Designated AMH Veteran* (Military Service Member), age 18 and over, who has served in Operation Enduring Freedom (OEF) or Operation Iraqi Freedom (OIF)*, as defined below, or an Adult Family Member**, age 18 and over, of a designated AMH or CMH Veteran who has served in Operation Enduring Freedom (OEF) or Operation Iraqi Freedom (OIF), and who:

- has a Division covered diagnosis of an ICD-9 Mental Disorder as evidenced by a principal or primary mental health diagnosis as listed below; OR
- has a Division covered V Code of an ICD-9 Supplementary Classification of Factors Influencing Health Status and Contact with Health Services (V-Code) as listed below;

AND
- has completed a current Screening/Triage/Referral (STR) process, and, as appropriate, provided the individual with information about federal, state, and local resources available to Military Services Members and their families; AND
- has received a current STR triage determination of "Urgent" or "Routine" (A consumer screened with a STR triage determination of “Emergent” should be immediately placed in an appropriate Adult Crisis Target Population); AND
- has been referred by STR to a provider for assessment; AND
- has been determined by the provider not to be eligible for Medicaid or Health Choice Program benefits; AND
- has been determined by the provider not to be eligible for any other adult MH, DD, or SA Target Population (A developmental disabilities consumer or a substance abuse consumer should be immediately placed in an appropriate adult DD or SA Target Population. An adult mental health consumer meeting the AMI or AMSRE target population should be placed in one of these target populations); AND
- has been determined by the provider not to be eligible for medically necessary service(s) under any program directly or indirectly provided or sponsored by the Department of Veterans Affairs, the CHAMPVA Program, the Department of Defense TRICARE/CHAMPUS Program, or any other public or private health insurance program. An individual’s lack of eligibility for presenting diagnosis(es) for medically necessary service(s) includes a denial or lack of eligibility due to Military Service Member or Family Member diagnostic status, type of service(s) needed, exhausted or inadequate services coverage for medically necessary MH, DD, SA services, including TBI-related services, or a delay of 14 days or more in confirming eligibility for such coverage through other resources.

An eligible diagnosis of an ICD-9 Mental Disorder or an eligible V Code of a ICD-9 Supplementary Classification may be accompanied by a Traumatic Brain Injury (TBI) or intracranial injury and accompanying medical necessity for MH/DD/SA services to address TBI-related psychiatric disorders, emotional problems, behavioral symptoms, and changes in mood or personality. These include such conditions as emotional instability, depression, anxiety, hypomania, mania, apathy, irritability, anger, obsessive compulsive disorder, bipolar disorder, phobias, panic disorder, disinhibition, inability to control anger, impulsiveness, lack of initiative, inappropriate sexual activity, aggression, and trouble with memory, concentration, attention, language, thinking, and learning.

All mental health consumers are required to be enrolled by providers and LMEs in a primary disability target population group that represents the consumer’s principal or primary diagnosis and the main focus of attention or treatment, and that is chiefly responsible for the need for services received for the current episode of care.
Integrated Payment & Reporting System (IPRS) Target Population Details – FY 2010-11

Adult Mental Health
Veteran and Family (AMVET)

(continued)

*Designated AMH Veteran (Military Service Member) is defined as a Military Service Member, age 18 or over, who has served in Operation Enduring Freedom (OEF) or Operation Iraqi Freedom (OIF), and includes the following:
- Active Duty Service Member (Discharged)
- National Guard or Reserve Member (Activated)
- National Guard or Reserve Member (Not Activated)
- National Guard or Reserve Member (Discharged)
- Active Duty Service Member (Deceased)
- Activated, Not Activated, or Discharged National Guard or Reserve Member (Deceased)

** Adult Family Member of a Designated AMH or CMH Veteran is defined as a family member, age 18 or over, of a living or deceased designated AMH or CMH Veteran who has served in Operation Enduring Freedom (OEF) or Operation Iraqi Freedom (OIF), and includes the following:
- Spouse or Domestic Household Partner (age 18 or over)
- Unremarried Former Spouse or Unremarried Widow or Widower (age 18 or over)
- Dependent Adult Child, including SSI-Related Disabled Adult Child (age 18 or over)
- Dependent Parent or Guardian (age 18 or over)
- Family Member currently providing Dependent Care for Designated Veteran (age 18 or over)

Noncovered Undesignated AMH Veterans and Adult Family Members
It is anticipated that noncovered undesignated adult Veterans (ages 18 and over), and adult Family Members (ages 18 and over) of a living or deceased undesignated Veteran, will maintain continuing federal benefits eligibility and will not require services eligibility through IPRS for the following individuals:
- Active Duty Service Member and Dependent Family Members
- Retired Service Member and Dependent Family Members
- Retired National Guard or Reserve Member and Dependent Family Members
- Member of Armed Forces Service Academy and Dependent Family Members
