

Patient Volume Reporting Periods

Attesting for Program Year 2020

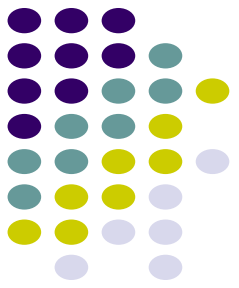

Patient Volume Reporting Periods

- NC has a 120-day attestation tail period.
- Therefore, EPs have until April 30, 2021 to submit a Program Year 2020 attestation.
- There are two options for your patient volume reporting period:
 - Pull patient volume from the calendar year prior to the program year (i.e. calendar year 2019 for Program Year 2020)
 - Pull patient volume from the 12 months preceding the attestation

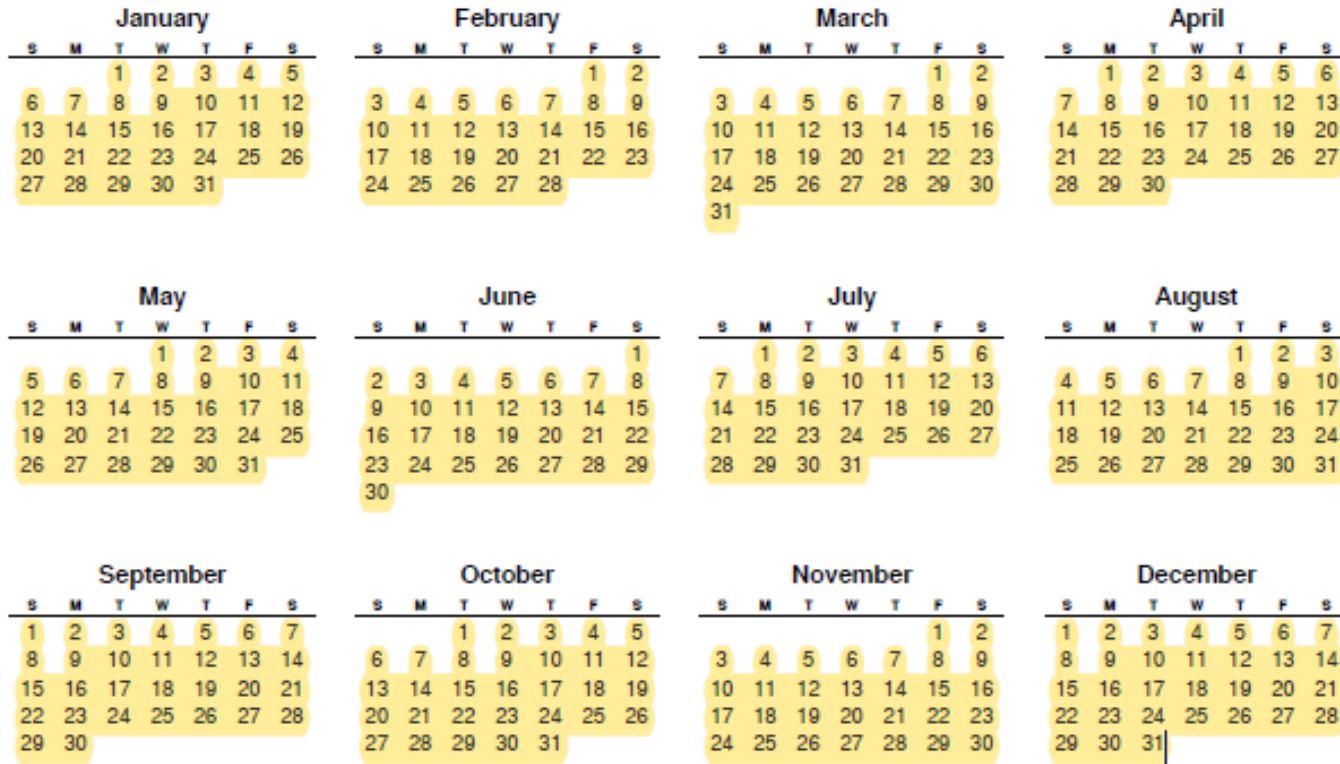

PV Reporting Periods – Option 1

Example: Attesting for PY 2020 on 5/1/2020

Calendar for Year 2019 (United States)

Choose any consecutive 90-day period from the calendar year prior to the program year.

For example, if you were to attest on May 1, 2020 for Program Year 2020, you can select any consecutive 90-day reporting period from January 1, 2019 through December 31, 2019.

PV Reporting Periods – Option 2

Any consecutive 90 days in the 12 months preceding attestation (highlighted dates)

PV Reporting Periods – Option 2 Cont'd

Example: attesting for PY 2020 on 5/1/2020

- If you attest on May 1, 2020 for Program Year 2020, you can select any consecutive 90-day reporting period from the 12 months preceding attestation. That's May 1, 2019 through April 30, 2020.
- Keep in mind that the closer your reporting period is to the date of your attestation, the more likely your payment will be delayed. This is because we use paid claims to validate the numbers of encounters you attest to, so claims lag would be a major factor.

PV Reporting Periods

Remember, three months does not necessarily equal 90 days.

Regardless of the option you choose, the reporting period must be EXACTLY 90 days.

PV Reporting Period \neq MU Reporting Period

The PV reporting period can be different from the MU reporting period.

Your MU reporting period will be either:

- Any consecutive 90-day period in calendar year 2020; or,
- Full calendar year (i.e. January 1, 2020 – December 31, 2020)
