Our Primary Purpose

To provide inpatient treatment, psychiatric stabilization and medical detoxification for individuals with substance use and other co-occurring psychiatric diagnoses to prepare for ongoing community-based treatment and recovery.

The Center is accredited by The Joint Commission, as a Behavioral Health Facility and certified by SAMHSA/CSAT, The Joint Commission and the NC Opioid Treatment Authority as an Inpatient Opioid Treatment Program.

Operated by the NC Department of Health and Human Services, Division of State Operated Healthcare Facilities

- Adults referred for services or who may walk in for an assessment are provided with a referral to an appropriate level of care if not admitted.

Certified by

WALTER B. JONES
Woodside Treatment Center

Walter B. Jones Woodside Treatment Center provides crisis detoxification and stabilization services for adults in Eastern North Carolina. The Center has inpatient treatment services to address the needs of those presenting with substance use specific and/or co-occurring substance use and mental health disorders.

Perinatal services are also provided for women needing inpatient substance use and/or mental health treatment from all 100 NC counties. Women are accepted in all stages of their pregnancies.

WBJ Woodside Treatment Center provides crisis detox and crisis stabilization services for the Eastern Region of North Carolina.

Risk Factors for Suicide

Research has found that more than half of people who died by suicide did not have a known mental health condition. Several other factors may put a person at risk of suicide, including:

- A family history of suicide
- Substance abuse
- Intoxication
- Access to firearms
- A serious or chronic medical illness
- Gender - Although more women than men attempt suicide, men are four times more likely to die by suicide.
- A history of trauma or abuse
- Prolonged stress
- Isolation
- Age - People under age 24 or above age 65 are at a higher risk for suicide.
- A recent tragedy or loss
- Agitation
- Sleep deprivation
