

Total Organic Carbon (TOC) Monitoring Reduction Request

In order for the Public Water Supply Section to consider your request for reduced monitoring, complete all information below and mail to:

Dave McCartney at 1634 Mail Service Center Raleigh, NC 27699-1634, or send by email to Dave.McCartney@ncdenr.gov [Phone: (919) 707--9087, Fax: (919) 715-6637]

To be eligible to reduce TOC monitoring to once per quarter you must meet the following requirements:

- With one year of data: Treated water TOC < 1.0 mg/L, when expressed as a running annual average (RAA) or
- With two years of data: Treated water TOC < 2.0 mg/L, when expressed as RAA

Water System Number: _____

System Name: _____

Plant Name (if applicable): _____

Population: _____

Contact Person: _____

Contact Address: _____

Contact Phone: _____ **Contact Fax:** _____

Location of Source Sample (i.e. raw water tap, raw water pump house): _____

Location of Finished Sample (i.e. combined filter effluent): _____

Sampling Information:

Year	Quarter	Quarter Average of Finished water TOC (mg/L)	Running Annual Average (mg/L)
