DEAR COUNTY DIRECTOR OF SOCIAL SERVICES

Attention: Child Welfare Administrators, Managers and Supervisors

Re: Training for Child Welfare Intake and On-call Supervisors and Social Workers

It is with great pleasure that we announce a one-day training to introduce the new Strengths-Based, Structured Intake process and tools. This process provides social work staff with a structured intake instrument that guides discussions with reporters and utilizes decision trees to assist with more consistent intake decisions from worker to worker and county to county. The Strengths-Based, Structured Intake process is one of the seven MRS strategies.

Approved by the Children’s Services Committee of the North Carolina Association of County Directors of Social Services, the use of this new approach and instruments will become effective for all 100 counties on June 1, 2003. Within the next week, counties will have available to them the new Strengths-Based, Structured Intake policies and tools.

Over the next four weeks, the Division will offer training at five different locations across the state to explain the process and tools. Each site will serve a maximum of 75-100 participants, depending upon the individual site. Training will begin at 9:00 a.m. and will end by 4:00 p.m. For this particular training event, we are targeting child welfare intake and on-call supervisors and front line staff. Supervisors and social work staff in other areas of child welfare may also register for this particular training event. Please note that acceptance into the training from other areas of child welfare will be based on availability at each site. In the alternative, social work staff who’s primary job responsibilities are in areas other than Child Welfare Intake or On-call, may attend the revised Intake in Child Welfare Services, listed in our Summer/Fall 2003 training calendar. These calendars should be in agencies by early June 2003. For new social workers who will be attending Child Welfare in North Carolina, the Strengths-Based, Structured Intake process and instruments will become a part of this curriculum effective June 1, 2003.

A list of the training locations, dates and registration person for each training event is on the following page. Registration may occur by faxing the registration form, located in the Winter/Spring 2003 training calendar, to the appropriate registrar. Also, registration forms may be downloaded from the North Carolina Division of Social Services website at
www.dhhs.state.nc.us/dss/childrengservices. Please click on the Training tab, and then click on Training Registration Form. Directions to each site are attached for your convenience.
