

## Caswell Developmental Center Services in Detail

### General Services:

Caswell Developmental Center is a certified Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID), providing 24 hour comprehensive residential services. Services include:

Primary Medical Care/Dental Care	Psychiatry	Psychology
Nursing	Physical Therapy	Occupational Therapy
Habilitation Training	Recreation Therapy	Speech Therapy
Nutrition	Vocational	Education
Medication Evaluation/Administration	Chaplaincy	Leisure

During an admission at the Center, a team of professionals, along with the individual and family/guardian, develops a comprehensive Person-Centered Plan (PCP) that outlines the specific needs and wishes of the person. Team members from the center may include representatives from the disciplines listed above. The goal of the PCP process is to prepare the person for re-integration back to the community. Prior to discharge, the team, including a representative from the individual's Management Care Organization, identifies community based services to support the individual, based on the identified needs and wishes of the person. A transition plan is then developed to support a successful move back to the community.

### Other Services:

#### Intellectual Disability and Mental Illness (IDMI) Program:

Caswell Developmental Center's Intellectual Disability and Mental Illness program (ID/MI) is a 10 bed residential program for males with dual diagnoses of intellectual disability and mental illness. Individuals served in the IDMI program must be 18 years of age, meet the ICF/IID eligibility requirements, experienced multiple failed community options, and have an unstable psychiatric diagnosis. The maximum length of stay in the IDMI program is up to 18 months.
