COURSE DESCRIPTION:
The CSE Manager's Course is designed for Supervisors and Lead Workers in the CSE program. It offers opportunities to learn/review supervisory activities, gain understanding of CSE Central Office functions and their correlation to local office duties, and share new ideas for effective service delivery. CSE Central Office staff will share insights on effective interactions/collaboration between their areas and the local CSE offices including distribution, security, legal, policy, management reports, technical, interstate, and other aspects of the program. In this workshop, you can get answers to your questions concerning the impact of CSE Central Office procedures on local offices, a "heads-up" on upcoming program changes, and the chance to network with your peers and discuss common issues and concerns.
