

Note: A number of DWR programs utilize Soil Survey maps as one method of locating stream segments that require buffers around the stream. These Programs include NSW Buffer Programs (Neuse, Tar-Pamlico, Catawba, Jordan and Randleman) and Phase II Stormwater Programs. This table gives the acceptable version of the Soil Survey for each county. Please note that the acceptable versions are either Paper Copy, CD-ROM or PDF Versions.

County Name	Date	Paper Copy Printed	CD-ROM	PDF Online	NSW Buffer Basin	Phase II
Alamance County	1960	Yes	Yes	Yes		X
