeler Creek .......................76
    Mile Hammock Bay [AU# 19-41-2a and b] ....................................76
  2.3.4 Division of Environmental Health Growing Area C-3 .................77
    Everett Creek, Mill Creek (Stones Bay), Millstone Creek, Muddy Creek and
    Stones Creek ..............................................................................78
    Stones Bay [AU# 19-30a2 and 19-30b] ..........................................78
  2.3.5 Division of Environmental Health Growing Area C-4 .................78
    Brown Swamp, Clay Bank Branch, Gillets Creek, Holover Creek, Mirey
    Branch and Salliers Bay .............................................................79
    Freeman Creek [AU# 19-41-5] .....................................................79
  2.3.6 Previously or Currently Impaired Freshwater and Non-Shellfish Harvesting
    Waters .....................................................................................79
    Brinson Creek [AU# 19-12] ..........................................................80
    Little Northeast Creek [AU# 19-16-2] ..........................................80
    New River [AU# 19-(1), 19-(7), 19-(10.5), 19-(11) and 19-(15.5)] ....81
    Southwest Creek [AU# 19-17-(6.5)] .........................................83
    Wilson Bay [AU# 19-14] ..............................................................83
  2.4 Status and Recommendations for Waters with Noted Impacts ............83
    2.4.1 Mott Creek [AU# 19-16-3] ....................................................83
    2.4.2 Rocky Run [AU# 19-16-2-2] .................................................84
    2.4.3 Webb Creek [AU# 20-19] .....................................................84
  2.5 Additional Water Quality Issues within Subbasin 03-05-02 ...............84
    Marine Corp Base (MCB) Camp Lejeune, North Carolina ...............84
  2.6 Local Initiatives for Subbasin 03-05-02 (for more information see Chapter 15) ....85
    Wilson Bay Initiative & Restoration Project ..................................85
Chapter 3 White Oak River Subbasin 03-05-03

Including: Bogue Sound and the Newport River

3.1 Subbasin Overview

3.2 Use Support Assessment Summary

3.3 Status and Recommendations for Previously and Newly Impaired Waters

3.3.1 Division of Environmental Health Growing Area D-4

3.3.2 Division of Environmental Health Growing Area E-1

3.3.3 Division of Environmental Health Growing Area E-2

3.3.4 Division of Environmental Health Growing Area E-3

3.3.5 Division of Environmental Health Growing Area E-4

3.3.6 Division of Environmental Health Growing Area E-5

3.3.7 Impaired Freshwater and Non-Shellfish Harvesting Waters

3.4 Status and Recommendations for Waters with Noted Impacts

3.5 Local Initiatives for Subbasin 03-05-03

Chapter 4 White Oak River Subbasin 03-05-04

Including: North River, Jarrett Bay, Nelson Bay and Core Sound

4.1 Subbasin Overview

4.2 Use Support Assessment Summary
4.3 Status and Recommendations for Previously and Newly Impaired Waters ..........147
4.3.1 Division of Environmental Health Growing Area E-5 ...............................147
4.3.2 Division of Environmental Health Growing Area E-6 ...............................148
    North River [AU# 21-35-1a1, a2, b2, b3, b4, b6, c1, c2, d1, d2 and e] ..............................150
    The Straits [AU# 21-35-1-12a2 and b] .................................................................151
    Turner Creek [AU# 21-35-1-11-1] .................................................................152
    Westmouth Bay [AU# 21-35-1-12-3b2] .................................................................152
4.3.3 Division of Environmental Health Growing Area E-7 ...............................152
    Back Sound [AU# 21-35-(0.5)e1, e2, f, 21-35-(1.5)a2, a3, c] .........................153
    Brooks Creek [AU# 21-35-1-13a and b] .................................................................153
4.3.4 Division of Environmental Health Growing Area E-8 ...............................154
    Broad Creek (Jarrett Bay), Ditch Cove, Great Creek, Howland Creek, Jarrett
    Bay, Jump Run, Smyrna Creek, Spit Bay, Tush Creek, Wade Creek and
    Williston Creek .................................................................155
    Great Marsh Creek [AU# 21-35-7-26a] .................................................................155
    [AU# 21-35-7-22a, b, c1 and c2] .................................................................155
    Middens Creek [AU# 21-35-7-24a and b] .................................................................156
4.3.5 Division of Environmental Health Growing Area E-9 ...............................156
    Annis Run [AU# 21-35-7-3-2] ........................................................................157
    Brett Bay [AU# 21-35-7-13a] ........................................................................158
    Cedar Creek, Fork Creek, Glover Creek, Lewis Creek, Maria Creek, Pasture
    Creek and Willis Creek .................................................................158
    Core Sound [AU# 21-35-7a2, a3, a4, a5, a6, 7b, 7c and 7d] .................................158
    Nelson Bay [AU# 21-35-7-10-(5)a and b] .................................................................158
    Oyster Creek [AU# 21-35-7-18] .................................................................158
    Styron Creek [AU# 21-35-7-3-3a] ........................................................................159
    Styron Bay [AU# 21-35-7-3b] ........................................................................159
4.3.6 Impaired Freshwater and Non-Shellfish Harvesting Waters ......................159
    Broad Creek (Nelson Bay) [AU# 21-35-7-10-4] .................................................................159
4.4 Local Initiatives for Subbasin 03-05-04 .................................................................159

