Training Details

Shelter Fundamentals
Online Class - Disaster Cycle Services - 2 hours, 30 minutes
Request

The revised Shelter Fundamentals web-based course is available as of June 22, 2017. It is expected that all disaster workers take the revised course, either instructor-led or web-based, before deploying on a disaster assignment or within the next 6 months. Anyone who has completed the revised instructor-led version since January 2017 does not need to re-take the training.

Course Prerequisites: Disaster Cycle Services: An Overview

Available Languages
English (US)
