Use and Disclosure of Health Information Without Your Authorization

Wright School performs some functions through contracts with other agencies and through private contractors and business associates. When services are contracted, Wright School must share enough information about your child with its contractors and business associates so that the private contractors and business associates can perform the job that Wright School has asked them to do.

To protect your child’s health information further, Wright School will only disclose your child’s health information after making sure in writing that its contractors or business associates will safeguard your information the same way that Wright School does. They agree to use your child’s information appropriately and are required by law to do so. Wright School may use or disclose your child’s protected health information to provide services to you for treatment, payment and healthcare operations.

Treatment: Wright School may use your child’s health information, as needed, in order to provide, coordinate or manage your child’s health care and related services. This includes sharing your child’s health information with other health care providers within this agency. (Example: Your child’s treatment team, composed of staff such as clinical coordinators, teacher/counselors, and social workers, will need to review your child’s treatment and discuss plans for your child’s discharge.)

We will disclose your child’s health information outside of Wright School for treatment purposes only with your consent or when otherwise allowed under state or federal law (Example 1: We may disclose your child’s health information to other mental health facilities or professionals (i.e., community based area mental health, developmental disabilities and substance abuse services program or psychiatric service at UNC Hospitals) in order to coordinate your child’s care. Example 2: We may share your child’s health information with a health care provider for emergency services.)

Payment for Services: (Please note: Wright School is not billing for services at the present time. If and when Wright School began to bill for treatment, this payment for services policy would be put into place.) The treatment provided to your child will be shared with Wright School’s billing department so a bill can be prepared for services rendered. We may also share your child’s health information with Wright School staff who review services provided to your child to make certain your child has received appropriate care and treatment. We will not disclose your child’s health information outside of
this agency for billing purposes (i.e., bill your insurance company) without your authorization except in certain situations when we need to determine if your child is eligible for benefits such as Medicaid, Medicare or Social Security. (Example: A Social Worker may contact your local Department of Social Services to determine if your child is currently eligible for Medicaid or if your child would qualify for Medicaid. Example: Our billing department will collect insurance and other financial information from you at the time of admission.)