Chapter 5 White Oak River Subbasin 03-05-05.................................................................161

Including: Core Sound and Atlantic Ocean .................................................................161

5.1 Subbasin Overview .................................................................................................161

Chapter 6 North Carolina Water Quality Classifications and Standards ..............171

6.1 Description of Surface Water Classifications and Standards ..............................171
    6.1.1 Statewide Classifications ..............................................................................171
    6.1.2 Statewide Water Quality Standards ..............................................................172

Chapter 7 Water Quality Stressors and Sources of Impairment in the White Oak River
Basin .........................................................................................................................175

7.1 Stressor Identification .............................................................................................175
    7.1.1 Introduction and Overview ..............................................................................175
    7.1.2 Stressor Sources ..............................................................................................175
    7.1.3 Overview of Stressors Identified in the White Oak River Basin ......................176
Table of Contents

7.1.4 Overview of Stressor Sources Identified in the White Oak River Basin ....178
7.2 Sedimentation as a Stressor Related to Turbidity and Total Suspended Solids .....179
7.3 Water Quality Stressors Impairing Recreational Uses of Waterbodies ..........180
  7.3.1 Recreation Issues Related to Coastal Swimming Beaches .................181
  7.3.2 How DWQ Assesses the Recreation Use Support Category Based on DEH Program Recommendations ............................................................182
7.4 Shellfish Harvesting Issues ........................................................................184
  7.4.1 DEH Classifications and Protocols ......................................................184
  7.4.2 Shellfish Sanitary Surveys and Program Protocols ..............................184
  7.4.3 How DWQ Assesses the Shellfish Harvesting Category Based on DEH Program Recommendations ..........................................................185
7.5 Fish Consumption Advice Related to Mercury ..........................................185

Chapter 8 Stormwater and Wastewater Management for Improved Water Quality in Coastal Communities .........................................................187
  8.1 Introduction to Stormwater Runoff ...........................................................187
  8.2 Controlling Stormwater Pollution .............................................................187
  8.3 Stormwater Programs ................................................................................188
    8.3.1 NPDES Phase I ..................................................................................188
    8.3.2 NPDES Phase II ................................................................................189
    8.3.2.1 Stormwater Management in Shellfish Resource Waters ..........190
  8.4 State Stormwater Programs .......................................................................192
    8.4.1 Stormwater Management Near Sensitive Waters (HQW/ORW) ......192
    8.4.2 Universal Stormwater Management Program ..................................193
    8.4.3 Stormwater Regulation Challenges ..................................................194
    8.4.4 Local Government Stormwater Initiatives .......................................195
  8.5 Wastewater Programs ..............................................................................196
    8.5.1 NPDES Wastewater Discharge Permit Summary .............................196
    8.5.2 Nutrient Sensitive Waters Discharge Strategies ...............................197
    8.5.3 Permitted Non-Discharge Waste Management Strategies ...............197
  8.6 Waste Management in Coastal Communities ..........................................199
    8.6.1 Septic Systems and Straight Piping ....................................................201

Chapter 9 Changes in Our Coastal Communities - Population Growth, Development and Water Quality .................................................................203
  9.1 Our Changing Waterfronts .......................................................................203
    9.1.1 Loss of Access to Public Use of Coastal Waters ..............................203
  9.2 Effects of Population Growth and Development ......................................204
    9.2.1 Changes in Land Cover .....................................................................206
    9.2.2 Changes in Wetland Acreages ............................................................207
  9.3 Managing the Impacts of Growth, Development and Stormwater Runoff .209
    9.3.1 Assessment of Current Conditions ..................................................209
    9.3.2 Assessment of Future Conditions .....................................................211
Chapter 14 Natural Resources

14.1 Ecological Significance of the White Oak River Basin
14.2 Rare Aquatic and Wetland-Dwelling Animal Species
14.3 Significant Natural Heritage Areas in the White Oak River basin
14.4 Public Lands
14.5 Fisheries
  14.5.1 Fish Kill Summary
14.6 Submerged Aquatic Vegetation (SAV)

Chapter 15 Water Quality Initiatives

15.1 The Importance of Local Initiatives
  15.1.1 New River Foundation
  15.1.2 Onslow County Water Quality Project
  15.1.3 Stewards of The White Oak River Basin
  15.1.4 White Oak River Watershed Advisory Board (WECO)
  15.1.5 North River Farms Restoration Project
  15.1.6 Onslow Bight Conservation Forum
  15.1.7 Invasive Aquatic Vegetation Removal
15.2 Federal and State Initiatives
  15.2.1 Federal Clean Water Act – Section 319 Program
  15.2.2 NC Coastal Nonpoint Source Program
  15.2.3 North Carolina Ecosystem Enhancement Program (NCEEP)
  15.2.4 Coastal and Estuarine Land Conservation Program
  15.2.5 Clean Water Management Trust Fund
  15.2.6 Clean Water Bonds – NC Rural Center
  15.2.7 State Funded Oyster Hatcheries
  15.2.8 Oyster Shell Recycling
  15.2.9 Clean Marina Program

Chapter 16 North Carolina’s Impaired Waters List

16.1 Introduction to North Carolina’s Impaired Waters List
16.2 Introduction to TMDLs
16.3 Contents of the Integrated Report
16.4 How North Carolina Proposes Delisting Waters
16.5 Scheduling TMDLs
16.6 Revising TMDLs
