

Shearin / Secondary PSAP Funding

Secondary PSAPs should be funded through the Primary PSAP for the county. If they provide a service that relieves the workload of the primary then the two PSAPs should come to an agreement in regards to how the money is distributed.

OR

Funding should be based upon services that are provided. If the secondary PSAP only handles law enforcement calls for service then they should not be funded at the same level as a primary PSAP that handles law enforcement, fire, and EMS.

The goal should be to provide the citizens and the visitors of NC optimal and uniform service from one end to the other. If a Secondary PSAP adds delays to this service that should not be acceptable.
