Part I: Overview of Advanced Medical Homes (AMHs)
Introduction to Advanced Medical Homes (AMHs)

**Vision for Advanced Medical Homes**

Build on Carolina ACCESS to **preserve broad access to primary care services** for Medicaid enrollees and **strengthen the role of primary care in care management, care coordination, and quality improvement** as the state transitions to managed care.

**Practices will have options as AMHs:**

- Current Carolina ACCESS practices may **continue as AMHs with few changes**; practices ready to take on more advanced care management functions **may be eligible for additional payments**

- Practices may rely on **in-house care management** capacity or **contract with a Clinically Integrated Network (CIN)** or other partner of their choice.

- Unlike in Carolina ACCESS, practices **WILL NOT** be required to contract with CCNC
Promoting Local Care Management

**AMHs are designed to enhance access to local, primary care-based care management for Medicaid enrollees**

- The AMH program includes *per member per month (PMPM) payments* for primary care providers to deliver *primary care case management (PCCM)* services.
- Minimum practice requirements in the AMH program will be the *same as Carolina ACCESS*.
- The AMH program allows and encourages PHPs to *delegate more advanced care management responsibilities* down to the practice level:
  - Local care management is a *cost-effective* way to improve individual and population health.
  - AMHs can manage care as a practice or by contracting with a CIN or other third-party care management partner.
  - Practices that take on more advanced care management functions will receive *additional PMPM reimbursement* from PHPs.
AMH Tiers

Tiers 1 and 2

- PHP retains primary responsibility for care management
- Practice requirements are the same as for Carolina ACCESS
- **Providers will need to coordinate across multiple plans:** Practices will need to interface with multiple PHPs, which will retain primary care management responsibility; PHPs may employ different approaches to care management

AMH Payments
(paid by PHP to practice)

- PMPM medical home fees
  - Same as Carolina ACCESS
  - Non-negotiable

Tier 3

- PHP delegates primary responsibility for delivering care management to the practice level
- Practice requirements: meet all Tier 1 and 2 requirements plus take on additional Tier 3 care management responsibilities
- **Single, consistent care management platform:** Practices will have the option to provide care management in-house or through a single CIN/other partner across all Tier 3 PHP contracts

AMH Payments
(paid by PHP to practice)

- PMPM medical home fees
  - Same as Carolina ACCESS
  - Non-negotiable
- **Additional PMPM care management fees**
  - Negotiated between PHP and practice

Tier 4: To launch at a later date
Part II: Overview of Carolina ACCESS Today
Transition of Carolina ACCESS to AMH

Carolina ACCESS has been North Carolina’s PCCM program since the 1990s

What is Carolina ACCESS?

- North Carolina’s regionally-based program that provides PCCM services to North Carolina Medicaid beneficiaries
- North Carolina DHHS contracts with Community Care of North Carolina (CCNC) to provide enhanced care management services

Carolina ACCESS Practice Requirements

- After-hours medical advice
- Maximum enrollment limit
- Availability of oral interpretation services
- Minimum hours of operation
- Preventive and ancillary service availability (based on ages of beneficiaries served)*

* See Appendix for complete list of required preventive and ancillary services.
Carolina ACCESS Has Two “Levels”

Carolina ACCESS I (CAI)
- CAI practices **must meet all necessary practice requirements** as determined by North Carolina DHHS.
- **Payments to practices include $1.00 per member per month (PMPM)** for beneficiaries enrolled with the practice, in addition to fee-for-service (FFS) payments.

Carolina ACCESS II (CAII/CCNC)
- CAII practices must meet all CAI practice requirements and sign a separate contract with their local CCNC network.
- **Payments to practices, in addition to FFS payments:**
  - **$2.50 PMPM** for most Medicaid and North Carolina Health Choice beneficiaries enrolled with the practice.
  - **$5.00 PMPM** for aged, blind, and disabled (ABD) beneficiaries.

*Commonly known as “CCNC”*
Part III: Transitioning from Carolina ACCESS to AMH
Transition of Carolina ACCESS to AMH

AMH builds on existing infrastructure of Carolina ACCESS

AMH Tiers 1 and 2 incorporate Carolina ACCESS requirements and payment models into managed care

- Providers in AMH Tiers 1 and 2 will continue to have the same practice requirements and receive the same PMPM payments

Primary care practices participating in or eligible to participate in Carolina ACCESS are also eligible to participate as AMHs

- Providers currently participating in Carolina ACCESS will be automatically grandfathered into the new program as AMHs
- Medicaid providers not participating in Carolina ACCESS must enroll in Carolina ACCESS through NCTracks before they will be eligible for AMH certification
- Practices not currently enrolled in Medicaid will first need to enroll in Medicaid AND complete the Carolina ACCESS supplemental application
Role of Carolina ACCESS/FFS in North Carolina Medicaid Going Forward

