</table>
| **Target Population:** Individuals between the ages of 0-115 years, who meet the level of care (LOC) eligibility at a nursing facility or hospital and are at risk for institutionalization | **CAP/C:** 0-20  
**CAP/DA:** 18-115+ | 1. Allows for a seamless transition from childhood into adulthood  
2. Waiver services follow the individual with no gaps in service provision  
3. Eliminates the overlapping age of eligibility in the two waivers of 18-20  
4. Allows individuals between the ages of 18-20 who are not medically fragile but disabled to enter the waiver seamlessly | No implications if waivers merge; a transition plan will be created at age 17.5 for the following purposes:  
1. Completion of an adult Medicaid application; and  
2. Create a transition plan of care that takes into account EPSDT services that end at age 20 |
| Medicaid eligibility criteria:  
- Aged  
- Blind  
- Disabled  
- Medically fragile  
- Individual receiving assistance through foster care | **CAP/C:** blind, disabled and foster care  
**CAP/DA:** aged, blind, disabled | Meet the federal requirements of the 1915(c) HCBS waiver and the state’s long-term care Medicaid definition | None |
## Overview of Proposed Changes and its Impact
