

# APPENDIX K: Emergency Preparedness and Response

**Background:**

This standalone appendix may be utilized by the state during emergency situations to request amendment to its approved waiver. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.<sup>i</sup> This appendix may be completed retroactively as needed by the state.

beneficiaries. The State will continue to work with the LME-MCOs as ongoing status determinations are made. North Carolina is requesting that these flexibilities be effective statewide.

North Carolina operates under a 1915(b)(c) waiver where the LME-MCOs are PIHPs who operationalize the waiver under a contract with the State. The State is in regular communications with the LME-MCOs on the status of waiver operations in their areas.

<sup>i</sup> Numerous changes that the state may want to make necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