**Fee-For-Service (FFS)**
- Carolina ACCESS will continue to operate concurrently with AMHs for populations remaining in FFS coverage
  - These include exempt/excluded beneficiaries and those that haven’t yet rolled into managed care
- Practices can continue participating in CAII/CCNC for FFS populations
- CAI will sunset for practices not currently in Carolina ACCESS

**Managed Care**
- AMH replaces Carolina ACCESS
- Practices must go through the Carolina ACCESS application process in order to participate in AMH
  - It is **NOT** necessary to be a CAII practice or to sign a contract with CCNC
- Carolina ACCESS status will streamline a practice’s path to becoming an AMH
  - CAI practices are grandfathered into AMH Tier 1
  - CAII practices are grandfathered into AMH Tier 2
- Practices not currently participating can still enroll as an AMH but will first need to enroll in Carolina ACCESS
Carolina ACCESS to AMH Transition Roadmap

A practice’s current Carolina ACCESS status will determine its eligibility for and pathway to each of the AMH tiers

Roadmap for Non-NC Medicaid Practices

Practices New to NC Medicaid

- Option 1
  - Enroll in NC Medicaid through NCTracks and complete the Carolina ACCESS application
  - AMH Tier 2 Certified
    - Practice contracts with PHPs as AMH Tier 2 to receive AMH payments

- Option 2
  - Completes Tier 3 Attestation in NCTracks
  - AMH Tier 3 Certified
    - Practice contracts with PHPs as AMH Tier 3 to receive AMH payments

- Option 3
  - Do not participate as an AMH
    - No Action

Part IV:
Comparing Carolina ACCESS and AMH
Key Similarities Between Carolina ACCESS and AMH

1. Types of practices eligible for Carolina ACCESS and AMH are the same

2. AMH Tier 2 requirements are the same as CAI/II requirements

3. Practices can continue to work with CCNC if they choose

4. Payment structure for AMH Tiers 1 and 2 mirrors CAI and CAII/CCNC
# Key Differences Between Carolina ACCESS and AMH

<table>
<thead>
<tr>
<th>Carolina ACCESS</th>
<th>AMH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carolina ACCESS payments commence as soon as practice is certified as CAI or CAII/CCNC</td>
<td>AMH payments to practice will not commence until contract with PHP is signed. Attestation through NCTracks/grandfathering from Carolina ACCESS only provides a certification status</td>
</tr>
<tr>
<td>CCNC is the sole vendor of care management services</td>
<td>CCNC is no longer the sole care management vendor. Practices are free to contract with any CINs/partners</td>
</tr>
<tr>
<td>Practices must contract with CCNC to receive $2.50/$5 PMPM payments</td>
<td>Practices do not need to contract with a CIN or other partner and can perform care management in-house to receive medical home fees</td>
</tr>
<tr>
<td>Carolina ACCESS has only two levels, and practices only receive fixed PMPM medical home fees</td>
<td>Practices can participate in AMH at the Tier 3 level and be eligible for additional care management fees. Tier 3 requirements are above and beyond those for Carolina ACCESS, and performance incentive payments may be issued by PHPs</td>
</tr>
</tbody>
</table>
Part V:  
Practice Use Cases
Practice Use Cases

- Most NC Medicaid practices eligible to participate in AMH will have beneficiaries that remain in FFS:
  - Most beneficiaries will transition to managed care in 2019, but beneficiaries in some regions will transition to managed care on a delayed timeline
  - Specified high-need beneficiaries will remain in FFS: CAI and CAII practices will continue to receive Carolina ACCESS payments for these patients
- As in Carolina ACCESS, AMH practices will receive higher medical home fees for aged, blind, and disabled (ABD) beneficiaries

Even with the same panel composition, practices may receive different PMPM payment amounts based on their AMH/Carolina ACCESS designations.
Sample Practice 1: Non-CA Practice

### Current State Carolina ACCESS Payments: $0

#### Option 1

- **AMH Tier 2 (Attest)**

  **Future State Payments**

  *Total Payments: $12,000*
  - AMH medical home fees for managed care beneficiaries: $12,000
  - No Carolina ACCESS payments for beneficiaries remaining in FFS (unless practice contracts with CCNC for FFS)

#### Option 2

- **AMH Tier 3 (Attest)**

  **Future State Payments**

  *Total Payments: $12,000 + negotiated amt.*
  - AMH payments for managed care beneficiaries: $12,000
  - Additional negotiated care management & performance payments
  - No Carolina ACCESS payments for beneficiaries remaining in FFS (unless practice contracts with CCNC for FFS)
