Tips for keeping your personal information safe, your family protected, and our national security intact.

**Stop**
- hackers from accessing your accounts — set secure passwords.
- sharing too much information — keep your personal information personal.
- trust your gut. If something doesn't feel right, stop what you are doing.

**Think**
- about the information you want to share before you share it.
- how your online actions can affect your offline life.
- before you act — don’t automatically click on links.

**Connect**
- over secure networks.
- with people you know.
- with care and be on the lookout for potential threats.

Securing one citizen, one family, one Nation against cyber threats.
